COLLECTED SUPERNOTES John O'Loughlin,2022-03-16 With his 'Collected Supernotes' author John O'Loughlin has combined, on a highly abstract basis, material derived from the independently published titles, Devil and God – The Omega Book, From Materialism to Idealism, Towards the Supernoumenon, Elemental Spectra, Critique of Post-Dialectical Idealism, Philosophical Truth, Veritas Philosophicus, and Last Judgements, which span the period 1985–93, with a view to bringing some kind of strict chronology to bear on a series of writings dubbed 'supernotational', to distinguish them from essays on the one hand and aphorisms on the other, thereby allowing him to establish a kind of intermediate position between essays and aphorisms in the interests of what became a gradual progression towards an enhanced sense of philosophical logic commensurate, so he believes, with 'Supertruth' and, ultimately, with a kind of plateau of aphoristic purism. – A Centretruths Editorial

Supernotes Agent Kasper,Luigi Carletti,2016-01-12 In the Cambodian hinterlands, a lone Western prisoner suffers through a hot, muddy, interminable sentence. Wasted by repeated torture, lack of sleep, malnutrition, and psychotropic drugs, he has been abandoned. His years of exemplary service to his government mean nothing. No one is coming for him. This is Agent Kasper, a man with a staggering résumé: commercial airline pilot, firearms expert, highly accomplished practitioner of several of the martial arts, a secret agent par excellence. It is this incredible competence that will be his undoing. While investigating Mafia money laundering in Phnom Penh, Kasper is approached by the CIA to track down the source of the so-called supernotes—illegal U.S. banknotes counterfeited so perfectly that they are undetectable, even by sophisticated machines—that are flooding Southeast Asia. With patience, skill, and courage, Kasper uncovers the explosive secret behind them and is badly burned by the truth. Meanwhile, back in Rome, a sharp, scrappy lawyer named Barbara Belli has been hired by Kasper's family to work for his release. She has contacts in the foreign ministry, and while officials make sweeping claims about moving heaven and earth, nothing happens. It's more than just creaking bureaucracy. Kasper has really pissed off the wrong people. Based on true events in the life of a former spy, Kasper's journey makes for a shocking and spellbinding page-turner of petty corruption, high-level betrayal, and state secrets so powerful that governments will protect them by any means.

Supernotes Agente Kasper,Luigi Carletti,2017

Supernotes Luigi Carletti,Agent Kasper,2015-04-17 Het waargebeurde verhaal van de CIA-spion die opeens op de dodenlijst stond. Supernotes is het verhaal van de Italiaanse undercoveragent Kasper, die tijdens een CIA-missie in Cambodja wordt verraden. De Cambodjanen smijten hem in de gevangenis, met de intentie hem geruisloos te laten verdwijnen. De CIA wil ineens van hem af en gebruikt daar de genadeloze Cambodjaanse gevangenisbewaarders voor. Kasper overleeft de onmenselijke omstandigheden, mede dankzij het smeergeld dat zijn familie stiekem betaalt. Hij zou Cambodja nooit meer levend mogen verlaten, maar hij weet te ontsnappen. De reden dat Kasper moet verdwijnen is dat hij heeft ontdekt dat er een parallelle economie bestaat. Die economie wordt gebruikt om ongeoorloofde operaties van de Verenigde Staten te financieren. Ook de Mossad, de IRA en de internationale drugshandel zijn hierbij betrokken. Supernotes trekt de lezer mee in de wereld van spionage en geheime wereldwijde missies. Het angstaanjagende aspect van dit verhaal? Het is allemaal waar gebeurd: Agent Kasper bestaat. Agent Kasper is half Italiaans en half Amerikaans. Hij leeft tegenwoordig ondergedoken. Luigi Carletti is een Italiaanse onderzoeksjournalist met meerdere boeken op zijn naam.

