On Shaky Ground John J. Nance, 2016-01-19 A “gripping” look at the massive disasters that could strike at any moment, from a New York Times–bestselling author (San Francisco Examiner-Chronicle). Far beneath the earth’s surface, great tectonic plates grind against one another with incredible pressure that must–inevitably–be released. Earthquakes manifest with little warning, upending buildings, shattering infrastructure, and unleashing devastating tsunamis. In this remarkable survey of the history of seismology and the extraordinary seismic events that have occurred in the United States, Mexico, China, and other locales, author John J. Nance traces the discoveries of the scientists who have dedicated their lives to understanding and predicting one of the deadliest threats known to mankind. From the Pacific Northwest to the Midwest and the East Coast, most of the United States—not just California—is in danger of a massive quake, and few citizens are adequately prepared. Through riveting firsthand interviews with earthquake survivors, and with the same command of technical detail and gripping style that he brings to his New York Times–bestselling thrillers, Nance demonstrates the need for readiness—because the next big quake could happen tomorrow.

Shaky Town Lou Mathews, 2021-08-24 In *Shaky Town*, Lou Mathews has written a timeless novel of working-class Los Angeles. A former mechanic and street racer, he tells his story in cool and panoramic style, weaving together the tragedies and glories of one of L.A.’s eastside neighborhoods. From a teenage girl caught in the middle of a gang war to a priest who has lost his faith and hit bottom, the characters in *Shaky Town* live on a dangerous faultline but remain unshakable in their connections to one another. Like Sherwood Anderson’s *Winesburg, Ohio*, John Steinbeck’s *Cannery Row*, Katherine Ann Porter’s *Ship of Fools*, Gloria Naylor’s *The Women of Brewster Place*, and Pat Barker’s *Union Street*, *Shaky Town* is the story of complicated, conflicted, and disparate characters bound together by place.

Shopping 3.0 Cor Molenaar,2016-04-01 Retailers are in difficult times. The recession, global competition, government regulation and the growth of the Internet mean that costs are rising but margins are increasingly squeezed. Cor Molenaar's *Shopping 3.0* offers an engaging, convincing and well-researched manifesto for the future of retailing; a manifesto which encourages retailers to switch their approach from a strategy that is based around transactions to one that is based around customers. Logic dictates that there is no one single strategy that will work for all retailers; some of them may indeed benefit from investing in e-retailing solutions and the Internet but for others, success will lie in developing a service based on customer experience or one with some apparently bespoke elements; a strategy to appeal to customers as individuals. *Shopping 3.0* examines all these changes. It sketches the world of consumers; those who make their purchases from the comfort of their armchair and those who enjoy shopping with friends. Cor Molenaar explores the impact of changing consumer attitudes to shopping; the role of new technology in future retailing and the changing face of both city centre and out of town shops and malls. *Shopping 3.0* offers a welcome helping hand for retailers, both physical and web-based shopkeepers; something to help you make sense of the ongoing revolution in shopping and to plan or adjust your business strategy to enable you not just to survive but to thrive in a world that will look very different in a few years time.

Retail ,2014-07-07 This collection was prompted by the sudden closings, in 2006, of some of our largest, most iconic and cherished stores. Believing that further closings were not only possible but imminent, architecture and interiors photographer Stephen Michael Garey set out to photograph a wide range of retail environments ? from our best known chains to single-location ?mom and pop? shops. His goal: to provide a visual, hopefully memorable record of their existence; something for future generations. One year after starting his project, the U.S. economy collapsed. That time of struggle is known as The Great Recession. It brought \$4 per-gallon gasoline, a collapse of financial markets, a staggering rate of unemployment, an unknown future for the auto industry and ? very much in line with what Garey had perhaps foreseen ? thousands of store closings, many family owned and operated for generations. Retail has survived economic crises much worse than the one that began in 2007. Surrounded by retail environments everywhere we turn, it would

seem we have good reasons to believe that retail as we know it will continue and will strengthen over time. Maybe. Maybe not. Unrelenting economic pressures, the steadily rising cost of gasoline, stagnant wages, the explosive growth of online shopping ? even climate change ? continue to play a part in keeping retailers on shaky ground. These pressures and conditions have also provided Garey with the impetus to continue his artful documentation project. Volume Two is scheduled to be released in just a few months. All images in Retail were captured spontaneously and candidly. None were ?set up? or in any way specially arranged, posed for or augmented with support lighting. People in the photographs are shoppers, not models. In some instances, the only indication that an image was photographed in or around a retail environment is the presence of a hang tag, a pricing sign, a dangling electric cord, a pad or pencil ... something normally not included in a photograph intended for professional use. These photographs are of stores, merchandise and shoppers as they really are, just as Stephen Michael Garey found them.

Old Shop Stories C. Blaine Hyatt, 2022-12-20 C. Blaine Hyatt spent hours in his father's repair shop as a boy, listening to others tell fascinating stories. Fascinated by their strategies for navigating challenges—and the times in which they lived—he set about writing this collection of stories to preserve their collective history. One lesson he hopes readers will take away is that the things of this world do not matter in the big picture. No one cares what kind of car you have or what position you held. None of the things of this world that we often place so much value on matter much, if at all. When all is said and done, there are really only two things that last: What we have become and the legacy we leave—as in the effect, either good or bad, we have had on others. As you read these stories, the author hopes you will be aware that the water in your life is still flowing under your bridge. Take the time to become who and what you want to be and consider what legacy you will leave with others.
