American friends. As a vacation it's a bit primitive, but just what his soul craves. And then they find a shipwreck - untouched and impossibly preserved. The thing enthralls with whispered promises of gold. Their rush to claim it soon mires in petty bickering and odd accidents. Troubled dreams haunt Wall's sleep, vague memories of pain and torture and a captain once called Sadico. In fleeing his personal demon, Wall has run straight to its lair. This trap was laid centuries ago, for five souls moved on to new lives and new loves. Set by the one soul they left behind.

Socially Responsible Investment Russell Sparkes,2003-03-14 Over recent years there has been rapid consumer-led growth in investing in socially responsible companies to the extent that it has had an influence on corporate policies. New regulations recognise the public interest by requiring all pension funds to declare their ethical policy. Investors can no longer just consider the financial aspects of a company before investing but also have to consider the complex world of ethical investments. Should the ethical policy take precedence over the financial aspects? Should policies be inclusive or exclusive? What percentage of a company's income has to come from unacceptable sources before the source is excluded? Should any exclusion policy also extend to those involved in selling or transporting goods deemed unacceptable? This is the first book to look at socially responsible investment from the perspective of the institutional investor, who will be led through the complex dilemmas of socially responsible investment with practical examples and advice.

Talking Politics A. W. Sparkes, 2006-06-19 Talking Politics is a philosophical examination of some of the basic concepts of political discourse. Its primary focus is on the ordinary; on what is said by politicians, in newspapers and by people in pubs, rather than on the works of political theorists. This is a work of, but not on political theory. Talking Politics is: * Invaluable as a source of reference for students, and contains a detailed index * Arranged thematically, around topics such as 'Nation'. Each entry has copious cross-references and suggestions for further reading A. W. Sparkes is uniquely qualified to write such a book, combining some thirty years' teaching as a philosopher with wide experience

of, and a life-long fascination with, politics. His attitude is that of a critical, but uncynical, observer.
