A Tri-Generational Study of Language Choice and Shift in Port Harcourt Kelechukwu Ihemere, 2007-05 This book is intended as a textbook for advanced undergraduate or graduate students in the field of bilingualism and language choice. It reports on a sociolinguistic study of the language choice patterns of the minority Ikwerre ethnic group of Port Harcourt City, Nigeria. Further, it aims primarily to present a systematic and coherent account of the extent and patterning of Ikwerre-NPE bilingualism within the Ikwerre community, focusing on: the means by which people in this community deploy two different codes in their day-to-day communicative interactions and the social and attitudinal motivations for language choice at both the group and individual level. To satisfy these objectives this study has taken into account the pre-existing linguistic, socio-economic and macro-sociological distinctiveness of the Ikwerre community. Thus, it has investigated prevailing local attitudes towards Ikwerre and NPE by incorporating matched guise tests to deepen our understanding of the processes of language choice and shift operating in the community. This was done to demonstrate that contemporary local linguistic attitudes working together with personal network ties would offer fuller and more adequate explanations of why members of the Port Harcourt Ikwerre community select either Ikwerre and/or NPE in their normal every day interactions. From the observations and findings made in this study I propose an account of the language choice patterns attested in my Port Harcourt Ikwerre community data that is based on establishing a broad typology which can be directly related to the bilingualism continuum. This framework should be equally applicable to similar bilingual settings around the world, which, like Port Harcourt, have experienced rapid metropolitan growth as a result of radical socio-economic change in their recent history. Finally, it is my hope that in the course of reading this book the reader can come to a place where their understanding and appreciation of the effects of languages in contact in non-Western communities is enriched with the illustrative material in this book.

The Riddle of the Yellow Zuri Harry Stephen Keeler, 2017-02-24 In the open market in Chicago, a tiger snake could have been bought by a circus for \$10. But the particular snake for which Jake Jennings was willing to pay a small fortune was the key to a great mystery. The grand climax is an absolute surprise, and no reader will be able to say, I knew it from the beginning. Here is fiction that is stranger than truth. It contains one of the most perplexing and labyrinthine mysteries ever conceived by the human mind.

Abyssinian Chronicles Moses Isegawa, 2011-04-13 Every once in a while there emerges a literary voice with the power and urgency to immerse readers deep within a previously invisible culture. From a young African writer who has already earned comparisons to Salman Rushdie and Gabriel Garcia Marquez comes this masterful saga of life in 20th-century Uganda. The teller of this panoramic tale is Mugezi, a quick-witted, sharp-eyed man whose life encompasses the traditional and the modern, the peaceful and the insanely violent, the despotic and the democratic. Born in a rural community in the early 1960s, he is raised by his grandfather, a deposed clan chief, and his great-aunt, or grandmother, after his parents immigrate to the capital city of Kampala. At age nine, he leaves behind his secure life in the village to join his parents and siblings in the city, where he is first exposed to the despotism and hardship that he will contend with in the years to come. The nightmare reign of Idi Amin and its chaotic aftermath are the backdrop to Mugezi's troubled coming-of-age: his constant struggle with his harsh mother and austere father; his years spent as caregiver to his parents' ever-growing brood of children; his sojourn in a horrifically repressive Catholic seminary. He goes to work as a high school teacher, becomes enmeshed in a tragic romance, finds himself drawn into a dubious, potentially dangerous alliance with the military after Amin's fall and witnesses the widespread ravages of the AIDS virus. Finally, sickened by personal loss and national tragedy, he manages to immigrate to Amsterdam. The details of Mugezi's life provide a foundation for Isegawa's brilliant and profoundly illuminating portrait of the contemporary, postcolonial African experience. Filled with extraordinary characters, animated by a wicked sense of humor and guided by an intense yet clear-eyed compassion, Abyssinian Chronicles is our introduction to a superlative new writer.

Central Asia Alexei Vassiliev, 2013-09-01 Based on first-hand research conducted by the Moscow Centre for Civilizational and Regional Studies, this book documents the findings of one of the first authoritative studies on the newly independent states of Central Asia - Kazakhstan, Uzbekistan, Turkmenistan, Kirgizia and Tadjikistan. Focusing on the unprecedented challenges facing these nascent countries, it examines the political events and socio-economic changes which followed the disintegration of the Soviet Union by analysing the difficulties of state-building and the dramatic social upheavals experienced by these republics. The book also covers the path of economic growth in the 1990s by examining the recession of 1991-1995 and the increasing income disparity between the affluent minority and the impoverished majority. The continuing socio-political and inter-ethnic tensions in the region are also covered in some detail, as is the relationship between the new states and Russia. Attention is further drawn to the causes and outcomes of the civil war in Tadjikistan as well as the growing international competition for access to the natural resources of the Central Asian countries. This work will be of particular use to the student of economic and political Central Asia and will also provide great insight to business professionals and other readers interested in the progress of post-Soviet states. 'An informative and original book ... Must reading for upper-division undergraduate, graduate students, and scholars of Contemporary Central Asia.' CHOICE

Bicycling Science, third edition David Gordon Wilson, 2004-03-19 A new, updated edition of a popular book on the history, science, and engineering of bicycles. The bicycle is almost unique among human-powered machines in that it uses human muscles in a near-optimum way. This new edition of the bible of bicycle builders and bicyclists provides just about everything you could want to know about the history of bicycles, how human beings propel them, what makes them go faster, and what keeps them from going even faster. The scientific and engineering information is of interest not only to designers and builders of bicycles and other human-powered vehicles but also to competitive cyclists, bicycle commuters, and recreational cyclists. The third edition begins with a brief history of bicycles and bicycling that demolishes many widespread myths. This edition includes information on recent experiments and achievements in human-powered transportation, including the ultimate human-powered vehicle, in which a supine rider in a streamlined enclosure steers by looking at a television screen connected to a small camera in the nose, reaching speeds of around 80 miles per hour. It contains completely new chapters on aerodynamics, unusual human-powered machines for use on land and in water and air, human physiology, and the future of bicycling. This edition also provides updated information on rolling drag, transmission of power from rider to wheels, braking, heat management, steering and stability, power and speed, and materials. It contains many new illustrations.

China, the West, and Democratization Luba von Hauff, 2020-02-05 Drawing upon insights from international socialization theory and social psychology, this book examines China's efforts to multipolarize - and hence potentially de-liberalize - the international system from the local perspective of a non-democratic (yet democratizing) nation and then applies these insights to Beijing's current global agency in the context of the Belt and Road Initiative. Specifically, the book scrutinizes Beijing's normative engagement in Kazakhstan, a nation that evolved from an enthusiastic supporter of the West's normative domination of international affairs into an overt critic - after having institutionalized relations with Beijing

through the Shanghai Cooperation Organization. Tracing and juxtaposing the respective patterns of Kazakhstan's political identity development before the SCO entered the region and after, this book not only yields unexpected conclusions about the quality of post-Soviet democratization outcomes, but also about Beijing's local and global influence potentiality for the time to come – and its limits. This book will be of key interest to scholars and students of China's normative power, democratization studies, post-Soviet studies, and International Relations.
