Blackjack Dario De Toffoli, Margherita Bonaldi, 2013-07-26 If you believe that winning at casino games depends entirely on chance or luck, then this is not the book for you. If, on the other hand, you think that it's crucial to have an effective strategy in order to win, then you simply can't do without it. You just need to know how. Simply told and with a touch of irony, 'games king' Dario De Toffoli guides us through rules, secrets, tactics and advice, in a book that is as much for beginners as experts. So prepare yourselves to explore the world of Blackjack, which is 'deconstructed' and analysed in all its mathematical glory for the first time, making readers more conscious and successful when they play. Whether you are in front of a croupier in the flesh and blood or in front of your computer screen playing an online game, now is the time to abandon all those good luck charms and understand that your success depends on you. Because it's fun to play, but it's even more fun to win. So, what are you waiting for? Play the game, but don't let the game play you...

EVENT - Role-Playing Game System, 2018-10-30 EVENT is a game system designed to collectively manage the actions and interactions of a variable number of characters played by players and / or the master from a given event. The combination of these factors will lead to the natural definition of a story within the context of reference, which is called the setting. The manual contains the main rules that allow you to start playing. None of these should be intended as mandatory or mandatory and each one of them can be modified or reviewed by mutual agreement between master and players: it is however advisable to play at least one or two games (which we'll call sessions from now on) with the standard rules in order to fully understand the basic game mechanics. At the end of each paragraph you'll find a text box containing a concrete example (actual play) of the rule explained above. In order to play Event you're going to need a group of friends, a handful of 6-sided dice, some paper sheets and at least one pencil. One of the players, known as the master, will take care of the core elements of the story, while the others, to whom we'll refer as players, will play the role of a single character apiece. This is the EVENT presentation & tutorial video, which illustrates some of the most original and innovative aspects of the game system:
