The Legacy of Stylistic Theatre in the Creation of a Modern Sinhala Drama in Sri Lanka Lakshmi D. Bulathsinghala, 2024-04-30 This book explores the development of Sinhala stylistic drama from its earliest manifestations to the post-independence era. Bulathsinghala examines the impact of indigenous and imported folk theatrical forms on the work of the most significant postcolonial stylistic dramatists and on key plays that they produced. In the process, the book explores a number of myths and misunderstandings regarding Sri Lanka's folk heritage and seeks to establish more reliable information on the principal indigenous Sri Lankan folk dramatic forms and their characteristics. At the same time, by drawing connections between folk drama and the post-independence stylistic theatrical movement, the author demonstrates the essential role of the former in Sinhala culture prior to the advent of Western and other influences and shows how both continue to inflect Sri Lankan drama today. This book will help to open the field of South Asian drama studies to an audience consisting not only of scholars and students but also of general readers who are interested in the fields of drama and theatre and Asian studies.

**From Envisioning to Designing E-development** Nagy Hanna, 2007 From Envisioning to Designing e-Development presents a concrete case in bridging the gap between vision and actionable programs. It captures how Sri Lankans worked with local stakeholders and aid agency counterparts in moving from developing a shared vision of comprehensive e-development to designing a multiyear investment program, creating a national ICT agency, and piloting, implementing, and adapting the strategy.

*Language Planning in the Asia Pacific* Robert B. Kaplan, Richard B. Baldauf, 2013-12-16 This volume covers the language situation in Hong Kong, Timor-Leste and Sri Lanka explaining the linguistic diversity, the historical and political contexts and the current language situation, including language-in-education planning, the role of the media, the role of religion and the roles of non-indigenous languages. Two of the authors are indigenous to the situations described while the other has undertaken extensive field work and consulting there. The three monographs contained in this volume draw together the literature on each of the polities to present an overview of the research available about each of them, while providing new research-based information. The purpose of the volume is to provide an up-to-date overview of the language situation in each polity based on a series of key questions in the hope that this might facilitate the development of a richer theory to guide language policy and planning in other polities where similar issues may arise. This book was published as special issues of Current Issues in Language Planning.

**Seeding Buddhism with Multiculturalism** D. Mitra Barua, 2019-05-13 Immigrants often face considerable challenges when it comes to preserving their cultural and religious teachings. D. Mitra Barua argues that the Sri Lankan Buddhist community in Toronto has maintained its coherence and integrity not despite but because of the need for cultural adaptations. Drawing on survey data, over fifty in-depth interviews with temple monks, educators, parents, and children, and fieldwork conducted in Toronto and Colombo, Sri Lanka, *Seeding Buddhism with Multiculturalism* examines how a religious tradition is transmitted from one generation to the next in a new cultural setting, and what happens during that process of transmission. Barua demonstrates that Buddhists have passed on Buddhist beliefs, attitudes, and practices to their Canadian-born youth, who in turn have constructed their own distinct Buddhist identity, influenced by the individualistic, egalitarian, and secular cultural ambience in Toronto. Through creative fieldwork and translocal analysis – taking into account migrants' geographical, cultural, and familial ties to multiple locales – this book further explains that pre-migration experiences often shape and determine the success or failure of intergenerational transmission. An ethnographic religious study with an uncommon depth of perspective, *Seeding Buddhism with Multiculturalism* shows that first- and second-generation Sri Lankan Buddhists in Toronto are successfully practising Theravāda Buddhism within a Canadian context.

**Buddhist Nuns in Taiwan and Sri Lanka** Wei-Yi Cheng, 2007-01-24 Taking a comparative approach, this fieldwork-based study explores the lives and thoughts of Buddhist nuns in present-day Taiwan and Sri Lanka. The author examines the postcolonial background and its influence on the modern situation, as well as surveying the main historical, economic, and social factors which influence the position of nuns in society. Based on original research, including interviews with nuns in both countries, the book examines their perspectives on controversial issues and in particular those concerning the status of women in Buddhism. Concerns discussed include allegedly misogynist teachings relating to women's inferior karma, that they cannot become Buddhas, and that nuns have to follow additional rules that monks do not. Bridging the gap between feminist theory and the reality of women in religion, the book makes a distinct contribution to the study of women in Buddhism by focusing on nuns from both of the main wings of Buddhism (Theravada and Mahayana) as well as furthering feminist studies of Buddhism and religion in general.

