**Eddie Stobart** Martin Roach,2013-09-30 From humble beginnings in a Cumbrian farmyard over forty years ago, the Eddie Stobart fleet has found a big parking place in the nation's heart, loved as much for its 2,200 immaculate green and red trucks, each emblazoned with a girl's name on the front, as for its famous army of dedicated Stobart Spotters who try to find each one. Buckle up with the Stobart drivers, and join them on a week in the life of a massive delivery, from paperwork to pallet. Learn what it's like to be sat in the driver seat of a Stobart truck - the noises, visibility, clutch control, gears, steering - and discover the sheer size and power of these machines. Illustrated throughout with amazing photographs, and featuring first-hand stories of incredible journeys from the intrepid truckers, as well as astonishing facts and stats and the history of the fleet, this is truly an irresistible book for Stobart fans of all ages.

**Household Medicine in Seventeenth-Century England** Anne Stobart,2016-09-08 How did 17th-century families in England perceive their health care needs? What household resources were available for medical self-help? To what extent did households make up remedies based on medicinal recipes? Drawing on previously unpublished household papers ranging from recipes to accounts and letters, this original account shows how health and illness were managed on a day-to-day basis in a variety of 17th-century households. It reveals the extent of self-help used by families, explores their favourite remedies and analyses differences in approaches to medical matters. Anne Stobart illuminates cultures of health care amongst women and men, showing how 'kitchin physick' related to the business of medicine, which became increasingly commercial and professional in the 18th century.

**Global Goods and the Country House** Jon Stobart, 2023-11-20 Global goods were central to the material culture of eighteenth-century country houses. Across Europe, mahogany furniture, Chinese wallpapers and Indian textiles formed the backdrop to genteel practices of drinking sweetened coffee, tea and chocolate from Chinese porcelain. They tied these houses and their wealthy owners into global systems of supply and the processes of colonialism and empire. *Global Goods and the Country House* builds on these narratives, and then challenges them by decentring our perspective. It offers a comparative framework that explores the definition, ownership and meaning of global goods outside the usual context of European imperial powers. What were global goods and what did they mean for wealthy landowners in places at the 'periphery' of Europe (Sweden and Wallachia), in the British colonies of North America and the Caribbean, or in the extra-colonial context (Japan or Rajasthan)? By addressing these questions, this volume offers fresh insights into the multi-directional flow of goods and cultures that enmeshed the eighteenth-century world. And by placing these goods in their specific material context - from the English country house to the princely palaces of Rajasthan - we gain a better understanding of their use and meaning, and of their role in linking the global and the local.

**The Comforts of Home in Western Europe, 1700-1900** Jon Stobart, 2020-02-20 Comfort, both physical and affective, is a key aspect in our conceptualization of the home as a place of emotional attachment, yet its study remains under-developed in the context of the European house. In this volume, Jon Stobart has assembled an international cast of contributors to discuss the ways in which architectural and spatial innovations coupled with the emotional assemblage of objects to create comfortable homes in early modern Europe. The book features a two-section structure focusing on the historiography of architectural and spatial innovations and material culture in the early modern home. It also includes 10 case studies which draw on specific examples, from water closets in Georgian Dublin to wallpapers in 19th-century Cambridge, to illustrate how people made use of and responded to the technological improvements and the emotional assemblage of objects which made the home comfortable. In addition, it explores the role of memory and memorialisation in the domestic space, and the extent to which home comforts could be carried about by travellers or reproduced in places far removed from the home. *The Comforts of Home in Western Europe, 1700-1900* offers a fresh contribution to the study of comfort in the early modern home and will be vital reading for academics and students interested in early modern history, material culture and the history of interior architecture.

**Sugar and Spice** Jon Stobart, 2016-12-01 Consumers in eighteenth-century England were firmly embedded in an expanding world of goods, one that incorporated a range of novel foods (tobacco, chocolate, coffee, and tea) and new supplies of more established commodities, including sugar, spices, and dried fruits. Much has been written about the attraction of these goods, which went from being novelties or expensive luxuries in the mid-seventeenth century to central elements of the British diet a century or so later. They have been linked to the rise of Britain as a commercial and imperial power, whilst their consumption is seen as transforming many aspects of British society and culture, from mealtimes to gender identity. Despite this huge significance to ideas of consumer change, we know remarkably little about the everyday processes through which groceries were sold, bought, and consumed. In tracing the lines of supply that carried groceries from merchants to consumers, *Sugar and Spice* reveals how changes in retailing and shopping were central to the

broader transformation of consumption and consumer practices, but also questions established ideas about the motivations underpinning consumer choices. It demonstrates the dynamic nature of eighteenth-century retailing; the importance of advertisements in promoting sales and shaping consumer perceptions, and the role of groceries in making shopping an everyday activity. At the same time, it shows how both retailers and their customers were influenced by the practicalities and pleasures of consumption. They were active agents in consumer change, shaping their own practices rather than caught up in a single socially-inclusive cultural project such as politeness or respectability.
