Michael's Crag Grant Allen,1893 Fight him down in your own heart, then, dear, Mrs. Trevennack said, gently. Remember, we all may fall. Lucifer did-- and he was once an archangel. Fight him down in your own heart when he suggests hateful thoughts to you. For I know what you felt when it came over you instinctively that that young man had done it. You wanted to fly straight at his throat, dear Michael--you wanted to fly at his throat, and fling him over the precipice.

The Mathews Men William Geroux,2022-11-01 "Vividly drawn and emotionally gripping. --Daniel James Brown, #1 New York Times bestselling author of *The Boys in the Boat* From the author of *The Ghost Ships of Archangel*, one of the last unheralded heroic stories of World War II: the U-boat assault off the American coast against the men of the U.S. Merchant Marine who were supplying the European war, and one community's monumental contribution to that effort Mathews County, Virginia, is a remote outpost on the Chesapeake Bay with little to offer except unspoiled scenery--but it sent an unusually large concentration of sea captains to fight in World War II. *The Mathews Men* tells that heroic story through the experiences of one extraordinary family whose seven sons (and their neighbors), U.S. merchant mariners all, suddenly found themselves squarely in the cross-hairs of the U-boats bearing down on the coastal United States in 1942. From the late 1930s to 1945, virtually all the fuel, food and munitions that sustained the Allies in Europe traveled not via the Navy but in merchant ships. After Pearl Harbor, those unprotected ships instantly became the U-boats' prime targets. And they were easy targets--the Navy lacked the inclination or resources to defend them until the beginning of 1943. Hitler was determined that his U-boats should sink every American ship they could find, sometimes within sight of tourist beaches, and to kill as many mariners as possible, in order to frighten their shipmates into staying ashore. As the war progressed, men from Mathews sailed the North and South Atlantic, the Caribbean, the Gulf of Mexico, the Mediterranean, the Indian Ocean, and even the icy Barents Sea in the Arctic Circle, where they braved the dreaded Murmansk Run. Through their experiences we have eyewitnesses to every danger zone, in every kind of ship. Some died horrific deaths. Others fought to survive torpedo explosions, flaming oil slicks, storms, shark attacks, mine blasts, and harrowing lifeboat odysseys--only to

ship out again on the next boat as soon as they'd returned to safety. The Mathews Men shows us the war far beyond traditional battlefields—often the U.S. merchant mariners' life-and-death struggles took place just off the U.S. coast—but also takes us to the landing beaches at D-Day and to the Pacific. "When final victory is ours," General Dwight D. Eisenhower had predicted, "there is no organization that will share its credit more deservedly than the Merchant Marine." Here, finally, is the heroic story of those merchant seamen, recast as the human story of the men from Mathews.

A Hard-Hearted Man Melanie Craft, 2012-07-01 LILAH'S TALL, DARK CHALLENGE Ross Bradford exuded wealth, power and sophisticated charm. He had a head for business, an eye for beauty, but it was his heart he never trusted and no one could ever breach. Until he encountered Dr. Lilah Evans, the most stubborn and desirable woman ever to challenge him. All her life Lilah had been fighting. For opportunity. For respect. And just waiting on Ross's sprawling spread was the discovery of a lifetime and the validation she sought. She would do anything to achieve her lifelong dream, even strike a dangerous bargain with a hard-hearted, hard-bodied man who melted her defences and made her feel and want and love.

A Cultural History of Dress and Fashion in the Medieval Age Sarah-Grace Heller, 2018-11-01 During the medieval period, people invested heavily in looking good. The finest fashions demanded careful chemistry and compounds imported from great distances and at considerable risk to merchants; the Church became a major consumer of both the richest and humblest varieties of cloth, shoes, and adornment; and vernacular poets began to embroider their stories with hundreds of verses describing a plethora of dress styles, fabrics, and shopping experiences. Drawing on a wealth of pictorial, textual and object sources, the volume examines how dress cultures developed – often to a degree of dazzling sophistication – between the years 800 to 1450. Beautifully illustrated with 100 images, *A Cultural History of Dress and Fashion in the Medieval Age* presents an overview of the period with essays on textiles, production and distribution, the body, belief, gender and sexuality, status, ethnicity, visual representations, and literary representations.

Men Explain Things to Me Rebecca Solnit, 2014-04-14 The National Book Critics Circle Award-winning author delivers a collection of essays that serve as the perfect "antidote to mansplaining" (*The Stranger*). In her comic, scathing essay "Men Explain Things to Me," Rebecca Solnit took on what often goes wrong in conversations between men and women. She wrote about men who wrongly assume they know things and wrongly assume women don't, about why this arises, and how this aspect of the gender wars works, airing some of her own hilariously awful encounters. She ends on a serious note—because the ultimate problem is the silencing of women who have something to say, including those saying things like, "He's trying to kill me!" This book features that now-classic essay with six perfect complements, including an examination of the great feminist writer Virginia Woolf's embrace of mystery, of not knowing, of doubt and ambiguity, a highly original inquiry into marriage equality, and a terrifying survey of the scope of contemporary violence against women. "In this series of personal but unsentimental essays,

Solnit gives succinct shorthand to a familiar female experience that before had gone unarticulated, perhaps even unrecognized." –The New York Times "Essential feminist reading." –The New Republic "This slim book hums with power and wit." –Boston Globe "Solnit tackles big themes of gender and power in these accessible essays. Honest and full of wit, this is an integral read that furthers the conversation on feminism and contemporary society." –San Francisco Chronicle "Essential." –Marketplace "Feminist, frequently funny, unflinchingly honest and often scathing in its conclusions." –Salon

Fashioning the Body Denis Bruna, 2015 A witty and stylish look into the mechanics employed by men and women to sculpt their figures for fashion This unique survey offers fascinating insights into the convoluted transformations employed by both men and women to accommodate the fickle dictates of fashion. With high design, wit, and style, *Fashioning the Body* tracks the evolution of these sartorial devices--from panniers, crinolines, and push-up bras to chains, zippers, and clasps--concealed beneath outer layers in order to project idealized figures. Women's corsets constricted waists; exaggerated buttocks and hips counterbalanced jutting bust lines; and chic, aerodynamic silhouettes compressed breasts and flattened bellies. Yet masculine fashion has been no stranger to these tortuous practices. Men flaunted their virility by artificially broadening their shoulders, applying padding to their chests, and slipping codpieces over their groins. With more than 200 beautiful illustrations--including reproductions of superb historic advertisements--Denis Bruna reveals the industry and art of these contrivances meant to entice and beguile as well as assert status and power. Contemporary haute-couture designers Thierry Mugler, Jean Paul Gaultier, Rei Kawakubo for Comme des Garçons, Christian Lacroix, and Vivienne Westwood are featured in this indiscreet tour of intimate fashion history.
