Fraud and Corruption Duncan Smith,2022-10-11 This book discusses and analyses fraud and corruption cases from many industries including construction, finance, pharmaceutical, transport, retail, medical, health, communication, education and military. The book is divided into two sections. The first part presents case studies that cover several industry sectors, including not only well-known frauds like Bernie Madoff, Wells Fargo and the Enron case, but also recent events such as the Theranos/Elisabeth Holmes case. The second section of the book includes materials on fraud and corruption such as the full text of the United Nations Convention Against Corruption, the OECD Convention on Combating Bribery of Foreign Public Officials in International Business, and the EIB's Anti-Fraud Policy and Whistleblowing Policy. It also includes examples about current corporate anti-corruption policies from companies like Apple, Tesla and Coca Cola. For interested readers, the book offers additionally a list of films that realistically cover the topics fraud, corruption and whistleblowing.

Faith-Based Fraud Warren Cole Smith,2021-05-04 A leader of Ministry Watch examines how cases of abuse and financial corruption have hurt the church—and how to bring back integrity. We live in a secular, skeptical, and cynical age. Many Americans have lost faith in institutions—including the church. Although the vast majority of Christian leaders serve faithfully, examples of financial fraud, greed, sexual and emotional abuse, and other systemic problems are almost everyday occurrences. And a watching world has a right to ask even those who are faithful ministers of the Gospel: “If you knew this was happening, why didn’t you say something?” Whether or not honest and above-board Christian leadership like it, in the eyes of the world, our silence makes us complicit. That’s why this vital book takes a clear-eyed look at scandals in the church—from Jim and Tammy Bakker’s PTL Network to Mark Driscoll, Todd Bentley, David Jeremiah, and Bill Hybels. It is an answer to those who say that the silence of Christian leadership is approval. And although this book is sometimes tough on the church and its leaders, its purpose is not to tear down the evangelical church, but to restore it to its rightful place of influence in the culture and in the lives of people who desperately need its message of grace and truth. “Explains why shining sunlight on churches and ministries in America is important.” —Paul Glader, Director of the McCandlish Phillips Journalism Institute, The King’s College

The Fraud Zadie Smith,2023-09-05 The New York Times bestseller • One of the New York Times 10 Best Books of the Year • One of NPR's Best Books of the Year • Named a Best Book of the Year by Publishers Weekly “[A] brilliant new entry in Smith’s catalog . . . The Fraud is not a change for Smith, but a demonstration of how expansive her talents are.” —Los Angeles Times From acclaimed and bestselling novelist Zadie Smith, a kaleidoscopic work of historical fiction set against the legal trial that divided Victorian England, about who gets to tell their story—and who gets to be believed It is 1873. Mrs. Eliza Touchet is the Scottish housekeeper—and cousin by marriage—of a once-famous novelist, now in decline, William Ainsworth, with whom she has lived for thirty years. Mrs. Touchet is a woman of many interests: literature, justice, abolitionism, class, her cousin, his wives, this life and the next. But she is also sceptical. She suspects her cousin of having no talent; his successful friend, Mr. Charles Dickens, of being a bully and a moralist; and England of being a land of facades, in which nothing is quite what it seems. Andrew Bogle, meanwhile, grew up enslaved on the Hope Plantation, Jamaica. He knows every lump of sugar comes at a human cost. That the rich deceive the poor. And that people are more easily manipulated than they realize. When Bogle finds himself in London, star witness in a celebrated case of imposture, he knows his future depends on telling the right story. The “Tichborne Trial”—wherein a lower-class butcher from Australia claimed he was in fact the rightful heir of a sizable estate and title—captivates Mrs. Touchet and all of England. Is Sir Roger Tichborne really who he says he is? Or is he a fraud? Mrs. Touchet is a woman of the world. Mr. Bogle is no fool. But in a world of hypocrisy and self-deception, deciding what is real proves a complicated task. . . . Based on real historical events, The Fraud is a dazzling novel about truth and fiction, Jamaica and Britain, fraudulence and authenticity and the mystery of “other people.”

Smith's Law of Theft John Cyril Smith,David Ormerod,David Huw Williams,2007 Smith's Law of Theft has long been established as the definitive work on the subject and is frequently cited in the appellate courts. Now in its ninth edition, the book provides a detailed and critical account of the law of theft and related dishonesty offences. It contains the full, amended text of relevant legislation (notably, the Theft Acts 1968, 1978, and 1996) together with a detailed analysis of the provisions of the statutes and the extensive case law which has grown up around them. This new edition has been comprehensively rewritten and updated to take full account of the Fraud Act 2006, which has replaced the deception offences with new fraud offences. There have been major changes in other areas of law besides fraud, and the authors offer expert analysis of case law developments such as Hinks in the House of Lords on theft and gift, jurisdictional issues arising from Smith ; and of procedural changes introduced by the fraud protocol and the imminent introduction of judge only trials. A whole new chapter on conspiracy to defraud is included in the new edition, and the full text of the Fraud Act and the fraud protocol are included in the appendices.

A Culture of Corruption Daniel Jordan Smith, 2010-12-16 E-mails proposing an urgent business relationship help make fraud Nigeria's largest source of foreign revenue after oil. But scams are also a central part of Nigeria's domestic cultural landscape. Corruption is so widespread in Nigeria that its citizens call it simply the Nigerian factor. Willing or unwilling participants in corruption at every turn, Nigerians are deeply ambivalent about it--resigning themselves to it, justifying it, or complaining about it. They are painfully aware of the damage corruption does to their country and see themselves as their own worst enemies, but they have been unable to stop it. A Culture of Corruption is a profound and sympathetic attempt to understand the dilemmas average Nigerians face every day as they try to get ahead--or just survive--in a society riddled with corruption. Drawing on firsthand experience, Daniel Jordan Smith paints a vivid portrait of Nigerian corruption--of nationwide fuel shortages in Africa's oil-producing giant, Internet cafés where the young launch their e-mail scams, checkpoints where drivers must bribe police, bogus organizations that siphon development aid, and houses painted with the fraud-preventive words not for sale. This is a country where 419--the number of an antifraud statute--has become an inescapable part of the culture, and so universal as a metaphor for deception that even a betrayed lover can say, He played me 419. It is impossible to comprehend Nigeria today--from vigilantism and resurgent ethnic nationalism to rising Pentecostalism and accusations of witchcraft and cannibalism--without understanding the role played by corruption and popular reactions to it. In the Arms of Evil Carlton Smith, 2010-03-30 Nancy Jean Siegel of Maryland became addicted to gambling during her first marriage. Sneaking off to Atlantic City--and sinking deeper and deeper into debt--she began stealing identities, conning family members, and leaving two ex-husbands buried in bills. Then she sold cemetery plots door-to-door and met Jack Watkins, a man thirty years her senior. He not only bought a grave site from the attractive younger woman, he leased a car for her, sold his house and gave her the proceeds. But Nancy wanted more... Watkins' body was found in a steamer trunk near the Appalachian Trail. Half-naked and strangled, he remained unidentified for more than six years. Meanwhile, Nancy cashed his Social Security checks and opened new lines of credit under his name. By the time the police tracked her down, she had committed bank fraud, mail fraud, wire fraud, and more. New York Times bestselling author Carlton Smith takes you inside the greed, the gambling, and one gruesome murder--to question the very nature of evil...

Crime in the Digital Age Russell Smith, 2018-02-06 Willie Sutton, a notorious American bank robber of fifty years ago, was once asked why he persisted in robbing banks. Because that's where the money is, he is said to have replied. The theory that crime follows opportunity has become established wisdom in criminology; opportunity reduction has become one of the fundamental principles of crime prevention. The enormous benefits of telecommunications are not without cost. It could be argued that this quotation from Crime in the Digital Age, is a dramatic understatement. Grabosky and Smith advise us that the criminal opportunities which accompany these newest technological changes include: illegal interception of telecommunications; electronic vandalism and terrorism; theft of telecommunications services; telecommunications piracy; transmission of pornographic and other offensive material; telemarketing fraud; electronic funds transfer crime; electronic money laundering; and finally, telecommunications in furtherance of other criminal conspiracies. However, although digitization has facilitated a great deal of criminal activity, the authors suggest that technology also provides the means to prevent and detect such crimes. Moreover, the varied nature of these crimes defies a single policy solution. Grabosky and Smith take us through this electronic minefield and discuss the issues facing Australia as well as the international community and law enforcement agencies.

