Globalizing Justice for Mass Atrocities Chandra Lekha Sriram, 2013-05-13 This major new study examines the developing practice of universal jurisdiction, as well as the broader phenomenon of globalizing justice, and its ramifications. With a detailed overview of the contemporary practice of universal jurisdiction, it discerns three trends at work: pure universal jurisdiction, universal jurisdiction plus, and non-use. It also argues that these disparities in practice should raise serious concerns as to the legitimacy and perceived legitimacy of such globalized justice. It then turns to a further consideration, that of globalized justice, precisely because it takes place far from the locus of the crime, and is therefore externalized and may fail to achieve many of its putative goals. In addition, this is a key assessment of civil accountability, through the use of the Alien Tort Claims Act in the United States. It details how the use of civil penalties may offer new avenues for redress, particularly with relation to group accountability, whether that of armed groups or of corporations. However, it balances this approach to accountability with recognition of certain flaws within externalized criminal accountability. This study also focuses on mixed tribunals, or other methods of internationalized justice as viable alternatives, which may

avoid some of the problems with external justice, but are themselves far from perfect. Mixed or hybrid tribunals in East Timor and Sierra Leone represent different models of hybrid justice and provide the reader with excellent examples of these new forms of justice in action. This book will be of great interest to all students and scholars of human rights international law and political science.

Transitional Justice and Peacebuilding on the Ground Chandra Lekha Sriram, Jemima García-Godos, Johanna Herman, Olga Martin-Ortega, 2013 This book seeks to refine our understanding of transitional justice and peacebuilding, and long-term security and reintegration challenges after violent conflicts. As recent events following political change during the so-called 'Arab Spring' demonstrate, demands for accountability often follow or attend conflict and political transition. While traditionally much literature and many practitioners highlighted tensions between peacebuilding and justice, recent research and practice demonstrates a turn away from the supposed 'peace vs justice' dilemma. This volume examines the complex relationship between peacebuilding and transitional justice through the lenses of the increased emphasis on victim-centred approaches to justice and the widespread practices of disarmament, demobilization, and reintegration (DDR) of excombatants. While recent volumes have sought to address either DDR or victim-centred approaches to justice, none has sought to make connections between the two, much less to place them in the larger context of the increasing linkages between transitional justice and peacebuilding. This book will be of great interest to students of transitional justice, peacebuilding, human rights, war and conflict studies, security studies and IR.

Justice in Conflict Mark Kersten, 2016 What happens when the international community simultaneously pursues peace and justice in response to ongoing conflicts? What are the effects of interventions by the International Criminal Court (ICC) on the wars in which the institution intervenes? Is holding perpetrators of mass atrocities accountable a help or hindrance to conflict resolution? This book offers an in-depth examination of the effects of interventions by the ICC on peace, justice and conflict processes. The peace versus justice debate, wherein it is argued that the ICC has either positive or negative effects on 'peace', has spawned in response to the Court's propensity to intervene in conflicts as they still rage. This book is a response to, and a critical engagement with, this debate. Building on theoretical and analytical insights from the fields of conflict and peace studies, conflict resolution, and negotiation theory, the book develops a novel analytical

framework to study the Court's effects on peace, justice, and conflict processes. This framework is applied to two cases: Libya and northern Uganda. Drawing on extensive fieldwork, the core of the book examines the empirical effects of the ICC on each case. The book also examines why the ICC has the effects that it does, delineating the relationship between the interests of states that refer situations to the Court and the ICC's institutional interests, arguing that the negotiation of these interests determines which side of a conflict the ICC targets and thus its effects on peace, justice, and conflict processes. While the effects of the ICC's interventions are ultimately and inevitably mixed, the book makes a unique contribution to the empirical record on ICC interventions and presents a novel and sophisticated means of studying, analyzing, and understanding the effects of the Court's interventions in Libya, northern Uganda - and beyond.

War, Conflict and Human Rights Chandra Lekha Sriram, Olga Martin-Ortega, Johanna Herman, 2017-08-02 War, Conflict and Human Rights is an innovative inter-disciplinary textbook, combining aspects of law, politics and conflict analysis to examine the relationship between human rights and armed conflict. This third edition has been fully revised and updated, and contains a completely new chapter on business, conflict and human rights. Making use of both theoretical and practical approaches, the authors: examine the tensions and complementarities between protection of human rights and resolution of conflict - the competing political demands and the challenges posed by internal armed conflict and the increasing role of nonstate actors, including corporations, in armed conflicts; explore the scope and effects of human rights violations in contemporary

armed conflicts, such as in Sierra Leone, Sudan, South Sudan, the Democratic Republic of Congo and the former Yugoslavia; assess the legal and institutional accountability mechanisms developed in the wake of armed conflict to punish violations of human rights law and international humanitarian law such as the ad hoc tribunals for the former Yugoslavia and Rwanda, hybrid or internationalized tribunals and the International Criminal Court; discuss continuing and emergent global trends and challenges in the fields of human rights and conflict analysis. This volume will be essential reading for students of war and conflict studies, human rights and international humanitarian law, and highly recommended for students of conflict resolution, peacebuilding, international security, transitional justice and international relations generally.

Spirituality in Modern Literature Swami Satyaswarupananda, Swami Madhurananda, Fictional literature, when enkindled with spiritual ideas, creates an appeal that transcends time and place. This has been the case with many literary works produced in India and other parts of the world, and this is so even in our modern times characterized by consumerist culture that hardly sees below the surface of things. A compilation from 'Prabuddha Bharata', this book presents to the readers, through a series of articles, a systematic record of some of those writers who added the spiritual dimension to their fictional works in India and the Americas. Published by Advaita Ashrama, a publication house of Ramakrishna Math, Belur Math

Peace and Justice Rachel Kerr, Eirin Mobekk, 2013-04-26 In recent years there has been a tendency to intervene in the military, political and economic affairs of failed and failing states and those emerging from violent conflict. In many cases this has been accompanied

by some form of international judicial intervention to address serious and widespread abuses of international humanitarian law and human rights in recognition of an explicit link between peace and justice. A range of judicial and non-judicial approaches has been adopted in recognition of the fact that there is no one-size-fits-all model through which to seek accountability. This book considers the merits and drawbacks of these different responses and sets out an original framework for analysing transitional societies and transitional justice mechanisms. Taking as its starting point the post-Second World War tribunals at Nuremburg and Tokyo, the book goes on to discuss the creation of ad hoc international tribunals in the 1990s, hybrid/mixed courts, the International Criminal Court, domestic trials, truth commissions and traditional justice mechanisms. With examples drawn from across the world, including the former Yugoslavia, Rwanda, Cambodia, Timor-Leste, Sierra Leone, Uganda and the DRC, it presents a compelling and comprehensive study of the key responses to war crimes. Peace and Justice is a timely contribution in a world where an ever-increasing number of post-conflict societies are grappling with the complex issues of transitional justice. It will be a valuable resource for students, scholars, practitioners and policy-makers seeking to understand past violations of human rights and the most effective ways of addressing them.
