INTERNATIONAL CONFERENCE ON ARTS AND DESIGN EDUCATION (ICADE) "Digital Media Literacy and Mastery of Post-pandemic in Arts and Design Education"

BACKGROUND The past year has been one of enormous turbulence and upheaval where nobody has been left untouched by the impact of the global pandemic, even a great change has been forced upon artists and educators in their work creation process as well as learning and teaching practice. What and how artists and educators have thought and gone through to keep their field sustained should be disseminated as a mutual learning to enhance our awareness on arts and design sustainability and role during pandemic. ICADE 5 aims to bring together leading academic artists, arts and design researchers and scholars to exchange and share their notion, experiences, and research results on all aspects of Digital Media Literacy and Mastery in Arts and Design education during pandemic and its urgencies after pandemics. It also provides a premier interdisciplinary platform for arts and design researchers, practitioners, and educators to present and discuss the most recent innovations, trends, and concerns as well as practical challenges encountered and solutions adopted which involves digital media literacy or mastery in the fields of Arts and Design education. The 5th International Conference on Arts and Design Education (ICADE) is a conference hosted by Faculty of Arts and Design Education Universitas Pendidikan Indonesia. This conference will be held on September 22nd, 2022 through

Zoom Webinar. ICADE has covered a broad range of topic on music, dance, drama, visual arts, visual communication design, arts education, film and television, and multidisciplinary arts fields. This conference scopes may pertain how artist, designer, or arts and design educators finally adapt and conquer digital media to support their work creation and studies activities during pandemic; attitude changes toward art and design works creation; best practice of art and design creation and studies during pandemic; sorts of digital media which might be left or continuously used after pandemic; what finally the digital media can't ever cover during pandemic even to this moment (post-pandemic); potential disruptive/constructive point of digital media use; as well as other substance where we spot a relation between a digital media with arts and design creation and studies.

Multi-sided Music Platforms and the Law Chijioke Ifeoma Okorie, 2019-10-28 Multi-Sided Music Platforms and the Law explores the legal and regulatory frameworks surrounding copyright protection, competition and privacy concerns arising from the way multi-sided platforms use copyright-protected content in digital advertising. This book suggests how stakeholders in Africa, and their advisors, may ingenuously reform and apply various legal and regulatory frameworks to address these issues which arise from the manner in which multi-sided platforms use copyright-protected content in digital advertising. The book critically engages with the regulatory efforts in other jurisdictions, particularly the EU, with a view to bringing an African perspective to the debate and practice. It undertakes a consideration of this issue by asking how multi-sided platforms may be deployed in a manner that continues innovative uses of copyright content while protecting the economic freedom of African copyright owners as small businesses. Providing the first pro-Africa approach to the regulation of multi-sided platforms, particularly with reference to music, this book focuses on key aspects of digital commercial activity and highlights the main challenges and opportunities for its regulation. It will be of interest to lawyers, policymakers and students across Nigeria, South Africa, and internationally among the African Union, European Union and beyond. .

The Puzzle of a Twin Paradox Ein

.S,Watts,2022-01-24 Two young men; an Artist and an Author, began The Puzzle of A Twin Paradox by introducing their talents to one another. The Artist displayed his musical talents and The Author listened, but when The Author displayed his writing talents, the two individuals were absorbed into the story he wrote, which turned out to be the same story the readers were reading. After being absorbed into the story, the two boys woke up in an underground library having no memory of who they were or how they got there. All they knew was that they looked alike, so they named one another and from then on they addressed each other as brother. The two brother's, Seth and Aiden, climbed to the surface together and in the midday sun they found that they were supposedly on an empty island. They thoroughly searched the island for

hours and eerily found no other signs of life. Seth became bored during the searching process and requested a little entertainment from his brother, Aiden. Seeing that both boys were starting from a blank slate, Aiden said that he couldn't recap a tale because he knew no other story but the one they were living. However, to keep his brother's spirit up, he began to foreshadow the possibility of a boy that can wield lightning to fight against monsters. He titled the boy, an Alpha and he called the monsters, the Organisms. The narrative that Aiden had began, kept his brother focused, happy, and entertained while they searched for signs of life or an exit. After the sun set the two decided to rest on the beach and continue the next morning. But when the moon rose, the narrative showed signs of coming to life around the brothers when they were targeted by the terrifying Organisms. Will they remember who they are in time to escape the story that trapped them inside of it? Or is it deeper than they think and they're not inside a story at all?
