## **Mobility for Smart Cities and Regional Development - Challenges for Higher Education**

Michael E. Auer, Hanno Hortsch, Oliver

Michler, Thomas Köhler, 2022-01-28 This book

presents recent research on interactive collaborative learning. We are currently witnessing a significant transformation in the development of education and especially post-secondary education. To face these challenges, higher education has to find innovative ways to quickly respond to these new needs. On the one hand, there is a pressure by the new situation in regard to the COVID pandemic. On the other hand, the methods and organizational forms of teaching and learning at higher educational institutions have changed rapidly in recent months.

Scientifically based statements as well as excellent experiences (best practice) are absolutely necessary. These were the aims connected with the 24th International Conference on Interactive Collaborative Learning (ICL2021), which was held online by Technische Universität Dresden, Germany, on 22–24 September 2021. Since its beginning in 1998, this conference is devoted to new approaches in learning with a focus on collaborative learning in Higher Education.

Nowadays, the ICL conferences are a forum of the exchange of relevant trends and research results as well as the presentation of practical experiences in Learning and Engineering Pedagogy. In this way, we try to bridge the gap between ‘pure’ scientific research and the everyday work of educators. This book contains papers in the

fields of Teaching Best Practices Research in Engineering Pedagogy Engineering Pedagogy Education Entrepreneurship in Engineering Education Project-Based Learning Virtual and Augmented Learning Immersive Learning in Healthcare and Medical Education. Interested readership includes policymakers, academics, educators, researchers in pedagogy and learning theory, schoolteachers, learning industry, further and continuing education lecturers, etc

*The Impact of Covid on International Disputes*  
Shaheeza Lalani, Steven G. Shapiro, 2022-11-07 The open access publication of this book has been published with the support of the Swiss National Science Foundation. With little warning, COVID-19 quickly escalated into a generational crisis, creating sustained havoc seen perhaps only in past cases of war, attack, and natural disasters. In the bedlam of the early months, health, science, political, and economic communities were hit with

sudden force, required to quickly shift and rearrange the normal order of work. In arbitration, leaders took imperfect information to make dramatic decisions. In process and procedure, arbitral institutions, arbitrators, legal counsel, and clients were swept into this turmoil. In some cases, bold initiatives, still in design and testing, were quickly put into service, upsetting norms and traditions and the very notions of traditional process. The Impact of COVID on International Disputes includes contributions from legal practitioners and academics, takes a fresh look at issues addressed in international arbitration during the COVID-19 pandemic, gathering best practices, additional perspective and predictions based on current practices that will help parties, legal counsel and arbitrators in the future.

Since the 1990s, the Internet has become the main driving force behind application development in all domains. An increase in the demand for resource sharing (e.g., computing resources, services, metadata, data sources) across different sites connected through networks has led to an evolution of data- and knowledge-management systems from centralized systems to decentralized systems enabling large-scale distributed applications providing high scalability. This, the 52nd issue of Transactions on Large-Scale Data and Knowledge-Centered Systems, contains 6 fully revised selected regular papers.

global tourism, a critical challenge has taken center stage – the imperative for sustainable transformation. The World Tourism Organization has declared the theme for World Tourism Day 2025 as Tourism and Sustainable Transformation, shedding light on the urgency to address multifaceted challenges that transcend conventional paradigms. The discourse has evolved beyond the traditional bounds of environmental sustainability, extending its reach to encompass social equality, cultural preservation, and economic viability. The tourism sector's pivotal role in achieving the United Nations' Sustainable Development Goals (SDGs) 2030 underscores the intricate interplay between tourism and pressing global issues such as poverty, gender inequality, and environmental degradation. Against this backdrop of urgency and complexity, the book titled *Achieving Sustainable Transformation in Tourism and Hospitality Sectors* offers a comprehensive exploration into viable practices necessary for inclusive, equitable, and responsible tourism. This book serves as a vital contribution to the ongoing dialogue surrounding sustainable tourism. With a focus on inclusivity, equity, and responsibility, it delves into the intricate relationship between tourism and sustainable transformation. It goes beyond mere rhetoric, providing a nuanced understanding of the challenges and opportunities that lie at the intersection of tourism and global sustainability goals. As the global community grapples with disparities, this book becomes a timely and indispensable resource. Policymakers, academicians, researchers, and industry

