The Span Book ,2022

Unprecedented Josh Blackman,2013-09-10 Foreword by Randy E. Barnett In 2012, the United States Supreme Court became the center of the political world. In a dramatic and unexpected 5-4 decision, Chief Justice John Roberts voted on narrow grounds to save the Affordable Care Act, commonly known as Obamacare. Unprecedented tells the inside story of how the challenge to Obamacare raced across all three branches of government, and narrowly avoided a constitutional collision between the Supreme Court and President Obama. On November 13, 2009, a group of Federalist Society lawyers met in the Mayflower Hotel in Washington, D.C., to devise a legal challenge to the constitutionality of President Obama's legacy -- his healthcare reform. It seemed a very long shot, and was dismissed peremptorily by the White House, much of Congress, most legal scholars, and all of the media. Two years later the fight to overturn the Affordable Care Act became a political and legal firestorm. When, finally, the Supreme Court announced its ruling, the judgment was so surprising that two cable news channels misreported it and announced that the Act had been declared unconstitutional. Unprecedented offers unrivaled inside access to how key decisions were made in Washington, based on interviews with over one hundred of the people who lived this journey -- including the academics who began the challenge, the attorneys who litigated the case at all levels, and Obama administration attorneys who successfully defended the law. It reads like a political thriller, provides the definitive account of how the Supreme Court almost struck down President Obama's unprecedented law, and explains what this decision means for the future of the Constitution, the limits on federal power, and the Supreme Court.

From Cotton Field to Schoolhouse Christopher M. Span,2012-04-01 In the years immediately following the Civil War--the formative years for an emerging society of freed African Americans in Mississippi--there was much debate over the general purpose of black schools and who would control them. From Cotton Field to Schoolhouse is the first comprehensive examination of Mississippi's politics and policies of postwar racial education. The primary debate centered on whether schools for African Americans (mostly freedpeople) should seek to develop blacks as citizens, train them to be free but subordinate laborers, or produce some other outcome. African Americans envisioned schools established by and for themselves as a primary means of achieving independence, equality, political empowerment, and some degree of social and economic mobility--in essence, full citizenship. Most northerners assisting freedpeople regarded such expectations as unrealistic and expected African Americans to labor under contract for those who had previously enslaved them and their families. Meanwhile, many white Mississippians objected to any educational opportunities for the former slaves. Christopher Span finds that newly freed slaves made heroic efforts to participate in their own education, but too often the schooling was used to control and redirect the aspirations of the newly freed.

Available Accelerated Bridge Construction Options for Short Span Bridges Armin Mehrabi,Ana Torrealba,Mohammad Abedin,Seyed Saman Khedmatgozar Dolati,Pranit Malla,2024-03-18 By employing prefabricated bridge elements and systems, Accelerated Bridge Construction reduces on-site construction time and traffic disruptions, and enhances long-term performance. ABC is particularly advantageous for short-span bridges that are well-suited to standardized prefabrication. In such cases, the entire superstructure and substructure can often be constructed using prefabricated deck elements, modular decks, or systems that span the full bridge width. The construction methods can range from traditional crane installations to Self-Propelled Modular Transport units or slide-in techniques for moving the entire superstructures. This book introduces the concept of ABC and examines its application in the context of short-span bridge construction. It categorizes and details short-span bridges based on various criteria and evaluates the performance of the existing bridges. Decision-making processes regarding the adoption of ABC, choice of elements, systems, and construction methods are also discussed. Additionally, the book covers the inspection of short-span bridges and includes a design example.

When the Time Comes Paula Span,2009-06-10 What will you do when you get the call that a loved one has had a heart attack or a stroke? Or when you realize that a family member is too frail to live alone, but too healthy for a nursing home? Journalist Paula Span shares the resonant narratives of several families who faced these questions. Each family contemplates the alternatives in elder care (from assisted living to multigenerational living to home care, nursing care, and at the end, hospice care) and chooses the right path for its needs. Span writes about the families' emotional challenges, their practical discoveries, and the good news that some of them find a situation that has worked for them and their loved ones. And many find joy in the duty of caring for an older loved one. There are 45 million Americans caring for family members currently, and as the 77 million boomers continue to age, this number will only go up. Paula Span's stories are revealing and informative. They give a sense of all the emotional and practical factors that go into the major decisions about caregiving, so that readers will be better able to figure out what to do when the time comes for them and their loved ones.

Life-span Developmental Psychology Paul B. Baltes,Hayne W. Reese,John R. Nesselroade,2014-01-02 What are the changes we see over the life-span? How can we explain them? And how do we account for individual differences? This volume continues to examine these questions and to report advances in empirical research within life-span development increasing its interdisciplinary nature. The relationships between individual development, social context, and historical change are salient issues discussed in this volume, as are nonnormative and atypical events contributing to life-span change.