*A Handbook of Information Technology* C. T. Bhunia, 2007 Information technology (IT) can be collectively described as that used by man to gather, store and retrieve, manipulate and communicate data and information. Today, in the 'Information Age', this takes place over and across vast geographical, demographical, socio-political and economic scopes, and the ceasing of it will choke society, as know it today, to a pre-historic standstill. It is, understandably implemented through various aspects of computing and Electronic Technology. With the growing complexity of the information processing needs throughout fields as diverse as business, science, technology, exploration and entertainment, several issues involving data security, time complexity. Bandwidth and thought put, parallel and alternative computing technology and the technology used in an ever-increasing band of newer types of devices, are posing the most crucial questions to the future of society in general and IT in particular. The book is a collection of articles written by professors, industry persons and researchers of international repute and comprises the latest breakthrough in the fields of Information Theory and Coding, Information Security, Next Generation Internet technology, Data Mining and Knowledge Management, Mobile Computing and Communication. Bioinformatics, Soft Computing, Multimedia Systems and Communication, Quantum Computing, Image Processing and other areas which together comprise IT. This book is a must read for those seeking to expand their knowledge about various aspects of Information Technology.

**Buddhist History in the Vernacular** Stephen Berkwitz,2004-06-01 The Index Buddhicus is the first classified comprehensive bibliography of Buddhist Studies. It describes secondary material ranging from articles, papers and chapters appearing in journals, proceedings and collections, through reference works, monographs, editions and theses, to digital resources. All entries are linked to an elaborate index of both proper names and thematic, and cross referenced to related material. The Index is available as an online resource.

**Language, Religion, and Ethnic Assertiveness** Kē. En. Õ Dharmadāsa,1992 For nearly four decades, Sri Lanka has been the scene of an escalating ethnic conflict between the majority Sinhalese and the Tamils, who form the largest minority. Language, Religion, and Ethnic Assertiveness traces the development of Sinhalese nationalism by paying particular attention to the Sinhala language and how it relates to Sinhalese national identity. After Sri Lanka became independent from Great Britain in 1948, an official national language had to be chosen - either Sinhala only or parity of status for Sinhala and Tamil. The victory of the Sinhala only proposition that won in the general election of 1956 started the antagonism between the Sinhalese and the Tamils that persists to this day. Using hitherto untapped primary sources, K. N. O. Dharmadasa delineates some of the peculiar features of the linkage between state, religion, and ethnicity in traditional Sinhalese society, providing insight into a tragic conflict that has a long and turbulent history. The book has much to offer historians, political scientists, anthropologists, and sociologists of language and religion, as well as students and scholars of South Asia, postcolonialism, ethnicity, cultural identity, and conflict.

**History of Computing and Education 3 (HCE3)** John Impagliazzo,2008-07-05 These proceedings derive from an international conference on the history of computing and education. This conference is the third of hopefully a series of conferences that will take place within the International Federation for Information Processing (IFIP) and hence, we describe it as the “Third IFIP Conference on the History of Computing and Education” or simply “History of Computing and Education 3” (HCE3). This volume consists of a collection of articles presented at the HCE3 conference held in association with the IFIP 2008 World Computer Congress in Milano, Italy. Articles range from a wide variety of computing perspectives and they represent activities from six continents. The HCE3 conference is an event of the IFIP Working Group 9.7 on the History of Computing, a working group of IFIP’ s Technical Committee 9 (TC9) on the Relationship between Computers and Society. In addition, it is in cooperation with the IFIP Technical Committee 3 (TC3) on Education. The HCE3 conference brings to light a broad spectrum of issues. It illustrates topics in computing as they occurred in the “early days” of computing whose ramifications or overtones remain with us today. Indeed, many of the early challenges remain part of our educational tapestry; most likely, many will evolve into future challenges. Therefore, these proceedings provide additional value to the reader as it will reflect in part the future development of computing and education to stimulate new ideas and models in educational development.

