Curing & Smoking Steven Lamb, 2018-02-22 In the thirteenth River Cottage Handbook, Steven Lamb shows how to cure and smoke your own meat, fish and cheese. Curing and smoking your own food is a bit of a lost art in Britain these days. While our European neighbours have continued to use these methods on their meat, fish and cheese for centuries, we seem to have lost the habit. But with the right guidance, anyone can preserve fresh produce, whether living on a country farm or in an urban flat – it doesn't have to take up a huge amount of space. The River Cottage ethos is all about knowing the whole story behind what you put on the table; and as Steven Lamb explains in this thorough, accessible guide, it's easy to take good-quality ingredients and turn them into something sensational. Curing & Smoking begins with a detailed breakdown of any kit you might need (from sharp knives to sausage stuffers, for the gadget-loving cook) and an explanation of the preservation process – this includes a section showing which products and cuts are most suitable for different methods of curing and smoking. The second part of the book is organised by preservation method, with an introduction to each one, and comprehensive guidance on how to do it. And for each method, there are, of course, many delicious recipes! These include chorizo Scotch eggs, salt beef, hot smoked mackerel, home-made gravadlax ... and your own dry-cured streaky bacon sizzling in the breakfast frying-pan. With an introduction by Hugh Fearnley-Whittingstall and full-colour photographs as well as illustrations, this book is the go-to guide for anyone who wants to smoke, brine or air-dry their way to a happier kitchen.

Smoking Cessation Handbook Ariana John Smith, 2023-04-20 Smoking cessation, usually called quitting smoking or stopping smoking, is the process of discontinuing tobacco smoking. Tobacco smoke contains nicotine, which is addictive and can cause dependence. As a result, nicotine withdrawal often makes the process of quitting difficult. Tobacco use can lead to tobacco dependence and serious health problems. Quitting smoking greatly reduces the risk of developing smoking-related diseases. Tobacco/nicotine dependence is a condition that often requires repeated treatments, but there are helpful treatments and resources for quitting. Smokers can and do quit smoking for good. In fact, since 2002 there have been more former smokers than current smokers.

Smoking Food Chris Dubbs,Dave Heberle,2019-10-01 Everything you need to know about home smoking! In *Smoking Food*, Chris Dubbs and Dave Heberle assure us that smoking is an art, not a science, and they fearlessly reveal that art's essentials—and how simple they can be. They explain how to choose the best fuels (you can use corncobs!), how to build smokers from old refrigerators and cardboard boxes, and, of course, how to smoke everything from turkeys to turtles. Their advice is as ingenious and cost-conscious as any given by Alton Brown. Aware of the needs and wants of the modern cook, they include low-sodium preparations, alternatives to preservatives like sodium nitrite, and thoughts on safely handling meat. Recipes include: Slow-smoked salmon Hot-smoked shrimp Pastrami Country-style bacon Wine-marinated rabbit Firecan turkey Summer sausage Smoked cheese Smoked nuts Jerky Chowders Stuffing Vegetables And more! With more than one hundred recipes and tips for making brines, marinades, cheeses, appetizers, soups, and main dishes, *Smoking Food* is an invaluable resource for the home smoker.

Manual of Smoking Cessation Andy McEwen,Peter Hajek,Hayden McRobbie,Robert West,2008-04-15 *Manual of Smoking Cessation* provides the crucial knowledge required if you are involved in helping smokers to stop. The manual provides facts, figures, suggested interventions and sources of further information to assist in providing evidence-based treatment for smokers wishing to stop. This manual covers the core content areas and key learning outcomes described in the Standard for Training in Smoking Cessation (Health Development Agency, 2003). *Manual of Smoking Cessation* is structured in two concise parts: Part 1 provides essential information on smoking demographics, along with the risks of smoking and the benefits of stopping; Part 2 offers a range of practical advice to implement with clients. The *Smoking Cessation Manual* is an essential text for all those involved in the provision of smoking cessation services, including smoking cessation counsellors, nurses, pharmacists, doctors, health promotion officers, dental professionals, and other members of the health care team. The book is an invaluable resource for those learning about smoking cessation, and a succinct aide-memoire to those already

practicing in the field. The authors represent the 'who's who' in the field of smoking cessation and are affiliated to University College London and Cancer Research UK (Andy McEwen and Robert West), St Bartholomew's & Royal London School of Medicine and Dentistry (Peter Hajek), and the University of Auckland (Hayden McRobbie).