Suspension Bridges and Cantilevers, Their Economic Proportions and Limiting Spans David Barnard Steinman,1911

Developmental Spans in Event Comprehension and Representation Paul van den Broek,Patricia J. Bauer,Tammy Bourg,2013-12-16 This book is about building metaphorical bridges--all sorts of bridges. At the most basic level, it concerns the bridges that individuals build to understand the events that they experience--the bridges that connect the events in the mind's eye. At another level, it is about bridges that interconnect findings and theoretical frameworks concerning event comprehension and representation in different age groups, ranging from infancy to adulthood. Finally, it is about building bridges between researchers who share interests, yet may not ordinarily even be aware of each other's work. The success of the book will be measured in terms of the extent to which the contributors have been able to create a picture of the course of development across a wide span in chronological age, and across different types of events, from the fictional to the actual. The individuals whose work is represented in this book

conduct their work in a shared environment--they all have an intellectual and scholarly interest in event comprehension and representation. These interests are manifest in the overlapping themes of their work. These include a focus on how people come to temporally integrate individual snapshots to form a coherent event that unfolds over time, to understand cause and effect, and to appreciate the role of the goal of events. Another overlapping theme involves the possibility of individual differences. These themes are apparent in work on the early development of representations of specific episodes and autobiographical memories, and comprehension of complex events such as stories involving multiple characters and emotions. The editors of this volume had two missions: * to create a development span by bringing together researchers working from infancy to adulthood, and * to create a bridge between individuals working from within the text comprehension perspective, within the naturalistic perspective, and with laboratory analogues to the naturalistic perspective. Their measure of success will be the extent to which they have been able to create a picture of the course of development across a wide span in chronological age, and across different types of events--from fictional to actual.

The Cubans Anthony DePalma,2020-05-26 [DePalma] renders a Cuba few tourists will ever see . . . You won't forget these people soon, and you are bound to emerge from DePalma's bighearted account with a deeper understanding of a storied island . . . A remarkably revealing glimpse into the world of a muzzled yet irrepressibly ebullient neighbor.--The New York Times Modern Cuba comes alive in a vibrant portrait of a group of families's varied journeys in one community over the last twenty years. Cubans today, most of whom have lived their entire lives under the Castro regime, are hesitantly embracing the future. In his new book, Anthony DePalma, a veteran reporter with years of experience in Cuba, focuses on a neighborhood across the harbor from Old Havana to dramatize the optimism as well as the enormous challenges that Cubans face: a moving snapshot of Cuba with all its contradictions as the new regime opens the gate to the capitalism that Fidel railed against for so long. In Guanabacoa, longtime residents prove enterprising in the extreme. Scrounging materials in the black market, Cary Luisa Limonta Ewen has started her own small manufacturing business, a surprising turn for a former ranking member of the Communist Party. Her good friend Lili, a loyal Communist, heads the neighborhood's watchdog revolutionary committee. Artist Arturo Montoto, who had long lived and worked in Mexico, moved back to Cuba when he saw improving conditions but complains like any artist about recognition. In stark contrast, Jorge García lives in Miami and continues to seek justice for the sinking of a tugboat full of refugees, a tragedy that claimed the lives of his son, grandson, and twelve other family members, a massacre for which the government denies any role. In *The Cubans*, many patriots face one new question: is their loyalty to the revolution, or to their country? As people try to navigate their new reality, Cuba has become an improvised country, an old machine kept running with equal measures of ingenuity and desperation. A new kind of revolutionary spirit thrives beneath the conformity of a half century of totalitarian rule. And over all of this looms the United States, with its unpredictable policies, which warmed towards its neighbor under one administration but whose policies have now taken on a chill reminiscent of the Cold War.

Badges without Borders Stuart Schrader,2019-10-15 From the Cold War through today, the U.S. has quietly assisted dozens of regimes around the world in suppressing civil unrest and securing the conditions for the smooth operation of capitalism. Casting a new light on American empire, *Badges Without Borders* shows, for the first time, that the very same people charged with global counterinsurgency also militarized American policing at home. In this groundbreaking exposé, Stuart Schrader shows how the United States projected imperial power overseas through police training and technical assistance—and how this effort reverberated to shape the policing of city streets at home. Examining diverse records, from recently declassified national security and intelligence materials to police textbooks and professional magazines, Schrader reveals how U.S. police leaders envisioned the beat to be as wide as the globe and worked to put everyday policing at the core of the Cold War project of counterinsurgency. A “smoking gun” book, *Badges without Borders* offers a new account of the War on Crime, “law and order” politics, and global counterinsurgency, revealing the connections between foreign and domestic racial control.