practitioners are invited to contribute to this collective effort, laying the groundwork for a more sustainable and responsible future within the realms of tourism and hospitality. With a diverse array of recommended topics spanning community-based tourism, ecotourism, inclusive development, sustainable employment, and aviation, this book positions itself as an essential guide for those committed to addressing the challenges of our time. By presenting case studies, policy research, and insights into responsible tourism practices, it equips readers with the knowledge needed to navigate the complexities of sustainable transformation. As the global community strives for a more equitable future, this book offers a roadmap for shaping responsible and inclusive growth within the tourism and hospitality sectors.

Hacker, Hoaxer, Whistleblower, Spy Gabriella Coleman, 2015-10-06 The ultimate book on the worldwide movement of hackers, pranksters, and activists collectively known as Anonymous—by the writer the Huffington Post says “knows all of Anonymous’ deepest, darkest secrets” “A work of anthropology that sometimes echoes a John le Carré novel.” —Wired Half a dozen years ago, anthropologist Gabriella Coleman set out to study the rise of this global phenomenon just as some of its members were turning to political protest and dangerous disruption (before Anonymous shot to fame as a key player in the battles over WikiLeaks, the Arab Spring, and Occupy Wall Street). She ended up becoming so closely connected to Anonymous that the tricky story of her inside–outside status as Anon confidante,

interpreter, and erstwhile mouthpiece forms one of the themes of this witty and entirely engrossing book. The narrative brims with details unearthed from within a notoriously mysterious subculture, whose semi-legendary tricksters—such as Topiary, tflow, Anachaos, and Sabu—emerge as complex, diverse, politically and culturally sophisticated people. Propelled by years of chats and encounters with a multitude of hackers, including imprisoned activist Jeremy Hammond and the double agent who helped put him away, Hector Monsegur, Hacker, Hoaxer, Whistleblower, Spy is filled with insights into the meaning of digital activism and little understood facets of culture in the Internet age, including the history of “trolling,” the ethics and metaphysics of hacking, and the origins and manifold meanings of “the lulz.”

All Cultures United is the best club around for miles and all the footie fans want to on their team... including Shay and Frankie. Are they good enough to impress Coach Reece at the AC United trials? Can their friendship survive the competitiveness of football? Will they ultimately fulfil their goal to become Baller Boys?

*Proceedings of the 3rd International Symposium of Information and Internet Technology (SYMINTech 2018)* Mohd Azlishah Othman, Mohamad Zoinol Abidin Abd Aziz, Mohd Shakir Md Saat, Mohamad Harris Misran, 2019-05-15 This book gathers the proceedings of a symposium on the role of Internet technologies and how they can transform and

improve people's lives. The Internet is essentially a massive database where all types of information can be shared and transmitted. This can be done passively in the form of non-interactive websites and blogs; or it can be done actively in the form of file sharing and document up- and downloading. Thanks to these technologies, a wealth of information is now available to anyone who can access the Internet. Moreover, Internet technologies are constantly improving: growing faster, offering more diverse information, and supporting processes that would have been impossible in the past. As a result, they have changed, and will continue to change, the way that the world does business and how people interact in their day-to-day lives. In conclusion, the symposium and these proceedings provide a valuable opportunity for leading researchers, engineers and professionals around the globe to discuss the latest advances that are helping the world move forward. They also facilitate the exchange of new ideas in the fields of communication technology to create a dialogue between these groups concerning the latest innovations, trends and concerns, practical challenges and potential solutions in the field of Internet technologies.
