The book elaborates on Mansfield's themes and techniques, thereby guiding the reader - via close textual analysis - to an understanding of the author's modernist techniques.

The Mansfield Killings: A Novel Based on True Events Scott Fields,2012-10 SOON TO BE A MAJOR MOTION PICTURE It was the worst two-week killing spree in Ohio's history. On the night of July 21, 1948, Robert Daniels and John West entered John and Nolena Niebel's house with loaded guns. They forced the family including the Niebel's 21-year-old daughter, Phyllis, into their car and drove them to a cornfield just off Fleming Falls Road in Mansfield. The two men instructed the Niebels to remove all of their clothing, and then Robert Daniels shot each of them in the head. The brutal murders caught national attention in the media, but the killing spree didn't stop there. Three more innocent people would lose their lives at the hands of Daniels and West in the coming week. Scott Fields tirelessly researched the killings, the capture and trial of Daniels and even interviewed a surviving member of the Niebel family to weave this tragic story into a must-read novel bringing the reader back to those dark days in the summer of 1948. What led to these brutal killings, and why was the Niebel family singled-out to be savagely murdered? It has been more than sixty years since the tragedy, and, yet, this question still remains unanswered. The killing spree is not only remembered to this day, but is an important and dark part of Mansfield lore.

Dangerous Curves atop Hollywood Heels: The Lives, Careers, and Misfortunes of 14 Hard-Luck Girls of the Silent Screen Michael G. Ankerich, Named a Top 10 Best Silent Film Book in 2010 by the San Francisco Examiner! We were like dragonflies. We seemed to be suspended effortlessly in the air, but in reality, our wings were beating very, very fast. - Mae Murray It is worse than folly for persons to imagine that this business is an easy road to money, to contentment, or to that strange quality called happiness. - Bebe Daniels A girl should realize that a career on the screen demands everything, promising nothing. - Helen Ferguson In *Dangerous Curves Atop Hollywood Heels*, author Michael G. Ankerich examines the lives, careers, and disappointments of 14 silent film actresses, who, despite the odds against them and warnings to stay in their hometowns, came to Hollywood to make names for themselves in the movies. On the screen, these young hopefuls became Agnes Ayres, Olive Borden, Grace Darmond, Elinor Fair, Juanita Hansen, Wanda Hawley, Natalie Joyce, Barbara La Marr, Martha Mansfield, Mary Nolan, Marie Prevost, Lucille Ricksen, Eve Southern, and Alberta Vaughn. *Dangerous Curves* follows the precarious routes these young ladies took in their quest for fame and uncovers how some of the top actresses of the silent screen were used, abused, and discarded. Many, unable to let go of the spotlight after it had singed their very souls, came to a stop on that dead-end street, referred to by actress Anna Q. Nilsson as, Hollywood's Heartbreak Lane. Pieced together using contemporary interviews the actresses gave, conversations with friends, relatives, and co-workers, and exhaustive research through scrapbooks, archives, and public records, *Dangerous Curves* offers an honest, yet compassionate, look at some of the brightest luminaries of the silent screen. The book is illustrated with over 150 photographs.

Fort Lauderdale Jack Drury,2008 Few Southern cities have stronger claims to fame than Fort Lauderdale. As one of the great vacation destinations in America, over the years it attracted such celebrities as Bob Hope, Jayne Mansfield, Johnny Carson, Cary Grant, and the world champion New York Yankees. This beach town's history is starstudded and rich with interesting stories and photographs from that period.

