Indian Silver Screen Dr. Paramveer

Singh, 2021-08-05 Indian Silver Screen Television in India has been a medium of entertainment as well as social and economic awareness. It was started under government control as a medium of social awareness, but now this medium has become an industry. There was a time when Doordarshan was the only channel on television in India, but today, hundreds of channels broadcast programs day and night. In India today, there are many channels based on sports, news, film, documentary, and music. There was a time when television programs could be viewed only through television sets, but today, through devices such as computers, laptops, and mobiles, viewers can watch their favorite programs at their convenient location, and time. The main objective of this book written on Indian television is to make students aware of the history and status of Indian television. The book begins with the story of the introduction of television in various countries. It describes the development of television in Britain, America, Australia, China, Africa, and other countries of the continent of Asia. After this, the early experiments, projects, and history and current status of television in India are told. Many of the chapters in the book are about the major television business groups in India that have deep penetration into the Indian television industry. The book also introduces programs that have become famous in India, which have proved to be milestones in Indian television history and reached heights of popularity. Apart from this, the book describes the laws of India which have been implemented to control the television industry. A chapter in the book is written about various television broadcasting techniques practiced in the country. Apart from this, there is a chapter about Direct to Home, which tells the

story of the development of DTH in India. Television rating points determine the popularity of television channels and programs. The book introduces various agencies and institutions that determine TRP in India. In addition to this, the history of television journalism in India has also been discussed. A chapter about television journalism in various languages of India such as Hindi, Punjabi, Gujarati, Marathi, Tamil, Telugu, Kannada, Malayalam, Bengali, and Assamese is described in detail. The last chapter of the book discusses various international television channels that are broadcasting in India.

The Two Telugu States after demerger: Different Political & Economic Contours Janardhan Reddy Janumpalli, 2023-12-18 The real strengths of TS & A P revealed after demerger The demerger of the united Andhra Pradesh was a long drawn political imbroglio. The merger was not recommended by SRC and Telangana people did not want it. Andhra state becoming unviable after their peremptory separation from Madras state in 1953 had merged with the well to do Telangana in 1956 with the help of central government, with some guarantees to Telangana. Then with their majority, they usurped all the political power to make use of Telangana revenue and its other resources. For, Andhra region revenue income was always less than its expenditure. To make good their deficit, Telangana revenue was used perennially, making less expenditure in Telangana than its due. Congress though conceded Telangana state under duress, has granted several sops to Andhra, as if it was the sufferer. Poor Telangana which was the victim of exploitation was to satisfy with its bare minimum state. Yet, residual A P has lamented with victimhood, injustice and developing Telangana with their own resources etc. Andhra had deficit from 1953 to 1956. It has a balanced budget in the united state from 1956 to 2014, as it was made

good with the siphoning of revenue from Telangana. In 2014-15, immediately after demerger, it has registered a big deficit of around Rs.12000 cr exposing its legacy of inherent economic weakness. A P also has got about Rs. 52000 cr deficit grant from two Financial Commissions from 2015 to 2026. Yet the A P finances continued to be precarious year after year. Telangana using its suppressed economic strength surged ahead climbing to the top rung of the economic status of the states in India. Andhra, using Telangna revenue neglected increasing its State Own Tax Revenue (SOTR), is now exposed of its concealed economic weakness. A P has a SOTR of about 50 % in its total revenues, while TS has more than 70 %, as against 46% of national average. That reveals the real economic strength of both the states after the demerger. It amply vindicates Telangana claims and proves wrong the false premises of Andhra.

Ngwainmbi, 2017-09-18 This volume analyzes the contexts in which emerging economies in Africa, the Caribbean, Central and South America, the Middle East, and Asia can chart their socioeconomic futures through progressive democratic practices and media engagement. Using political and development communication, along with case studies from selected countries in these regions, the volume addresses human rights policies, diplomatic practices, democratization, good governance, identity politics, terrorism, collective action, gendered crimes, political psychology, and citizen journalism as paradigms for sustainable growth. Through practical experiences and field research in the selected countries, scholars show how personal and national freedoms as well as business deals have been negotiated in a bid to create a new socioeconomic culture within the nations.

Understanding World Media Dr Kumar Kaustubha, Dr Ajitabh & Mudita Agnihotri Sant, 2021-08-14 *Understanding World Media* sets out to mirror world media and the freedom it enjoyed across the globe in about 200 countries. While media is an important part of academic research, concerns have been raised globally on its content, intent and freedom of expression. To the extent that even as per the data compiled by Reporters Without Borders, democratic India ranks below par at 138 in the World Press Freedom Index 2018 out of the 180 listed nations. Though, it is a question of debate and discussions to what extent media in India is considered free or under censorship. When India is emerging as a global power with over 55 percent of its population is under 35 years of age, interest in the world community and media is growing leaps

and bounds. It is in this context that this book magnifies its mirror to bring facts about the status and understanding of media in the world. For any book like this, it will always have its challenges to cover subjects like media in a nutshell, but for today, this book is timely and relevant. It is a balanced and thoughtful effort to present such a comprehensive book in a crisp and concise manner, as it is difficult to get experts on various countries to write on their respective domains. We have put our utmost effort to consolidate all necessary information and analysis required for this collection and we are very hopeful that it will serve its purpose, fulfill the void and information gap about the world media. Understanding World Media is structured around two clear themes, the status of media in various countries and its freedom of expression. It is divided into five parts covering vast geographical areas in Asia, Europe, the Americas, Africa and Australia-Oceania.

Political Campaigning in Digital India Anil M. Varughese, Holli A. Semetko, 2024-06-28 This book provides a conceptual toolkit to understand the changing technologies and dynamics of political campaigning in India. Examining political campaigning and party strategies across many Indian states, with special attention to regional politics, histories, cultures, social and technological contexts, the book discusses the potential impacts of campaign strategies on electoral outcomes. Political campaigning reached a tipping point with millions of social media users engaging online with family and friends, political issues, parties and candidates in India's 2019 parliamentary election. Although India's political parties had been working with consultants and professional advertising agencies for decades, by 2019, millions of first-time voters as well as older voters were microtargeted with campaign messaging by parties and their affiliates, including frequent misinformation from unknown sources supporting one party or another. Filling a key gap in political communication

research on election campaigns in digital India, the chapters in this book capture how political campaigning is important for the electoral fortunes of political parties in India's diverse regions and states. This book will appeal to students, scholars, and practitioners in political communication, public administration, and political consulting, as well as anyone interested in data-driven political campaigning. It will also be an invaluable reading for those interested in South Asian studies. This book was originally published as a special issue of South Asian History and Culture.

Deities and Devotees Uma Maheswari

Bhrugubanda,2018-09-18 How have cinema and popular religion shaped each other? Is the display of devotion in a cinema hall the same as devotion in a temple? How do we understand cinema's compelling power to mesmerize people? Unlike Hindi cinema, mythological and devotional films remained popular genres in Telugu (and Tamil too) until quite recently. The political success of film star N.T. Rama Rao, well-known for his portrayal of gods and kings, posed afresh the problem of cinema's power to enthrall. To what extent viewers were persuaded of his divinity became a matter of debate. In later decades, the figure of another kind of viewer haunted the discourses around cinema, that of the female viewer who got possessed during screenings of goddess films. Using questions around viewership as the focal point, this book studies the intersections between popular cinema, religion, and politics in South India. The first full-length study of Telugu mythological and devotional films, it combines an account of the

history and politics of these genres with an anthropology of film-making and viewership practices. It argues that cinema and other audio-visual technologies lead to the re-orientation of sensibilities and the cultivation of new sensory modes.
