Cinematic Comanches Dustin Tahmahkera,2022 Cinematic Comanches engages in a description and critical appraisal of Indigenous hype, visual representation, and audience reception of Comanche culture and history through the 2013 Disney film *The Lone Ranger*.

Selling the Silver Bullet Avi Santo,2015-04-15 Originating as a radio series in 1933, the Lone Ranger is a cross-media star who has appeared in comic strips, comic books, adult and juvenile novels, feature films and serials, clothing, games, toys, home furnishings, and many other consumer products. In his prime, he rivaled Mickey Mouse as one of the most successfully licensed and merchandised children's properties in the United States, while in more recent decades, the Lone Ranger has struggled to resonate with consumers, leading to efforts to rebrand the property. The Lone Ranger's eighty-year history as a lifestyle brand thus offers a perfect case study of how the fields of licensing, merchandizing, and brand management have operated within shifting industrial and sociohistorical conditions that continue to redefine how the business of entertainment functions. Deciphering how iconic characters gain and retain their status as cultural commodities, *Selling the Silver Bullet* focuses on the work done by peripheral consumer product and licensing divisions in selectively extending the characters' reach and in cultivating investment in these characters among potential stakeholders. Tracing the Lone Ranger's decades-long career as intellectual property allows Avi Santo to analyze the mechanisms that drive contemporary character licensing and entertainment brand management practices, while at the same time situating the licensing field's development within particular sociohistorical and industrial contexts. He also offers a nuanced assessment of the ways that character licensing firms and consumer product divisions have responded to changing cultural and economic conditions over the past eighty years, which will alter perceptions about the creative and managerial authority these ancillary units wield.

The Myth of Colorblindness Sarah E. Turner,Sarah Nilsen,2019-09-28 This book explores representations of race and ethnicity in contemporary cinema and the ways in which these depictions all too often promulgate an important racial ideology: the myth of colorblindness. Colorblindness is a discursive framework employed by mainstream, neoliberal media to celebrate a multicultural society while simultaneously disregarding its systemic and institutionalized racism. This collection is unique in its examination of such films as *Ex Machina*, *The Lone Ranger*, *The Blind Side*, *Zootopia*, *The Fast and the Furious* franchise, and *Dope*, which celebrate the myth of colorblindness, yet perpetuate and entrench the racism and racial inequities that persist in contemporary society. While the #OscarsSoWhite movement has been essential to bringing about structural changes to media industries and offers the opportunity for a wide diversity of voices to alter and transform the dominant, colorblind narratives continue to proliferate. As this book demonstrates, Hollywood still has a long way to go.

The Sunday of Life Raymond Queneau,1977 *The Sunday of Life*, the late Raymond Queneau's tenth novel, was first published in French by Gallimard in 1951 and is now appearing for the first time in this country. In the ingenuous ex-Private Valentin Bru, the central figure in *The Sunday of Life*, Queneau has created that oddity in modern fiction, the Hegelian naif. Highly self-conscious yet reasonably satisfied with his lot, imbued with the good humor inherent in the naturally wise, Valentin meets the painful nonsense of life's adventures with a slightly bewildered detachment.
