What Is a Game? Gaines S. Hubbell, Matthew Wilhelm Kapell, 2020-02-14 What is a videogame? What makes a videogame good? If a game is supposed to be fun, can it be fun without a good story? If another is supposed to be an accurate simulation, does it still need to be entertaining? With the ever-expanding explosion of new videogames and new developments in the gaming world, questions about videogame criticism are becoming more complex. The differing definitions that players and critics use to decide what a game is and what makes a game successful, often lead to different ideas of how games succeed or fail. This collection of new essays puts on display the variety and ambiguity of videogames. Each essay is a work of game criticism that takes a different approach to defining the game and analyzing it. Through analysis and critical methods, these essays discuss whether a game is defined by its rules, its narrative, its technology, or by the activity of playing it, and the tensions between these definitions. With essays on Overwatch, Dark Souls 3, Far Cry 4, Farmville and more, this collection attempts to show the complex changes, challenges and advances to game criticism in the era of videogames.

Emotions, Technology, and Digital Games, 2015-09-25 Emotions, Technology, and Digital Games explores the need for people to experience enjoyment, excitement, anxiety, anger, frustration, and many other emotions. The book provides essential information on why it is necessary to have a greater understanding of the power these emotions have on players, and how they affect players during, and after, a game. This book takes this understanding and shows how it can be used in practical ways, including the design of video games for teaching and learning, creating tools to measure social and emotional development of children, determining how empathy-related thought processes affect ethical decision-making, and examining how the fictional world of game play can influence and shape real-life experiences. Details how games affect emotions—both during and after play Describes how we can manage a player's affective reactions Applies the emotional affect to making games more immersive Examines game-based learning and education Identifies which components of online games support socio-emotional development

Discusses the impact of game-based emotions beyond the context of games

The Mysterious Island Jules Verne, 2010-10-01 Although The Mysterious Island is technically a sequel to Verne's enormously popular *Twenty Thousand Leagues Under the Sea*, this novel offers a vastly different take on similar thematic motifs. As with all of Verne's best-known works, The Mysterious Island is a masterpiece of the action-adventure genre, with a heaping dash of science fiction influence thrown in for good measure.

Video Game Chronotopes and Social Justice Mike Piero, 2022-01-25 Video Game Chronotopes and Social Justice examines how the chronotope, which literally means "timespace," is an effective interpretive lens through which to understand the cultural and ideological significance of video games. Using 'slow readings' attuned to deconstruction along the lines of post-structuralist theory, gender studies, queer studies, continental philosophy, and critical theory, Mike Piero exposes the often-overlooked misogyny, heteronormativity, racism, and patriarchal structures present in many Triple-A video games through their arrangement of timespace itself. Beyond understanding time and space as separate mechanics and dimensions, Piero reunites time and space through the analysis of six chronotopes—of the bonfire, the abject, the archipelago, the fart as pharmakon, madness, and coupled love—toward a poetic meaning making that is at the heart of play itself, all in affirmation of life, equity, and justice.

Page Fright Harry Bruce, 2009-09-22 A witty round-up of writers' habits that includes all the big names, such as Dickens, Flaubert, Tolstoy, Hemingway. At public events readers always ask writers how they write. The process fascinates them. Now they have a very witty book that ranges around the world and throughout history to answer their questions. All the great writers are here – Dickens, dashing off his work; Henry James dictating it; Flaubert shouting each word aloud in the garden; Hemingway at work in cafés with his pencil. But pencil or pen, trusty typewriter or computer, they all have their advocates. Not to mention the writers who can only keep the words flowing by writing naked, or while walking or listening to music – and generally obeying the most bizarre superstitions. On Shakespeare's works: "Fantastic. And it was all done with a feather!" – Sam Goldwyn "I write nude, seated on a thick towel, and perhaps with a second towel around me." – Paul West "I've never heard of anyone getting plumber's block, or traffic cop's block." – Allan Gurganus "I'm a drinker with a writing problem." – Brendan Behan
