Cedar Key, Florida Kevin McCarthy,2007-08-23
Rich in small town atmosphere and old Florida history, Cedar Key is a quiet island community nestled among many tiny keys on the Gulf Coast of Florida. Refuge for birds and wildlife, Florida's oldest port, and home to artists and writers, the island has long been admired for its tranquility and natural beauty. Visit the island where time stands still and explore the romantic, almost

forgotten history of old Florida.

Stimulus-Response Compatibility R.W.

Proctor,T.G. Reeve,1989-12-18 Stimulus-response compatibility refers to the finding that certain mappings of stimuli to responses produce faster and more accurate responding than do others. The present volume surveys compatibility research which falls into four broad categories: (a) mental representation and coding (b) neurophysiological mechanisms (c) motor performance (d) human factors applications. The major findings and models within each of the categories are summarized, and an integrated perspective is provided. The research indicates that compatibility effects reflect basic cognitive processes that bear on a range of issues in cognitive science and that have applied implications for human factors specialists.

Lockheed SR-71 Operations in the Far East Paul

F. Crickmore,2013-01-20 Even before the first operational flight of the U-2 spy plane, aircraft designers began work on the type's replacement. The result was the SR-71. First deployed on March 9, 1968, this tri-sonic 'hotrod' flew its first operational sortie over North Vietnam just 12 days later. Thereafter, the SR-71 roamed freely, capturing photographic, radar and electronic intelligence. This book examines the impact this aircraft had, not only on North Vietnam but during the Cold War as a whole, gathering information about the Soviet nuclear submarine fleet based in Vladivostok as well as the port's defenses, monitoring the actions of North Korea and flying four 11-hour, non-stop sorties into the Persian

Gulf during the Iran-Iraq War in the late 1980s.