Movie-Made Appalachia John C. Inscoe,2020-11-24 While Hollywood deserves its reputation for much-maligned portrayals of southern highlanders on screen, the film industry also deserves credit for a long-standing tradition of more serious and meaningful depictions of Appalachia's people. Surveying some two dozen films and the literary and historical sources from which they were adapted, John C. Inscoe argues that in the American imagination Appalachia has long represented far more than deprived and depraved hillbillies. Rather, the films he highlights serve as effective conduits into the region's past, some grounded firmly in documented realities and life stories, others only loosely so. In either case, they deserve more credit than they have received for creating sympathetic and often complex characters who interact within families, households, and communities amidst a wide array of historical contingencies. They provide credible and informative narratives that respect the specifics of the times and places in which they are set. Having used many of these movies as teaching tools in college classrooms, Inscoe demonstrates the cumulative effect of analyzing them in terms of shared themes and topics to convey far more generous insights into Appalachia and its history than one would have expected to emerge from southern California's dream factory.

Art and the Historical Film Gillian McIver,2022-11-17 Art and the Historical Film provides an important examination of fine art's impact on filmmaking, grappling with the question of authenticity. From Eugene Delacroix's interpretation of the 1830 French revolution to Uli Edel's version of the Baader-Meinhof Gang, artistic representations of historical subjects are appealing and pervasive. Movies often adapt imagery from art history, including paintings of historical events. Films and art shape the past for us and continue to affect our interpretation of history. While historical films are often argued over for their adherence to the facts, their real problem is realism: how can the past be convincingly depicted? Realism in the historical film genre is often nourished and given credibility by its use of painterly references. This book examines how art-historical images affect historical films by going beyond period detail and surface design to look at how profound ideas about history are communicated through pictures. *Art and the Historical Film: Between Realism and the Sublime* is based on case studies that explore the links between art and cinema, including American independent Western *Meek's Cutoff* (Kelly Reichardt, 2010), British heritage film *Belle* (Amma Asante, 2013), and Dutch national epic *Admiral* (Roel Reiné, 2014). The chapters create immersive worlds that communicate distinct ideas about the past through cinematography, production design, and direction, as the films adapt, reference, and transpose paintings by artists such as Rubens, Albert Bierstadt, and Jacques-Louis David.

New York Magazine ,1981-06-29 New York magazine was born in 1968 after a run as an insert of the New York Herald Tribune and quickly made a place for itself as the trusted resource for readers across the country. With award-winning writing and photography covering everything from politics and food to theater and fashion, the magazine's consistent mission has been to reflect back to its audience the energy and excitement of the city itself, while celebrating New York as both a place and an idea.

Hollywood by Hollywood Steven Cohan,2018-10-04 The backstudio picture, or the movie about movie-making, is a staple of Hollywood film

production harking back to the silent era and extending to the present day. What gives backstudios their coherence as a distinctive genre, Steven Cohan argues in *Hollywood by Hollywood*, is their fascination with the mystique of Hollywood as a geographic place, a self-contained industry, and a fantasy of fame, leisure, sexual freedom, and modernity. Yet by the same token, if backstudio pictures have rarely achieved blockbuster box-office success, what accounts for the film industry's interest in continuing to produce them? The backstudio picture has been an enduring genre because, aside from offering a director or writer a chance to settle old scores, in branding filmmaking with the Hollywood mystique, the genre solicits consumers' strong investment in the movies. Whether inspiring the movie crazy fan girls of the early teens and twenties or the wannabe filmmakers of this century heading to the West Coast after their college graduations, backstudios have given emotional weight and cultural heft to filmmaking as the quintessential American success story. But more than that, a backstudio picture is concerned with shaping perceptions of how the film industry works, with masking how its product depends upon an industrial labor force, including stardom, and with determining how that work's value accrues from the Hollywood brand stamped onto the product. Cohan supports his well theorized and well researched claims with nuanced discussions of over fifty backstudios, some canonical and well-known, and others obscure and rarely seen. Covering the hundred-year timespan of feature length film production, *Hollywood by Hollywood* offers an illuminating perspective for considering anew the history of American movies.

