The African Yearbook of International Law sheds light on the causes of the fragility of African State institutions so as to facilitate the identification of appropriate remedies. Consider Somaliland Marleen Renders, 2012-01-27 Can 'traditional' leaders and institutions help to build more legitimate, accountable and effective governments in polities or 'states' under (re)construction? This book investigates the fascinating case of "Somaliland", the 20-year old non-recognized state which emerged from Somalia's conflict and state collapse.

Why Somalia does not get the right direction Mohameddeq Ali Abdi, 2022-04-19 Somalia's problem is complex, but the question is, can the Somalia problem be solved? And can Somalia get the right direction? This book explores profound problems that Somalia has been facing and is still facing while addressing: why Somali politicians not stand up for their country and lead their country towards the right direction; Can the Somalis harness the ideology of clannism and use it to build Somalia's nation-state; why is Al-Shabaab always getting stronger day-by-day, how can it be rooted out from Somalia and how do we integrate the reformed militias? Can Somalia form a national army that has total support from the civilians? Can the Somalis deliberate and provide homegrown solutions and implement them without being put under duress

Historical Dictionary of Ethiopia Thomas P. Ofcansky, David H. Shinn, 2004-03-29 Ethiopia is one of the world's oldest countries; its Rift Valley may be the location where the ancestors of humankind originated more than four million years ago. With a population of 67 million people today, it is the third most populous country on the African continent after Nigeria and Egypt. It is the source of 86 percent of the water reaching the Aswan Dam in Egypt, most of it carried by the amazing Blue Nile. Ethiopia offers major historical sites such as the pre-Christian palace at Yeha, the stele and tombs of the old Kingdom of Axum, and the rock-carved churches of Lalibela. For anyone interested in Ethiopia, this historical dictionary, through its individual and carefully cross-referenced entries, captures the importance and intrigue of this truly significant African nation. Historical Dictionary of Ethiopia appeals to all levels of readers, providing entries for each of Ethiopia's 85 ethnic groups and covering a broad range of cultural, political, and economic topics. Readers interested in the cultural aspects or who are planning to visit Ethiopia will find a wealth of entries on art, literature, handicrafts, music, dance, bird life, geography, and historic tourist sites. Practitioners in government and non-governmental organizations will find entries on pressing economic, social, and political issues such as HIV/AIDS, female circumcision, debt, human rights, and the environment. The important historical role of missionaries and the combination of conflict and cooperation between Christians and Muslims in the region are also

issues reviewed. And, finally, many of the entries highlight relations between Ethiopia and her neighbors-Eritrea, Somalia, Somaliland, Djibouti, Kenya, and Sudan. In the bibliography, considerable emphasis has been placed on including both new and old materials covering all facets of Ethiopia, organized for easy identification by areas of major interest.

Somalia: State Collapse, Terrorism and Piracy Brian J. Hesse, 2013-09-13 The situation in Somalia today embodies some of the most pressing issues in international relations. How should the international community deal with the collapsed state that is Somalia? From the presence of al-Qaeda operatives to pirates, to what extent is Somalia a threat to global peace and commerce? Which aspects of Somalia's economic, social and political landscape can be considered successful, and how do these 'success stories' reflect some of the more problematic issues the country faces? This book sheds light on all of these topics and more. The book is written to appeal to a wide audience, from specialists in international security, development and/or humanitarian issues, to students and casual readers. Its six contributing authors, with their focus on current events mixed with historical perspective, ensure readers get varying views of what is happening today in the Horn of Africa. The book was published as a special issue of the Journal of Contemporary African Studies.

Ethiopia Johannes Isdahl Austgulen, 2015-11-06 This book tells briefly about the pioneer missionaries effort in the previous Welega province in Western-Ethiopia, and then about the untiring Ethiopian pastor and bible translator, Onesimus Nezib (1856- 1931). However the author's main intention with the writing is to recall from personal experiences during serving terms in the same province in close co-operation with national colleagues, and with a special focus on health care. In particular he writes about the work among the Gumuz people who are living along the Blue Nile River – also he records from his experiences among the Berta people, another lowland group. The health service was for a period carried on as an ambulatory work, but after some time permanent clinics were established. The book has a lot of photos which will introduce these lowland people and show the health care activities and other branches of the work of the church. One of the author's working-terms was at a major clinic on the highland where the Oromo people are living, and the book refers to quite many experiences from there. It is also recalled from the overthrown of Emperor Haile Selassie in September 1974, and about the difficult time which followed during the reign of the communist regime until it was defeated at spring 1991. After a shorter time with some tumults between two liberation organizations the situation became normalized and with good living and working conditions.