**Studies in South Asian Linguistics** James W. Gair,1998 This volume collects twenty-nine published and unpublished papers by the linguist James Gair, considered the foremost western scholar of the Sri Lankan languages Sinhala and Jaffna Tamil. Ranging over thirty years, his work also considers issues in a variety of Indian languages, including Hindi, Marathi, Tamil, Malayalam, and Bengali. The collection reflects the wide range of Gair's interests, from morpho-syntactic questions to questions regarding historical and areal linguistics, especially language contact and diglossia, and extending to language acquisition. By collecting these papers and making them newly accessible, this volume will provide an important resource not only for scholars of these languages but for linguists interested in the theoretical issues Gair explores.

**Buddhism in Sinhalese Society, 1750-1900** Kitsiri Malalgoda,1976-01-01

*The Languages and Linguistics of South Asia* Hans Henrich Hock,Elena Bashir,2016-05-24 With nearly a quarter of the world’s population, members of at least five major language families plus several putative language isolates, South Asia is a fascinating arena for linguistic investigations, whether comparative-historical linguistics, studies of language contact and multilingualism, or general linguistic theory. This volume provides a state-of-the-art survey of linguistic research on the languages of South Asia, with contributions by well-known experts. Focus is both on what has been accomplished so far and on what remains unresolved or controversial and hence offers challenges for future research. In addition to covering the languages, their histories, and their genetic classification, as well as phonetics/phonology, morphology, syntax, and sociolinguistics, the volume provides special coverage of contact and convergence, indigenous South Asian grammatical traditions, applications of modern technology to South Asian languages, and South Asian writing systems. An appendix offers a classified listing of major sources and resources, both digital/online and printed.

**Transparency and Public Accountability Fiscal Mismanagement Lack of Public Accountability** Nihal Sri Ameresekere,2011 This Book appallingly unravels insights into fiscal mismanagement devoid of public accountability, under the purview of IMF, World Bank, ADB, international developmental agencies, et al. Perverse amnesties were surreptitiously enacted into law by Parliament, transgressing the social contract and public trust doctrine, also frustrating the right of the citizenry to challenge their constitutionality. Amnesties granted immunity and pardon for offences, such as, terrorism funding, money laundering, drug peddling, human trafficking, proceeds of crime, etc., in contravention of international conventions, including UN Security Council Resolution on terrorism financing. The Supreme Court condemned the Statute, as 'inimical to the rule of law', 'violative of the Universal Declaration of Human Rights and International Covenant on Civil & Political Rights', and 'had defrauded public revenue, causing extensive loss to the State'. Consequent controversy resulted in the ouster of the Government, with the new Government repealing the perverse law; however, with strange resistance against enforcement ! The Book also reveals how Parliament ignored an Auditor General's Special Report on gross negligence of revenue administration and colossal VAT frauds, with tardy enforcement of the 'rule of law'. ! The Book also deals with challenges in the Supreme Court against the Appropriation Bill, the Budget, for non-disclosure of borrowings and for lacking transparency, with the Ministry of Finance being castigated for operating a 'Budget within a Budget', with dubious expenditures, sans accountability. This Book reveals realities in fiscal mismanagement at highest levels, disclosing indifference and condoning by international agencies ! This is an invaluable Book for advocates of good governance and combat of economic crime, fraud and corruption, and those interested in public finance and law, and constitutional obligations of social contract and public trust.

**South Asian Languages** Bhadriraju Krishnamurti,Colin P. Masica,Anjani Kumar Sinha,1986

**De-Hegemonizing Language Standards** A. Parakrama,2015-12-17 This study first establishes the discriminatroy and elitist nature of standard languages and standardisation itself, considering as counter-example the case of Sri Lankan English as symptomatic of the 'other' or postcolonial Englishes. On the basis of this understanding of the standard, while at the same time, accepting the necessity of standards, however attenuated, the writer argues for the active broadening of the standard to include the greatest variety possible - privileging 'meaning' over other rules - and holds that this would in fact work towards extending the bounds of linguistic tolerance.