The End of Money David Wolman,2013-08-13 For ages, money has meant little metal disks and rectangular slips of paper. Yet the usefulness of physical money -- to say nothing of its value -- is coming under fire as never before. Intrigued by the distinct possibility that cash will soon disappear, author and Wired contributing editor David Wolman sets out to investigate the future of money...and how it will affect your wallet. Wolman begins his journey by deciding to shun cash for an entire year -- a surprisingly successful experiment (with a couple of notable exceptions). He then ventures forth to find people and technologies that illuminate the road ahead. In Honolulu, he drinks Mai Tais with Bernard von NotHaus, a convicted counterfeiter and alternative-currency evangelist whom government prosecutors have labeled a domestic terrorist. In Tokyo, he sneaks a peek at the latest anti-counterfeiting wizardry, while puzzling over the fact that banknote forgers depend on society's addiction to cash. In a downtrodden Oregon town, he mingles with obsessive coin collectors -- the people who are supposed to love cash the most, yet don't. And in rural Georgia, he examines why some people feel the end of cash is Armageddon's warm-up act. After stops at the Digital Money Forum in London and Iceland's central bank, Wolman flies to Delhi, where he sees first-hand how cash penalizes the poor more than anyone--and how mobile technologies promise to change that. Told with verve and wit, The End of Money explores an aspect of our daily lives so fundamental that we rarely stop to think about it. You'll never look at a dollar bill the same again.

Treasury's War Juan Zarate,2013-09-10 For more than a decade, America has been waging a new kind of war against the financial networks of rogue regimes, proliferators, terrorist groups, and criminal syndicates. Juan Zarate, a chief architect of modern financial warfare and a former senior Treasury and White House official, pulls back the curtain on this shadowy world. In this gripping story, he explains in unprecedented detail how a small, dedicated group of officials redefined the Treasury's role and used its unique powers, relationships, and reputation to apply financial pressure against America's enemies. This group unleashed a new brand of financial power -- one that leveraged the private sector and banks directly to isolate rogues from the international financial system. By harnessing the forces of globalization and the centrality of the American market and dollar, Treasury developed a new way of undermining America's foes. Treasury and its tools soon became, and remain, critical in the most vital geopolitical challenges facing the United States, including terrorism, nuclear proliferation, and the regimes in Iran, North Korea, and Syria. This book is the definitive account, by an unparalleled expert, of how financial warfare has taken pride of place in American foreign policy and how America's competitors and enemies are now learning to use this type of power themselves. This is the unique story of the United States' financial war campaigns and the contours and uses of financial power, and of the warfare to come.

Underground Economies and Illegal Imports Donald E. DeKieffer,2010 Underground Economies and Illegal Imports: Business and Legal Strategies to Address Illegal Commerce is a unique resource for lawyers and their clients facing the chaotic landscape of illegal trade in the black and gray markets, where legal remedies are often unobtainable or impracticable. Donald E. deKieffer—a practitioner who has represented more than 60 Fortune 500 companies both in the US and abroad—provides clear descriptions of how international supply and distribution chains are attacked by clever and not-so-subtle thieves around the world. This book is also a helpful source of examples and instructions on how to prepare for these attacks, and the best remedies when they do occur. Underground Economies and Illegal Imports: Business and Legal Strategies to Address Illegal Commerce is a one-of-a-kind guide to the underside of international trade for businesses, law enforcement and policy-makers. The illicit dealers in legitimate (or not-so-legitimate) merchandise are often linked with transnational criminal elements and even terrorists. This book assists international traders in avoiding these problems, or

ameliorating any effects.

Counterfeit Lies Oliver North, Bob Hamer, 2015-01-27 When he is hired to commit a high-profile mob assassination, veteran undercover FBI agent Jake Kruse is plunged into an underworld of espionage and terrorism involving a plot to crash a commercial airliner over the United States.

Hostile Money Paul Wilson, 2019-05-23 Money has the power to make nations and fuel wars. It is both the subject of diplomacy and the tool of those seeking to overthrow hostile regimes at home and abroad. Germany's hyperinflation following the First World War has entered the public consciousness as an extreme example of what can happen to a currency in conflict. What is not widely known is that it is by no means the worst case of war-induced hyperinflation. Hostile Money looks at the impact of war and revolution on national currencies – from Rome's civil war in the first century BC to the twenty-first-century invasions of Afghanistan and Iraq by American-led forces and the economic sanctions and cyberwarfare of today.

