Sports on Television Dennis Deninger, 2012-11-12 In *Sports on Television*, Dennis Deninger provides an all-encompassing view of the sports television industry. He progresses from the need for this book, to the history of the industry and discipline, to the pioneering events of sports broadcasting and sports television, to a nuts-and bolts, behind-the-scenes look at a sports television production. All the while, he examines the impact that sports and the mass media have had (and are continuing to have) on one another and on society.

ABC Sports Travis Vogan, 2018-11-06 ABC Sports shaped how the world consumes sport. The American Broadcasting Company's sports division is behind some of network television's most significant practices, celebrated personalities, and iconic moments. It created the weekend anthology *Wide World of Sports*, transformed professional football into a prime-time spectacle with *Monday Night Football*, fashioned the Olympics into a mega media event, and even revolutionized TV news. Travis Vogan's cultural and institutional history of ABC Sports examines the development of network sports television in the United States and the aesthetic, cultural, political, and industrial practices that mark it. ABC Sports traces the storied division from its beginnings through the internet age to reveal the changes it endured along with the new sports media environment it spawned.

Live Sports Media Dennis Deninger, 2022 The sports and media partnership -- The beginnings of televised sport -- The modern era creates a new sports TV reality -- Pro football was made for television -- ESPN becomes the first 24/7 connection to sports -- Programming sports for viewers and advertisers -- Producing live sports broadcasts -
- Live sports commentary and analysis -- Sports coverage that spans the globe -- Advertising drives the sports engine -- The power game

-- How politics and government influence sports television -- the social and cultural impact of televised sport -- Coming up next.

Sports on Television Alvin H. Marill, 2009 Television has always augmented its dramatic and variety programming with sports. After covering wrestling and boxing matches for several years, ABC added the hugely popular Roller Derby between 1949 and 1951, and later, college and pro football. Today, there is a multitude of pay and cable networks devoted exclusively to baseball, football, golf, hockey, tennis, ice-skating, and auto racing. Rather than focusing on live sports broadcasts, however, this book chronicles the history of sports-themed comedies and dramas, to see how our national fictions have affected our authentic sports experiences, and vice versa. Sports dominate the television landscape today, and still the demand for more is so great that pay and cable networks continue to find funding and success, even when devoted exclusively to a single sport. But this is really nothing new: television has always augmented its dramatic and variety programming with sports. Live sports have had a tremendous impact on what we see on television, and on how we see it. Rather than focusing on live sports broadcasts, however, this book takes a critical look at sports-themed comedies and dramas, to see how our authentic sports affect our national fictions as well. From the character studies that supplement Olympic coverage, to nightly highlight reels, to reality programming on ESPN, sports both echo and help shape the myths that pervade our culture. *Sports on Television* covers the changing relationship between live sports broadcasts and television dramas, as well as the important technological developments and cultural shifts that have changed the way we view the reality of sports. In 1949, after covering wrestling and boxing matches for

several years, ABC added the hugely popular Roller Derby, and later moved on to college and pro football, where humble beginnings have since developed into a national obsession. In the early sixties Jimmy Stewart played a disgraced baseball player in *Flashing Spikes*—which was also one of the rare ventures into television for veteran director John Ford. On HBO the Yankees have been the subject of both *61**—about Roger Maris's quest to top Babe Ruth's home run record—and *The Bronx Is Burning*, about the 1977 Yankees team. And there have been sports-themed TV sitcoms as well, such as *Sports Night*, Aaron Sorkin's critically lauded but commercially unsuccessful project, which preceded his work on *The West Wing*. Meanwhile *American Gladiators*—a strange blend of canned programming and authentic athletic endeavor that in effect puts television audiences in an arena with what amounts to professional athletes—is quickly becoming one of the most popular shows on primetime. Here, Marill gives due time to all of these unique projects.

Kumukanda Kayo Chingonyi, 2017-06-01 *Winner of the Dylan Thomas Prize 2018* *Winner of the Somerset Maugham Award 2018*

'A brilliant debut - a tender, nostalgic and, at times, darkly hilarious exploration of black boyhood, masculinity and grief. A gorgeous and necessary collection from one of my favourite writers' Warsan Shire

Translating as 'initiation', kumukanda is the name given to the rites a young boy from the Luvale tribe must pass through before he is considered a man. The poems of Kayo Chingonyi's remarkable debut explore this passage: between two worlds, ancestral and contemporary; between the living and the dead; between the gulf of who he is and how he is perceived. Underpinned by a love of music, language and literature, here is a powerful exploration of race, identity and masculinity, celebrating what it means to be British and not British, all at once. *Shortlisted for the Costa Poetry Prize; Seamus Heaney Centre First Poetry Collection Prize; Ted Hughes Award for New Work in Poetry; Roehampton Poetry Prize; Jhalak Prize 2018*

Parkour and the City Jeffrey L. Kidder, 2017-04-20 In the increasingly popular sport of parkour, athletes run, jump, climb, flip, and vault through city streetscapes, resembling urban gymnasts to passersby and awestruck spectators. In *Parkour and the City*, cultural sociologist Jeffrey L. Kidder examines the ways in which this sport involves a creative appropriation of urban spaces as well as a method of everyday risk-taking by a youth culture that valorizes individuals who successfully manage danger. Parkour's modern development has been tied closely to the growth of the internet. The sport is inevitably a YouTube phenomenon, making it exemplary of new forms of globalized communication. Parkour's dangerous stunts resonate, too, Kidder contends, with a neoliberal ideology that is ambivalent about risk. Moreover, as a male-dominated sport, parkour, with its glorification of strength and daring, reflects contemporary Western notions of masculinity. At the same time, Kidder writes, most athletes (known as "traceurs" or "freerunners") reject a "daredevil" label, preferring a deliberate, reasoned hedging of bets with their own

safety—rather than a “pushing the edge” ethos normally associated with extreme sports.
