Coaching, Training & Developing the Retail Manager Richard Bell, 2013-09-25
Retail managers spend a large part of their day putting out fires. They chase problems and apply quick, immediate solutions. The solutions do not typically

consider the whole system or surrounding areas that may be impacted. The solution, in essence, may create additional problems down the road or may not resolve the underlying issues of the problem. When problems arise, a Store Manager asks, "How Do I fix this problem now?" A Retail Consultant asks, "What does the problem really mean?" A Retail Consultant is a professional trained to look beneath the surface of problems. They collect data, observe established norms and behaviors as well as examine contributing factors below the surface in regards to problems and dysfunctional environments. The bad news, your company will probably never offer you the support and expertise of problem solving through a consultant. The good news, a Store Manager can be the Retail Consultant for their store. This book covers the six main identifiers that contribute to a Store Manager's understanding of a retail business. They include business performance, customers, employee/ environment, presentation/ assortment, competition and processes. The Retail Consulting Principles walk you through creating a plan for lasting change. This method represents progressive steps to identifying and solving problems. The principles covered in this book include: Stating the Problem, Managerial Diagnosis, Discovery & Fact Finding, Connecting the Whole System, Solutions Buy-in & Long-Term Change.

Coaching, Training and Developing the Retail Manager Richard Bell, 2013-03-08 Have you ever seen a bridge in a movie? Not the solid structural type you drive your car over but the type you walk across to get to the other side. They are typically placed in jungle scenes that have wooden planks to walk on and ropes on both sides to use as a guide rail. They are usually connecting the two sides of a mountain because of a huge drop. They also are characteristically missing planks and some fall as you walk or run across them. It is with much trepidation that you cross because you never know if the bridge will fail or you will fall through the planks. This is the bridge to retail leadership. Crossing The Retail Leadership Bridge requires a balancing act of developing people and accountability. The bridge consists of: 1.Living the Vision 2.Connecting & Valuing People 3.Leading Managers 4.Culture, Morale & Development 5.Change & the Whole System 6.Embracing & Respecting Customers 7.Reflection 8.Guard Your Words & Actions Take this introspective journey to unlock your talents and skills. There may be steps that are difficult to take and require substantial change, but they will ultimately advance your relationships with people. There are very few that will make the transition from manager to leader. Some will not have the skills while others will not have the desire for change. Even if leadership may seem beyond your reach, there are opportunities to enhance your skills.

Apply the knowledge learned through the bridge process and it may take you further than you ever thought possible.
