Sky Walking Tom Jones,2016-12-20 A gripping first-hand account of life in space and the making of an astronaut. What is it like to fly the space shuttle and work on and in the International Space Station? Veteran NASA astronaut Tom Jones is uniquely qualified to give the details: he flew four shuttle missions and led three space walks to deliver the US Lab to the Station. . From B-52 pilot during the Cold War, to a PhD in planetary science, to the unbelievable rigors of astronaut training, his career inevitably pointed him toward the space shuttle. Until the Challenger exploded. Jones's story is the first to candidly explain the professional and personal hardships faced by the astronauts in the aftermath of that 1986 tragedy. He certainly has 'The Right Stuff' but also found himself wondering if the risks he undertook were worth the toll on his family. Liftoffs were especially nerve-wracking (his mother, who refuses to even get on a plane, cannot watch) but his 53 days in space were unforgettable adventures. Jones uses his background as a scientist to explain the practical applications of many of the shuttle's scientific missions, and describes what it's like to work with the international crews building and living aboard the space station. Tom Jones returned from his space station voyage to assess the impact of the 2003 Columbia tragedy, and prescribes a successful course for the U.S. in space. Stunning photographs, many taken in space, illustrate his amazing journey.

Painting the City Red Yomi Braester, 2010-04-07 *Painting the City Red* illuminates the dynamic relationship between the visual media, particularly film and theater, and the planning and development of cities in China and Taiwan, from the emergence of the People's Republic in 1949 to the staging of the Beijing Olympics in 2008. Yomi Braester argues that the transformation of Chinese cities in recent decades is a result not only of China's abandonment of Maoist economic planning in favor of capitalist globalization but also of a shift in visual practices. Rather than simply reflect urban culture, movies and stage dramas have facilitated the development of new perceptions of space and time, representing the future city variously as an ideal socialist city, a metropolis integrated into the global economy, and a site for preserving cultural heritage. Drawing on extensive archival research, interviews with leading filmmakers and urban planners, and close readings of scripts and images, Braester describes how films and stage plays have promoted and opposed official urban plans and policies as they have addressed issues such as demolition-and-relocation plans, the preservation of vernacular architecture, and the global real estate market. He shows how the cinematic rewriting of historical narratives has accompanied the spatial reorganization of specific urban sites, including Nanjing Road in Shanghai; veterans' villages in Taipei; and Tiananmen Square, centuries-old courtyards, and postmodern architectural landmarks in Beijing. In *Painting the City Red*, Braester reveals the role that film and theater have played in mediating state power, cultural norms, and the struggle for civil society in Chinese cities.

Buried Truths and the Hyatt Skywalks Richard A. Serrano, 2021-09-28 In 1981 the sudden collapse of two skywalks in Kansas City's Hyatt hotel killed 114 people and injured another 200. There never was a public trial, nor a full airing of everything that went wrong. Richard A. Serrano shared a Pulitzer Prize for his coverage of the disaster at the time; now he returns to the tragedy to learn all that went wrong, how it could have been avoided, and what lasting effects persist today—for engineering and the legal system, but most importantly those who suffered. Drawing on legal depositions, evidentiary material, and recollections from 240 survivors, first responders, and construction officials, *Buried Truths and the Hyatt Skywalks* is the story of this monumental catastrophe and what it teaches us today. The Friday evening Tea Dance was all the rage that summer of 1981. Each week the lobby filled with throngs of revelers, some celebrating atop the skywalks themselves. On July 17, without warning, the steel support systems buckled and the concrete and glass skywalks crashed onto the crowded lobby. The devastation reverberated far beyond the ruins. Firefighters, police officers, and paramedics suffered from deep depression, cycled through divorce, hit the bottle, and in some instances committed suicide. The hotel had been built using a new fast-track method with key construction decisions often made on the fly, including changing the skywalk design from six heavy hanger rods to twelve thinner poles. Within a year the skywalks were splintering inside. Even then the collapse could have been averted, but special inspection panels to check the hanging walkways were never opened. Though wholly avoidable, the Hyatt disaster did bring significant changes—some good and some problematic. Tougher industry guidelines were enforced for US construction projects. Police officers, firefighters, and health care workers are now treated for PTSD and other psychological trauma after working a tragic event. But the rush to settle all the Hyatt lawsuits helped usher in a controversial new era of nondisclosure agreements. *Buried Truths and the Hyatt Skywalks* explores America's worst structural engineering disaster. Though the world has moved on, survivors and witnesses still vividly recall that night. This is their

story.

Edgar Huntly, Or, Memoirs of a Sleep-walker Charles Brockden Brown, 1987 Often described as a gothic novel, this is a classic American tale of mystery and murder with exciting and dramatic plot twists. Charles Brockden Brown is the most frequently studied and republished practitioner of the early American novel, or the US novel between 1789 and roughly 1820. This volume contains a critical edition of Charles Brockden Brown's Edgar Huntly, the third of his novels to be published in 1799 and the first to deal with the American wilderness. The basis of the text is the first edition, printed and published by Hugh Maxwell in Philadelphia late in the year, but the Fragment printed independently in Brown's Monthly Magazine earlier in 1799 supplies some readings in Chapters 17-20. The Historical Essay, which follows the text, covers matters of composition, publication, historical background, and literary evaluation, and the Textual Essay discusses the transmission of the text, choice of copy-text, and editorial policy. A general textual statement for the entire edition appears in Volume I of the series.
