Reel Inequality Nancy Wang Yuen, 2016-12-12 When the 2016 Oscar acting nominations all went to whites for the second consecutive year, #OscarsSoWhite became a trending topic. Yet these enduring racial biases afflict not only the Academy Awards, but also Hollywood as a whole. Why do actors of color, despite exhibiting talent and bankability, continue to lag behind white actors in presence and prominence? *Reel Inequality* examines the structural barriers minority actors face in Hollywood, while shedding light on how they survive in a racist industry. The book charts how white male gatekeepers dominate Hollywood, breeding a culture of ethnocentric storytelling and casting. Nancy Wang Yuen interviewed nearly a hundred working actors and drew on published interviews with celebrities, such as Viola Davis, Chris Rock, Gina Rodriguez, Oscar Isaac, Lucy Liu, and Ken Jeong, to explore how racial stereotypes categorize and constrain actors. Their stories reveal the day-to-day racism actors of color experience in talent agents' offices, at auditions, and on sets. Yuen also exposes sexist hiring and programming practices, highlighting the structural inequalities that actors of

color, particularly women, continue to face in Hollywood. This book not only conveys the harsh realities of racial inequality in Hollywood, but also provides vital insights from actors who have succeeded on their own terms, whether by sidestepping the system or subverting it from within. Considering how their struggles impact real-world attitudes about race and diversity, *Reel Inequality* follows actors of color as they suffer, strive, and thrive in Hollywood.

Twelve Years a Slave Solomon Northup, 2013 Film, 2013 and the official recipient of three Oscars, Solomon Northup's powerful slave narrative 'Twelve Years a Slave' depicts Northup's life as he is sold into slavery after having spent 32 years of his life living as a free man in New York. Working as a travelling musician, Northup goes to Washington D.C, where he is kidnapped, sent to New Orleans, and sold to a planter to suffer the relentless and brutal life of a slave. After a dozen years, Northup escapes to return to his family and pulls no punches, as he describes his fate and that of so many other black people at the time. It is a harrowing but vitally important book, even today. For further reading on this subject, try 'Uncle Tom's Cabin' by Harriet Beecher Stowe. Solomon Northup (c.1807-c.1875) was an American abolitionist and writer, best remembered for his powerful race memoir 'Twelve Years a Slave'. At the age of 32, when he was a married farmer, father-of-three, violinist and free-born man, he was kidnapped in Washington D.C and shipped to New Orleans, sold to a planter and enslaved for a dozen years. When he gained his freedom, he wrote his famous memoir and spent some years lecturing across the US, on behalf of the abolitionist movement. 'Twelve Years a

'Slave' was published a year after 'Uncle Tom's Cabin' by Harriet Beecher Stowe and built on the anti-slavery momentum it had developed. Northup's final years are something of a mystery, though it is thought that he struggled to cope with family life after being freed.

Neurologic Differential Diagnosis Alan B. Ettinger, Deborah M. Weisbrot, 2014-04-17 There is an

apocryphal story of an eminent neurology professor who was asked to provide a differential diagnosis. He allegedly quipped: I can't give you a differential diagnosis. If you wish I will give you a list of wrong diagnoses followed by the right diagnosis. Sadly, this sort of arrogance pervaded our field, particularly in the era before there were accurate diagnostic methods and effective treatments of neurological diseases. Fortunately, this sort of pomposity is now relegated to the past and remains only as an antique reminder of a type of hubris that precluded discovery and progress in diseases of the nervous system--

Power for the People David W. Wilma, Walt Crowley, 2010 Since before Seattle voters decided in 1902 to build their own lighting plant, City Light has been a source of fierce civic pride for its independence from foreign corporations, its impressive public works projects, and its consistently low electricity rates. It has also been a headache for competitors, managers, and politicians. In the first years of the electric age, when Seattle was still a hard-scrabble frontier town, power was supplied by a

revolving cast of small private utilities remembered mostly for frequent mergers with rivals and mediocre service at high cost. The failure of the privately owned water company to deliver enough of its product to quell Seattle's Great Fire of 1889 got city officials and residents thinking about an alternative utility model--municipal ownership. Voters quickly approved a municipal water system, and within a decade had laid the groundwork for an electric utility. City Light quickly began a campaign of dam construction that for most of the twentieth century provided Seattle with the cheapest electricity of any major city in the country. This brisk history traces the utility's origins to 1889 and follows its story through the national energy crisis of 2000-2001 up to the present. It is a quintessentially Northwest story.
