**Engaging the Public to Fight the Consequences of Terrorism and Disasters** I. Apostol,J. Mamasakhlisi,D. Subotta,2015-05-07 Governments must work tirelessly to update their preparedness for dealing with natural and man-made disasters, as well as taking account of the increasingly present threat of terrorism. Efficient international cooperation is key to achieving safety and internationalizing security policy. This book presents the proceedings of the NATO Advanced Research Workshop (ARW) Engaging the Public to Fight the Consequences of Terrorism and Disasters, held in Tbilisi, Georgia, in June 2014. The purpose of the workshop was to analyze accumulated European theoretical knowledge and practical experience in the field of disaster prevention and the involvement of the public in preventing and fighting the consequences of terrorism, as well as natural and man-made disasters. There was a particular focus on the perspective of the region, especially with a view to meeting European Union standards and setting uniform and independent standards for hazard and risk assessment methods. The protection of

economically critical infrastructure, such as dams, pipelines and transport and storage facilities, was addressed as were the issues of managing water and non-renewable resources, the disposal of dangerous chemicals and radioactive waste, and defensible methods of transport for fuel supplies and key personnel. Contributions reflected the extensive experience of the participating NATO and partner countries, including Armenia, Austria, Bulgaria, Georgia, Germany, Italy, Moldova, the Netherlands, Romania, Turkey and Ukraine as well as international organizations such as UNECE and NATO.

Designing Apps for Success Matthew David,Chris Murman,2014-02-03 In 2007, Apple released the iPhone. With this release came tools as revolutionary as the internet was to businesses and individuals back in the mid- and late-nineties: Apps. Much like websites drove (and still drive) business, so too do apps drive sales, efficiencies and communication between people. But also like web design and development, in its early years and iterations, guidelines and best practices for apps are few and far between. Designing Apps for Success provides web/app designers and developers with consistent app design practices that result in timely, appropriate, and efficiently capable apps. This book covers application lifecycle management that designers and developers use when creating apps for themselves or the entities that hired them. From the early discussions with a company as to how to what kind of app they want, to storyboarding, to developing cross platform, to troubleshooting, to publishing, Designing Apps for Success gives a taut, concise, and pragmatic roadmap from the beginning of the process all the way to the end. Developers and designers will learn not only best practices on how to design an app but how to streamline the process while not losing any quality on the end result. Other topics in this book include: Case studies that best showcase the development process at work (or not at work). Global examples of apps developed all

over the world. Future proofing your apps Post-publishing: Promoting and marketing your apps and keeping it relevant. Consistent app design practices for consistently successful results.

Online around the World Laura M. Steckman, Marilyn J. Andrews, 2017-05-24 Covering more than 80 countries around the world, this book provides a compelling, contemporary snapshot of how people in other countries are using the Internet, social media, and mobile apps. How do people in other countries use the social media platform Facebook differently than Americans do? What topics are discussed on the largest online forum—one in Indonesia, with more than seven million registered users? Why does Mongolia rate in the top-ten countries worldwide for peak Internet speeds? Readers of *Online around the World: A Geographic Encyclopedia of the Internet, Social Media, and Mobile Apps* will discover the answers to these questions and learn about people's Internet and social media preferences on six continents—outside of the online community of users within the United States. The book begins with an overview of the Internet, social media platforms, and mobile apps that chronologically examines the development of technological innovations that have made the Internet what it is today. The country-specific entries that follow the overview provide demographic information and describe specific events influenced by online communications, allowing readers to better appreciate the incredible power of online interactions across otherwise-unconnected individuals and the realities and peculiarities of how people communicate in today's fast-paced, globalized, and high-technology environment. This encyclopedia presents social media and the

Internet in new light, identifying how the use of language and the specific application of human culture impacts emerging technologies and communications, dramatically affecting everything from politics to social activism, education, and censorship.