Trapped by Law Carnell Smith, 2020-08-04 Trapped By LAW: Stop Paying Child Support for Paternity Fraud shares the true-life account of Carnell Smith's fight to the Supreme Court of the United States (SCOTUS) against archaic unjust laws that entrap then resist releasing men and teen boys that have been falsely accused of the paternity of a child. There are at least four ways that men and boys are caught in a Paternity Fraud Trap 1) Signing a Paternity Confession Document and; 2) Incorrect Default Paternity Judgment and; 3) Marital Presumption of Paternity and; 4) Mistaken Identity. Yet, the family courts with active demands from the Offices of Child Support Enforcement Offices (OCSE), Prosecutors and the State Attorney General offices adamantly refuse to release men and boys to get DNA testing done and will not release those with zero percent paternity results who have wrongly named as the father of a child that he did not create nor adopt. There are millions of dollars \$\$ in State revenue through OCSE using the Federal Title IV-D program incentives and bonuses for establishing paternity with a child support order. It's quite profitable for the involved State Department of Revenue when the Family Courts enforce the collections for paternity fraud judgments. Carnell Smith won his case by changing the law that bound him and thousands of other men and boys, despite being denied justice by the Supreme Court of the United States and every appellate court in Georgia. Plastic Card Fraud Russell G. Smith, 1997 Smith discusses the vulnerabilities of credit cards, debit cards or stored value cards to fraud and deception in terms of alteration and counterfeiting of cards; application and PIN number fraud; misuse of cards, and organised card counterfeiting. He also outlines fraud prevention strategies which can be taken by the card issuers and cardholders. The Sydney Olympic Games will create increased opportunities for plastic card fraud, and Smith notes ways to guard against such crimes.

Only Fraud and Horses David James Smith,2015-07-28 Author David Smith's childhood near London, England, helped pave the way for the young boy to plough his own furrow in life. In *Only Fraud and Horses*, Smith narrates his story which includes pieces of history, police, and horsemanship. In this memoir, Smith offers a humorous and poetic account of his skills, training, and professional positions from cadet to London policeman and to Scotland Yard detective and specialist. *Only Fraud and Horses* also shares representative sports details, contrasts Smith's Scots ancestry, and links developing European history, the long dependence upon the horse, and his inherited skills as a competitive, natural horseman. With photographs and historical notes included, Smith reviews a lifetime collection of family records and shares his discoveries-starting from England with surnames of Smith and Brown and going back to the 1700s in the Highlands of Scotland before Mediterranean origins.

Cheated Jay M. Smith,Mary Willingham,2019-11-01 In 2010 allegations of an utterly corrupt academic system for student-athletes emerged at the University of North Carolina at Chapel Hill, home of the legendary Tar Heels. Written by UNC professor of history Jay Smith and UNC athletics department whistleblower Mary Willingham, *Cheated* recounts the story of academic fraud in UNC’s athletics department, even as university leaders focused on minimizing the damage in order to keep the billion-dollar college sports revenue machine functioning. Smith and Willingham make an impassioned argument that the “student-athletes” in these programs are being cheated out of what, after all, they are promised in the first place: a college education. Updated with a new epilogue, the paperback edition of *Cheated* carries the narrative through the defining events of 2017, including the landmark Wainstein report, the findings of which UNC leaders initially embraced only to push aside in an audacious strategy of denial with the NCAA, ultimately even escaping punishment for offering sham coursework. The ongoing fallout from this scandal—and the continuing spotlight on the failings of college athletics, which are hardly unique to UNC—has continued to inform the debate about how the \$16 billion college sports industry operates and influences colleges and universities nationwide.
