Highlander Imagine: For Love's Sake Wendy Jones,Liliana Bordoni,2015-05-01 He's coming for me, Duncan! Duncan threw his arms around Tessa - the woman he loved more than his own life - as if by this act and his force of will alone he could somehow halt the impending nightmare which was unfolding around them. When an apparent drug-related shooting nearly takes Tessa Noël's mortal life, Duncan and Richie search for the shooter to bring him to justice. Immortal Amanda is on the prowl again, and her feminine instincts have led her back to the irresistible Duncan, complicating matters. Tessa is unexpectedly confronted with secret information she could not have foreseen coming, threatening to unravel the bond between her and her ruggedly handsome, immortal Highlander. But it isn't Amanda's wanton desires Tessa has to worry about when hostile Immortals close in. Duncan, katana in hand, prepares to take heads in a fight to return their lives to normal. But can he detect the real threat in all the confusion around him before it is too late? Highlander Imagine is a series based on the original Highlander TV characters. The first book reboots the series, just five seconds before the bullet hits Tessa in the TV episode called 'The Darkness', and asks the question - how would everyone's life change if Tessa had survived? This work and series were fully authorized by Davis-Panzer Productions and Studiocanal Films Ltd; however, the content is wholly an RK Books original creation and new action series.

Work Matters Maureen Perry-Jenkins,2024-08-20 How new parents in low-wage jobs juggle the demands of work and childcare, and the easy ways employers can help Low-wage workers make up the largest group of employed parents in the United States, yet scant attention has been given to their experiences as new mothers and fathers. Work Matters brings the unique stories of these diverse individuals to light. Drawing on years of research and more than fifteen hundred family interviews, Maureen Perry-Jenkins describes how new parents cope with the demands of infant care while holding down low-wage, full-time jobs, and she considers how managing all of these responsibilities has long-term implications for child development. She examines why some parents and children thrive while others struggle, demonstrates how specific job conditions impact parental engagement and child well-being, and discusses common-sense and affordable ways that employers can provide support. In the United States, federal parental leave policy is unfunded. As a result, many new parents, particularly hourly workers, return to their jobs just weeks after the birth because they cannot afford not to. Not surprisingly, workplace policies that offer parents flexibility and leave time are crucial. But Perry-Jenkins shows that the time parents spend at work also matters. Their day-to-day experiences on the job, such as relationships with supervisors and coworkers, job autonomy, and time pressures, have long-term consequences for parents' mental health, the quality of their parenting, and, ultimately, the health of their children. An overdue look at an important segment of the parenting population, Work Matters proposes ways to reimagine low-wage work to sustain new families and the development of future generations.

I'm Not in the Band Amber Garza,2017-06-12 I like Kassidy Milton. There, I said it. She's funny, beautiful—even though she doesn't know it—and my favorite kind of weird. But I can't tell if she's into me or just trying to get close to me for a chance with my famous twin brother instead. I mean, it has to be me. I am the better-looking one. But Kassidy has some demons, and she's not good at letting people in. That happens when you've been hurt by someone close to you. I can relate. Trust is a funny thing; it's hard to gain but easy to lose. I might just learn that the hard way. Disclaimer: This Entangled Teen Crush book includes a snarky heroine, a swoon-worthy hero, crazy best friends, your favorite music, and lots of feels.

Trapped Laurie Halse Anderson,2009-04-30 Someone's been setting animal traps in the nature preserve behind Brenna's house. They both want to do something, but Brenna's worried that Sage may have some really extreme plans in mind. Can she rein him in?

Turn On Lee Braugh,2013-08-30 What would happen if automation replaced one of the most intimate of human behaviors? When a researcher develops a technology that stimulates sexual desire in users via neural pathways, Pandora's Box is swiftly opened. At first glance, it's a miracle. With the simple push of a button, the device can bring anyone to climax, even those with orgasmic or sexual dysfunction. But soon, a philosophical war rages. Even though the technology—a surgically implanted electrode—has received the blessing of the FDA, is this really the answer humanity needs? What impact will this new technology have on sex? How will this alter the very definition of sex? How will relationships evolve in response? What will it do to marriage or fidelity? What effect will it have on intimacy? Will human sexuality ever be the same—or is the cure just another symptom of the disease?

Devil's Battle Taylor Anderson,2023-09-26 Marooned on a deadly alternate Earth, Colonel Lewis Cayce and his soldiers find themselves outnumbered and outclassed in this riveting new adventure set in the world of the New York Times bestselling Destroyermen series. After being stranded on a very different and more perilous Earth, Colonel Lewis Cayce led his small army of displaced Americans, natives of the Yucatán, and Jaguar Warriors to defeat the biggest host the Dominion general Agon could assemble. Most unexpectedly, General Agon came to recognize the inherent evil of the Dominion and its depraved Blood Priests and turned on his former leaders. Awkwardly at first, Lewis Cayce and Agon join forces to press their common enemy back toward the dark heart of the Dominion in the Great Valley of Mexico. But more Dominion troops have been drawn from the west to stop the Allied march on the Holy City, and a grueling race has begun. Worse, the Gran Cruzada—a vast Dom army that was marching on the far Californias to eject yet another heretic foe—might've already been recalled to face Cayce's soldiers. Time has become more precious than ever, and before Lewis Cayce can even try to implement his plan for total victory, he and his force must brave their greatest challenge yet—a brutal fight against a larger, better-trained army whose commander has a gift for strategy to rival Cayce's own. The struggle to keep all his soldiers alive, new friends and old comrades alike, will test Cayce like never before, and, win or lose, nothing will be the same.
