The Book Block Rúben R Dias,Rui Oliveira,Fábio Duarte Martins,Ricardo Philippe Dantas,2019-12-01 The Book Block is a manual of industrial binding techniques, the first in the Making a Book collection, which focuses on manuals for graphic book production. With the aim of elevating knowledge about graphic production among designers — helping them to produce better books and communicate more effectively with all those involved in the process — The Book Block brings together the 17 most common industrial binding techniques in 6 categories, exploring each one in detail, describing them and showing what is possible to do in this day and age. Conceived from scratch to be bilingual, in Portuguese and English, the book seeks to systematize Portuguese terminology in the printing industry, while providing the same information in the lingua franca of today's global market: English. In an international context, with customers, employees and producers sprinkled throughout the world, this book provides the perfect tool for an effective communication. Developed by experienced book designers and bookbinders — Itemzero and Maiadouro — this book is a summary of decades of know-how, now easily made available.

Do you believe rules were meant to be broken? If so, this improvisational quilt-as-you-go technique is for you. The book introduces the technique very thoroughly, so you can clearly understand the difference between traditional piecing and quilting and QAYG. Then there's a great selection of gorgeous quilts that are sure to appeal to the modern quilter. A General Theory of Visual Culture Whitney Davis,2022-06-14 What is cultural about vision--or visual about culture? In this ambitious book, Whitney Davis provides new answers to these difficult and important questions by presenting an original framework for understanding visual culture. Grounded in the theoretical traditions of art history, A General Theory of Visual Culture argues

that, in a fully consolidated visual culture, artifacts and pictures have been made to be seen in a certain way; what Davis calls *visuality* is the visual perspective from which certain culturally constituted aspects of artifacts and pictures are visible to informed viewers. In this book, Davis provides a systematic analysis of *visuality* and describes how it comes into being as a historical form of vision. Expansive in scope, *A General Theory of Visual Culture* draws on art history, aesthetics, the psychology of perception, the philosophy of reference, and vision science, as well as visual-cultural studies in history, sociology, and anthropology. It provides penetrating new definitions of form, style, and iconography, and draws important and sometimes surprising conclusions (for example, that vision does not always attain to visual culture, and that visual culture is not always wholly visible). The book uses examples from a variety of cultural traditions, from prehistory to the twentieth century, to support a theory designed to apply to all human traditions of making artifacts and pictures--that is, to visual culture as a worldwide phenomenon.

A Stranger in the Kingdom Howard Frank Mosher,2014-05-27 This novel of murder and its aftermath in a small Vermont town in the 1950s is “reminiscent of *To Kill a Mockingbird* . . . Absorbing” (The New York Times). In Kingdom County, Vermont, the town’s new Presbyterian minister is a black man, an unsettling fact for some of the locals. When a French-Canadian woman takes refuge in his parsonage—and is subsequently murdered—suspicion immediately falls on the clergyman. While his thirteen-year-old son struggles in the shadow of the town’s accusations, and his older son, a lawyer, fights to defend him, a father finds himself on trial more for who he is than for what he might have done. “Set in northern Vermont in 1952, Mosher’s tale of racism and murder is powerful, viscerally affecting and totally contemporary in its exposure of deep-seated prejudice and intolerance . . . [A] big, old-fashioned novel.” —Publishers Weekly “A real mystery in the best and truest sense.”—Lee Smith, The New York Times Book Review A Winner of the New England Book Award

Fashioning Globalisation Maureen Molloy,Wendy Lerner,2013-06-20 Drastic changes in the career aspirations of women in the developedworld have resulted in a new, globalised market for off-the-pegdesigner clothes created by independent artisans. This book reportson a phenomenon that seems to exemplify the twin imperativesof globalisation and female emancipation. A major conceptual contribution to the literatures onglobalisation, fashion and gender, analysing the ways in whichwomen’s entry into the labour force over the past thirtyyears in the developed world has underpinned new forms ofaestheticised production and consumption as well as the growth of‘work-style’ businesses A vital contribution to the burgeoning literature on cultureand creative industries which often ignores the significant rolestaken by women as entrepreneurs and designers rather than mereconsumers Introduces fashion scholars and economic geographers to aparadigmatic example of the new designer fashion industriesemerging in a range of countries not traditionally associated withfashion Takes a fresh perspective on an industry in which Third Worldgarment workers have been the subject of exhaustive analysis butfirst world women have been largely ignored

Beyond the Neon Lights Hanchao Lu,2023-07-28 How did ordinary people live through the extraordinary changes that have swept across modern China? How did peasants transform themselves into urbanites? How did the citizens of Shanghai cope with the epic upheavals—revolution, war, and again revolution—that shook their lives? Even after decades of scholarship devoted to modern Chinese history, our understanding of the daily lives of the common people of China remains sketchy and incomplete. In this carefully researched study, Hanchao Lu weaves rich documentary data with ethnographic surveys and interviews to reconstruct the fabric of everyday life in China's largest and most complex city in the first half of this century.
