**Cubicle Envy** Geoff Jarok,2014-06-09 In the cubicle building blocks of American industry, April of 2009 brought workers little more than meeting requests to pull them away from barely hidden job searches and online gambling losses on their 401ks. Product Wave, Ltd., a global software company headquartered in Massachusetts, was just as rife with frustration, dotted among endless rows of cubes, as any company withering in the recession. The difference was that the workers were still engaged hoping for a turn-around. In fact, their efforts were so outstanding it earned them an indefinite salary and bonus freeze. Most employees were so busy worrying about the economy that they didn't notice management had authorized bonuses to be paid...to management. The bigwigs would've gotten away with it, if not for those meddling accountants. Long a disregarded entity within the halls of Product Wave, the rambunctious accounting team was given a chance to make noise by management's misstep. Follow them as they find friends and enemies across the corporate landscape, while making certain the bonus check goes nowhere, but back into the pockets of the cube dwellers who earned it. When the whistles stop blowing maybe the bottom line comes out a little differently than expected. Cubicle Envy is an offbeat look at a corporate world flush with cheeky office workers, rogue accountants, and middle managers just trying to get some work done so they can get out before 9:00PM.

The New Guitarscape in Critical Theory, Cultural Practice and Musical Performance Kevin Dawe,2017-07-05 In The New Guitarscape, Kevin Dawe argues for a re-assessment of guitar studies in the light of more recent musical, social, cultural and technological developments that have taken place around the instrument. The author considers that a detailed study of the guitar in both contemporary and cross-cultural perspectives is now absolutely essential and that such a study must also include discussion of a wide range of theoretical issues, literature, musical cultures and technologies as they come to bear upon the instrument. Dawe presents a synthesis of previous work on the guitar, but also expands the terms by which the guitar might be studied. Moreover, in order to understand the properties and potential of the guitar as an agent of music, culture and society, the author draws from studies in science and technology, design theory, material culture, cognition, sensual culture, gender and sexuality, power and agency, ethnography (real and virtual) and globalization. Dawe presents the guitar as an instrument of scientific investigation and part of the technology of globalization, created and disseminated through corporate culture and cottage industry, held close to the body but taken away from the body in cyberspace, and involved in an enormous variety of cultural interactions and political exchanges in many different contexts around the world. In an effort to understand the significance and meaning of the guitar in the lives of those who may be seen to be closest to it, as well as providing a critically-informed discussion of various approaches to guitar performance, technologies and techniques, the book includes discussion of the work of a wide range of guitarists, including Robert Fripp, Kamala Shankar, Newton Faulkner, Lionel Loueke, Sharon Isbin, Steve Vai, Bob Brozman, Kaki King, Fred Frith, John 5, Jennifer Batten, Guthrie Govan, Dominic Frasca, I Wayan Balawan, Vicki Genfan and Hasan Cihat ter.

*The Only Book You'll Ever Need - Guitar* Ernie Jackson,2012-04-01 These handy, accessible books provides literally all the information you need to know to gain a new hobby or understand a difficult topic. Guitar makes learning how to play an acoustic or electric guitar easy and will serve as the perfect introduction to this popular instrument. This title covers everything you need to know: how to play your first songs, reading music and tablature, mastering genre styles, and much, much more. With clear step-by-step instructions, diagrams and practice tips, this practical manual will have readers playing chords and songs in no time.
