Slave to Empress: One Night Bride Yue XieYingQing,2019-11-08 If a woman wanted revenge, what other weapons could she use other than her body?When she met him, she was the daughter of a traitor who had been exterminated.When he met her, he was the king of the pirates;He pitied her, he doted on her, but in her eyes he was a demon that took over her body and freedom.There were two reasons for her survival: to kill the ruler of her people, and to kill the pirates who had tainted her life.And years later, when the Dwarf had been captured and the pirates were overpowering, this drifting feeling would rest in whose heart.

Arrow Talk Andrew Strathern,Pamela J. Stewart,2000 In a postmodern era in which culture has been dismissed by many anthropologists as a reification, this study argues for cultural holism by showing how symbolic, psychological, religious and linguistic factors have shaped Melpa responses to political and economic crises.

Ku Waru Francesca Merlan,Alan Rumsey,1991-03-29 The highlanders of New Guinea are renowned for their elaborate systems of ceremonial exchange. Although much has been written about them, previous accounts have concentrated far less on the conduct of exchange events than on the structure of exchange systems. This 1991 book deals centrally with the conduct of particular exchange events, and shows through examination of them how larger social structures are reproduced and transformed. As part of the emphasis on exchange as social action, the book closely examines the oratory that plays a crucial part in the events. Basing their study on original fieldwork carried out in the Nebilyer Valley, Francesca Merlan and Alan Rumsey focus on an inter related set of large-scale compensation payments which arose out of an episode of warfare. This book furthers our understanding of the interaction between social structures and historical events; and particularly of the crucial role of talk. It will be of special interest to anthropologists and linguists.

Getting Acquainted in Conversation Jan Svennevig,2000-02-15 What makes a 'getting acquainted' a recognizable conversational activity, and how are interpersonal relationships established in a first conversation? This book presents a theoretical framework for the study of relationship management in conversation and an empirical study of a corpus of initial interactions. It provides detailed descriptions of the sequential resources unacquainted interlocutors use in order to: – generate self-presentation – introduce topics – establish common contextual resources It is argued that these sequential patterns embody conventionalized procedures for establishing an interpersonal relationship involving some degree of: – solidarity (mutual rights and obligations) – familiarity (mutual knowledge of personal background) – mutual affect (emotional commitment) The sequential analysis is based on a conversation analytic approach, while the interpretive framework consists of pragmatic theories of politeness, conversational style and common ground.
