Lies My Teacher Told Me James W. Loewen, 2018-07-17 Every teacher, every student of history, every citizen should read this book. It is both a refreshing antidote to what has passed for history in our educational system and a one-volume education in itself. —Howard Zinn A new edition of the

national bestseller and American Book Award winner, with a new preface by the author Since its first publication in 1995, *Lies My Teacher Told Me* has become one of the most important—and successful—history books of our time. Having sold nearly two million copies, the book also won an American Book Award and the Oliver Cromwell Cox Award for Distinguished Anti-Racist Scholarship and was heralded on the front page of the New York Times. For this new edition, Loewen has added a new preface that shows how inadequate history courses in high school help produce adult Americans who think Donald Trump can solve their problems, and calls out academic historians for abandoning the concept of truth in a misguided effort to be objective. What started out as a survey of the twelve leading American history textbooks has ended up being what the San Francisco Chronicle calls an extremely convincing plea for truth in education. In *Lies My Teacher Told Me*, James W. Loewen brings history alive in all its complexity and ambiguity. Beginning with pre-Columbian history and ranging over characters and events as diverse as Reconstruction, Helen Keller, the first Thanksgiving, the My Lai massacre, 9/11, and the Iraq War, Loewen offers an eye-opening critique of existing textbooks, and a wonderful retelling of American history as it should—and could—be taught to American students.

Ditch That Textbook Matt Miller, 2015-04-13 Textbooks are symbols of centuries-old education. They're often outdated as soon as they hit students' desks. Acting by the textbook implies compliance and a lack of creativity. It's time to ditch those textbooks--and those textbook assumptions about learning In *Ditch That Textbook*, teacher and blogger Matt Miller encourages educators to throw out meaningless, pedestrian teaching and learning practices. He empowers them to evolve and improve on old, standard, teaching methods. *Ditch That Textbook* is a support system, toolbox, and manifesto to help educators free their teaching and revolutionize their classrooms.

The cause of mental illness is other people: be shocked into a new world view seeing mental illness in a new light. Elite Review: Koestler [1962] shows all discoveries blend art with science. Vivid poetic images combined with rock-solid psychology show the tyranny of groups vs. the individual: collective insanity, the contagion of lunacy. What does it take to be a champion in a sea of sharks? That's the essence of this work. The writing is subtle, witty, clever and highly accurate. The therapy: open the book anywhere. Mansell Pattison M.D., Postdoctoral Sponsor at UCI School of Medicine, Dept. of Psychiatry. Karen Kellock received her Ph.D. from University of California, Irvine and was a postdoctoral fellow at the Medical School, Dept. of Psychiatry [NIAAA and NIMH grants] to develop a theory of System Pathology: the Debris Theory of Disease, presented in 120 books and 22 textbooks for the general public. The theory has a general formula: All disease is obstruction, all recovery is elimination, all success is attraction. The three obstructions are people, habit and food. Remove your obstruction and snap to your goals, waiting in the wings. An integrator and discoverer. As her Ph.D. advisor it's WOW on pathological systems theory, a sudden eye-opener.