*Extreme Cinema* Mattias Frey, 2016-03-15 Received an Honorable Mention for the 2017 British Association of Film, Television and Screen Studies (BAFTSS) Best Monograph Award. From *Shortbus* to *Shame* and from *Oldboy* to *Irreversible*, film festival premieres regularly make international headlines for their shockingly graphic depictions of sex and violence. Film critics and scholars alike often regard these movies as the work of visionary auteurs, hailing directors like Michael Haneke and Lars von Trier as heirs to a tradition of transgressive art. In this provocative new book, Mattias Frey offers a very different perspective on these films, exposing how they are also calculated products, designed to achieve global notoriety in a competitive marketplace. Paying close attention to the discourses employed by film critics, distributors, and filmmakers themselves, *Extreme Cinema* examines the various tightropes that must be walked when selling transgressive art films to

discerning audiences, distinguishing them from generic horror, pornography, and Hollywood product while simultaneously hyping their salacious content. Deftly tracing the links between the local and the global, Frey also shows how the directors and distributors of extreme art house fare from both Europe and East Asia have significant incentives to exaggerate the exotic elements that would differentiate them from Anglo-American product. Extreme Cinema also includes original interviews with the programmers of several leading international film festivals and with niche distributors and exhibitors, giving readers a revealing look at how these institutions enjoy a symbiotic relationship with the “taboo-breakers” of art house cinema. Frey also demonstrates how these apparently transgressive films actually operate within a strict set of codes and conventions, carefully calibrated to perpetuate a media industry that fuels itself on provocation.

**The Crockin' Girls Slow Cookin' Companion** Nicole Sparks, Jenna Marwitz, 2012-04 Slow cookin' mamas in a fast-paced world.

Gone Michael Grant, 2008-06-24 In the blink of an eye. Everyone disappears. GONE. Except for the young. Teens. Middle schoolers. Toddlers. But not one single adult. No teachers, no cops, no doctors, no parents. Just as suddenly, there are no phones, no internet, no television. No way to get help. And no way to figure out what's happened. Hunger threatens. Bullies rule. A sinister creature lurks. Animals are mutating. And the teens themselves are changing, developing new talents—unimaginable, dangerous, deadly powers—that grow stronger by the day. It's a terrifying new world. Sides are being chosen, a fight is shaping up. Townies against rich kids. Bullies against the weak. Powerful against powerless. And time is running out: On your birthday, you disappear just like everyone else...

**The Big Book of King Cake** Matt Haines, 2021-12-14 I once ate more than eighty king cakes in

a single Carnival, author Matt Haines proudly remembers, demonstrating his dedication to this delicious Mardi Gras tradition. So you can imagine how amazed I was to learn there has never been a coffee table book dedicated to king cakes! The Big Book of King Cake changes that, telling the thousands-year-old story through lush photography of more than one hundred and fifty unique king cakes, as well as stories from the diverse and talented bakers who make them. While king cakes are typically only available during Carnival season, readers can enjoy this book year-round. From the traditional cakes generations of New Orleanians have loved, to the unconventional creations that break all the rules, this book is your guide to the Crescent City's favorite baked good. The Big Book of King Cake is for anyone who loves food, history, sweets, culture, and of course, New Orleans.

**Samsung Rising** Geoffrey Cain, 2020-03-17 An explosive exposé of Samsung that “reads like a dynastic thriller, rolling through three generations of family intrigue, embezzlement, bribery, corruption, prostitution, and other bad behavior” (The Wall Street Journal). **ONGLISTED FOR THE FINANCIAL TIMES AND MCKINSEY BUSINESS BOOK OF THE YEAR AWARD** Based on years of reporting on Samsung for The Economist, The Wall Street Journal, and Time, from his base in South

Korea, and his countless sources inside and outside the company, Geoffrey Cain offers a penetrating look behind the curtains of the biggest company nobody in America knows. Seen for decades in tech circles as a fast follower rather than an innovation leader, Samsung today has grown to become a market leader in the United States and around the globe. They have captured one quarter of the smartphone market and have been pushing the envelope on every front. Forty years ago, Samsung was a rickety Korean agricultural conglomerate that produced sugar, paper, and fertilizer, located in a backward country with a third-world economy. With the rise of the PC revolution, though, Chairman Lee Byung-chul began a bold experiment: to make Samsung a major supplier of computer chips. The multimillion-dollar plan was incredibly risky. But Lee, wowed by a young Steve Jobs, who sat down with the chairman to offer his advice, became obsessed with creating a tech empire. And in *Samsung Rising*, we follow Samsung behind the scenes as the company fights its way to the top of tech. It is one of Apple's chief suppliers of technology critical to the iPhone, and its own Galaxy phone outsells the iPhone. Today, Samsung employs over 300,000 people (compared to Apple's 80,000 and Google's 48,000). The company's revenues have grown more than forty times from that of 1987 and make up more than 20 percent of South Korea's exports. Yet their disastrous recall of the Galaxy Note 7, with numerous reports of phones spontaneously bursting into flames, reveals the dangers of the company's headlong attempt to overtake Apple at any cost. A sweeping insider account, *Samsung Rising* shows how a determined and fearless Asian competitor has become a force to be reckoned with.