Historical Dictionary of Somalia Mohamed Haji Mukhtar, 2003-02-25 The volume will cover all aspects of Somalia, providing useful information about the country in a comprehensive manner. The book also reflects on the contributions of the Somali sources on history and culture. Arabic sources and other non-English colonial sources of great importance to the subject are also highlighted. A vital addition to reference collections supporting undergraduate and graduate programs on Africa and the Middle East, international relations, and economics_ and a useful fact-filled compendium for government and public libraries, NGO's, and other special libraries as well.

Discussing Conflict in Ethiopia Wolbert Smidt, Kifle Abraham, 2007 This volume contains the papers presented at the Conference 'Ethiopian and German Contributions to Conflict Management and Resolution' of November 2005, Addis Ababa. The aim of this conference was to bring researchers and those working in the practical field of conflict resolution together, before the background of renewed internal and international conflict. Research in conflict resolution mechanisms is one of the most hopeful fields in modern social sciences. Local conflicts can have devastating effects on the state and even involve the international level. In turn, international

conflict can also destabilize society and create new local conflicts. However, local conflict resolution mechanisms could be of a great importance even within the international scene. This volume examines the experiences in Ethiopia and the impact the acquired knowledge could have for future conflict resolution and management.

Society, Security, Sovereignty and the State in Somalia Maria Brons, 2001 An analysis of internal dynamics of the Somali conflict and the relation between state and society, taking society and not the state as main reference point. Includes a discussion of UN / UNHCRs involvement in assistance to refugees in the special Somali situation of statelessness.

Into Abyssinia Carl E. Hansen, 2023-03-29 In this autobiographical book, the author gives an informative and lively account of the first eight years of his and his family's living and serving in pre-revolutionary feudal Ethiopia. It is a story of adventure as a novice missionary couple learns and adapts to a vastly different culture while raising a family in the less developed hinterlands. The events take place from 1967 to 1975, a pivotal time in Ethiopia's history; a time marked by growing discontent with feudalism and the ancient imperial regime that supported it. It was a time of growing turmoil that, in the midst of drought and famine, spilled over into an armed revolution; a time when ignorant men with guns over-powered the best minds and forced a tradition-bound society to join in a bloody experiment with radical socialism. It was a time when the slow and difficult years of missionary effort in planting the seeds of the Christian gospel began to sprout and take root and grow into what would become a mighty movement of transformation in that society.

Peace Studies for Sustainable Development in Africa Egon Spiegel, George Mutalemwa, Cheng Liu, Lester R. Kurtz, 2022-10-26 This book presents a snapshot of a major challenge, and shares subjective views on various areas of conflict in Africa and the diverse – theoretical and practical – efforts to achieve peace. Following an essential review of several real-world conflict contexts on the African continent and attempts to come to terms with them critically as a first step, the book explores the lessons learned to date with regard to peace studies in Africa.

The African Economy Steve Kayizzi-Mugerwa, 2002-01-04 This book offers an in-depth analysis of the current state of the African

economy and makes constructive suggestions about its future direction. The contributors argue that despite enduring challenges such as food security and employment creation, Africa faces a brighter future in sustainable growth provided that governance and policy-making are effectively employed to maintain peace, achieve greater regional collaboration and encourage private sector competitiveness.

Ethiopia Philip Briggs, 2018-12-10 This new, fully updated 8th edition of Bradt's Ethiopia remains the most comprehensive, detailed and thorough guide available, particularly known for its strength of background information, coverage of off-the-beaten track areas, and in-depth details of hotels and other tourist facilities. It also contains far more maps than other guides. Bradt's Ethiopia is also the longest-serving English-language guidebook dedicated to the country, with a history of 25 years of research and expertise. This new edition has been updated by the original author, Philip Briggs, the world's foremost writer of Africa travel guides. Recent years have seen a notable rise in domestic and foreign private investment in the development of new hotels and national parks; this new edition includes all the most up-to-date details reflecting the recent changes, from development of tourist facilities to improved road infrastructure. Bradt's Ethiopia is ideal for visitors of all ages no matter the interest, whether travelling independently or as part of an organised group, from adventurous and active travellers interested in cultural, historical, and wildlife sightseeing to international conference visitors, spa tourists and community-based visitors looking for activities such as trekking and horseriding in the Rift Valley and Simien Mountains. Wildlife and birding visitors who come for Ethiopia's wealth of endemics are also catered for and this new edition includes a dedicated colour section on wildlife and birds. Of all the African nations, Ethiopia is most prone to misconceptions. The 1985 famine and the cracked barren earth of the Danakil Depression are not images quickly forgotten. But this fully updated guide refocuses the lens to reveal an ancient country that continues to surpass all expectations: from the ancient Judaic cultures of the fertile highlands to the Animist people of the South Omo Valley, from the Afroalpine moorland of the Bale Mountains National Park to the thundering Blue Nile Falls. This book also leads you further off the beaten track, so travellers can see more of this expansive and beautiful land, believed to be the cradle of humankind.