Routledge Handbook of Transnational Organized Crime Felia Allum, Stan Gilmour, 2021-11-08 This fully revised new edition provides a definitive and holistic overview of Transnational Organized Crime (TOC) in a world in which right wing populism has gained ground, trade wars are increasing, climate change is a reality and Covid poses a challenge for years to come. Updated to reflect the changing world environment, the book includes new chapters on issues such as criminal network analysis, environmental crime, cybercrime, people smuggling, drugs activities in the modern world, the relationship between organized crime and corruption, anti-organized crime resilience and the effectiveness of the fight against organized crime. New country case studies have also been included. The handbook is presented in six sections: • Concepts, theories and laws • Origins and manifestations • Contagion and evolution • Intensity and impact • Governance • Reaction and future Truly interdisciplinary in nature, the handbook features contributions from an international team of experts, working in different academic disciplines and within varied law enforcement agencies. It will appeal to scholars, policymakers and practitioners in International Law, Global Governance, International Political Economy and Security Studies.

Money Shot Susan Sey, 2011-06-07 Secret Service Agent Maria Goose di Guzman is assigned to Mishkawa Island on a goose-chase of a case when she encounters a greater mystery in sexy park ranger Rush Guthrie.

Hard Target Stephan Haggard, Marcus Noland, 2017-05-30 Because authoritarian regimes like North Korea can impose the costs of sanctions on their citizens, these regimes constitute hard targets. Yet authoritarian regimes may also be immune—and even hostile—to economic inducements if such inducements imply reform and opening. This book captures the effects of sanctions and inducements on North Korea and provides a detailed reconstruction of the role of economic incentives in the bargaining around the country's nuclear program. Stephan Haggard and Marcus Noland draw on an array of evidence to show the reluctance of the North Korean leadership to weaken its grip on foreign economic activity. They argue that inducements have limited effect on the regime, and instead urge policymakers to think in terms of gradual strategies. Hard Target connects economic statecraft to the marketization process to understand North Korea and addresses a larger debate over the merits and demerits of engagement with adversaries.

Seal Team Seven 04: Direct Action Keith Douglass, 1997-01-01 During an attack on a terrorist group in Port Sudan, Lieutenant Blake Murdock and his SEAL team uncover three million dollars in counterfeit currency. When officials link the money to an economic terrorism plot on the U.S. currency system, there is only one solution— infiltrate and terminate. Murdock and his SEALs have their marching orders: destroy the Lebanese warehouse that's producing the fake cash. But there's one minor problem. The warehouse is teeming with well-armed terrorists who would like nothing more than to take on Navy SEALs.

Vanishing Games Roger Hobbs, 2015-07-07 The gritty, riveting, highly anticipated sequel to the national (and international) best seller Ghostman, by the critically acclaimed and award-winning Roger Hobbs. It's just before dawn on the South China Sea when three experienced pirates open fire on a small smuggling yacht. Their target: a bag of uncut sapphires worth millions. But when one of them stumbles across an enormous treasure that wasn't on the manifest, everything goes sideways. Within minutes two of them are dead, leaving the third, a coldblooded psychopath, to claim both the sapphires and the mysterious windfall for himself. If he disappears, he won't just be wealthy. He'll have the power to change the course of history. His boss, Angela, isn't about to let that happen. She calls in a favor from her onetime protégé: a fixer sometimes known as Jack, or more often as simply the Ghostman. Within hours he's flying halfway around the world to find her in the glimmering neon slums of Macau. Jack has no real name, no address and no fingerprints—but given the right motivation, he can make serious problems vanish. Though the two haven't talked since they botched a job six years ago, as soon as Jack's off the plane they're back together again, facing down a crime boss, a hit man and a conspiracy bigger than anything they've ever encountered and more dangerous than they could've imagined. Their partnership—between people with no lasting relationships whatsoever—is at the very heart of a novel that will cement Roger Hobbs's status as one of our most talented crime writers.