*The Google Story (2018 Updated Edition)* David A. Vise, Mark Malseed, 2005-11-15 The definitive, bestselling account of the company that changed the way we work and live, updated for the twentieth anniversary of Google's founding with analysis of its most recent bold moves to redefine

the world—and its even more ambitious plans for the future. Moscow-born Sergey Brin and Midwest-born Larry Page dropped out of graduate school at Stanford University to, as they said, “change the world” through a powerful search engine that would organize every bit of information on the Web for free. The Google Story takes you deep inside the company’s wild ride from an idea that struggled for funding in 1998 to a firm that today rakes in billions in profits. Based on scrupulous research and extraordinary access to Google, this fast-moving narrative reveals how an unorthodox management style and a culture of innovation enabled a search-engine giant to shake up Madison Avenue, clash with governments that accuse it of being a monopoly, deploy self-driving cars to forever change how we travel, and launch high-flying Internet balloons. Unafraid of controversy, Google is surging ahead with artificial intelligence that could cure diseases but also displace millions of people from their jobs, testing the founders’ guiding mantra: DON’T BE EVIL. Praise for The Google Story “[The authors] do a fine job of recounting Google’s rapid rise and explaining its search business.”—The New York Times “An intriguing insider view of the Google culture.”—Harvard Business Review “An interesting read on a powerhouse company . . . If you haven’t read anything about one of today’s most influential companies, you should. If you don’t read The Google Story, you’re missing a few extra treats.”—USA Today “Fascinating . . . meticulous . . . never bogs down.”—Houston Chronicle

Honeybee Craig Silvey, 2020-09-29 The highly anticipated new novel by the bestselling author of Jasper Jones. ‘Find out who you are, and live that life.’ Late in the night, fourteen-year-old Sam Watson steps onto a quiet overpass, climbs over the rail and looks down at the road far below. At the other end of the same bridge, an old man, Vic, smokes his last cigarette. The two see each other across the void. A fateful connection is made, and an unlikely friendship blooms. Slowly, we learn what led Sam and Vic to the bridge that night. Bonded by their suffering, each privately commits to

the impossible task of saving the other. Honeybee is a heartbreaking, life-affirming novel that throws us headlong into a world of petty thefts, extortion plots, botched bank robberies, daring dog rescues and one spectacular drag show. At the heart of Honeybee is Sam: a solitary, resilient young person battling to navigate the world as their true self; ensnared by loyalty to a troubled mother, scarred by the volatility of a domineering stepfather, and confounded by the kindness of new alliances. Honeybee is a tender, profoundly moving novel, brimming with vivid characters and luminous words. It's about two lives forever changed by a chance encounter -- one offering hope, the other redemption. It's about when to persevere, and when to be merciful, as Sam learns when to let go, and when to hold on.

Dark Horse Shayne Silvers, 2022-02-08 Rage, rage against the dying of the light In the stygian darkness beneath his ancestral mausoleum, Nate sets out to explore the shadowed history of his infamous Temple ancestors. And to brutally destroy a poisonous weed threatening to strangle his family tree. Aiden Maxon, Nate's half-brother, is on the warpath, committed and capable of killing everything and everyone Nate loves and holds dear. But? Are they truly brothers? Was that a lie? In the obsidian Temple of Reverie, Nate will face a choice: vengeance or virtue, power or principle, history or future, hate or love? Despair or Hope. The caverns of Hell will scream, the Rivers of the Dead will boil, and the Dark Horse will hike up a mountain of skulls to lead the Dread Four into battle. The crimson storms will rage as he hunts down his foe across the pages of history. Let us hope that not all will be abandoned in Nate Temple's conquest for vengeance? Let us hope that the last flicker of light in the Horseman's eyes does not die and plunge the world into the abyss before the true battle begins. The drums of the Omega War will sound like the beating heart of an awoken giant, and it will be impossible for anyone to ignore.
