He will do anything to stop even one more steamship disaster. Even if it means letting a female secretary into his secluded world. Nicole is determined not to let her odd employer scare her off with his explosive experiments, yet when respect and mutual attraction grow between them, a new fear arises. How can she acquire an heir for her father when her heart belongs to another? And when her father's rivals discover her hiding place, will she have to choose between that love and her family's legacy?

The lessons are divided into three sections: The Music Room as a Makerspace - Let your students' imaginations go wild as they build shakers and shadow puppets, tell stories with apps and green screens, and learn all the elements that go into a Broadway musical. Coding the Music Room - With a few tech tools, your students will compose melodies and variations, explore modes, add sound effects to stories, and find solutions to help others solve issues that arise in the music room. Digital Audio Workstations (DAW) - Introduce your musicians to modern composition tools they can use to explore form, design sound, compose their own music, and unlock the mysteries of the synthesizer. No matter the lesson, your students will demonstrate their understanding of the concepts you already teach-- rhythm, melody, harmony, timbre, and form--using the tools, concepts, and standards of Science, Technology, Engineering, Arts, and Math.