The New Biographical Dictionary of Film David Thomson, 2014-05-06 For almost thirty years, David Thomson's *Biographical Dictionary of Film* has been not merely "the finest reference book ever written about movies" (Graham Fuller, Interview), not merely the "desert island book" of art critic David Sylvester, not merely "a great, crazy masterpiece" (Geoff Dyer, *The Guardian*), but also "fiendishly seductive" (Greil Marcus, *Rolling Stone*). This new edition updates the older entries and adds 30 new ones: Darren Aronofsky, Emmanuelle Beart, Jerry Bruckheimer, Larry Clark, Jennifer Connelly, Chris Cooper, Sofia Coppola, Alfonso Cuarón, Richard Curtis, Sir Richard Eyre, Sir Michael Gambon, Christopher Guest, Alejandro González Inárritu, Spike Jonze, Wong Kar-Wai, Laura Linney, Tobey Maguire, Michael Moore, Samantha Morton, Mike Myers, Christopher Nolan, Dennis Price, Adam Sandler, Kevin Smith, Kiefer Sutherland, Charlize Theron, Larry Wachowski and Andy Wachowski, Lew Wasserman, Naomi Watts, and Ray Winstone. In all, the book includes more than 1300 entries, some of them just a pungent paragraph, some of them several thousand words long. In addition to the new "musts," Thomson has added key figures from film history—lively anatomies of Graham Greene, Eddie Cantor, Pauline Kael, Abbott and Costello, Noël Coward, Hoagy Carmichael, Dorothy Gish, Rin Tin Tin, and more. Here is a great, rare book, one that encompasses the chaos of art, entertainment, money, vulgarity, and nonsense that we call the movies. Personal, opinionated, funny, daring, provocative, and passionate, it is the one book that every filmmaker and film buff must own. *Time Out* named it one of the ten best books of the 1990s. Gavin Lambert recognized it as "a work of imagination in its own right." Now better than ever—a masterwork by the man playwright David Hare called "the most stimulating and thoughtful film critic now writing."

Imagining Imaging Michael R. Jackson, 2021-11-25 From Roentgen to Rembrandt, Hounsfield to Hollywood and Vesalius to videogames, *Imagining Imaging* explores the deeply entwined relationship between art (and visual-based culture) and radiology / medical imaging. Including artworks from numerous historical eras representing varied geographic locations and visual traditions, alongside a diverse range of contemporary artists, Dr Jackson argues that the foundations of medical image construction and interpretation were laid down in artistic innovations dating back hundreds and thousands of years. Since the discovery of X-rays, artists and moviemakers have, in turn, drawn rich inspiration from radiographic imagery and concepts, but the process of cross-pollination between art and science has continued, with creative endeavour continuing to mould medical imaging examinations to this day. Blending a unique mix of art, science and medical history, together with aspects of visual neurophysiology and psychology, *Imagining Imaging* is essential reading for radiologists, radiographers and artists alike. Peppered with familiar TV and film references, personal insights into the business of image interpretation, and delivered in an accessible and humorous style, the book will also appeal to anyone who enjoys looking at pictures. Key features: Engaging synthesis of art and medical history, combined with anecdotes and experiences from a working clinical radiologist. Diverse range of visual reference points including astronomy, botany and cartography, alongside comprehensive discussion of medical imaging modalities including plain radiography, ultrasound, CT and MRI. 200 full colour illustrations.

Jayne Mansfield Jocelyn Faris, 1994-11-30 People today remember Jayne Mansfield as a famous Hollywood movie star. However, she starred in only three American movies before moving to low-budget European films. She was a master of publicity who appeared in newspapers across the nation almost daily. The media focused on her figure and her stormy love life. Through her constant exposure in the press, she gave the public the false impression that she was a major movie star. This book charts the captivating life and career of Jayne Mansfield. A biography overviews her rise to fame, her three marriages and five children, and her death in a grisly automobile accident at an early age. The chapters that follow are each devoted to her performances in a particular genre, such as film, stage, and television. Each chapter contains annotated entries for her work in that media, providing cast and credit listings, plot summaries, review excerpts, and commentary. Appendices list her appearances on magazine and record covers, and an annotated bibliography discusses additional sources of information.

Larger Than Life R. Barton Palmer, 2010-06-30 The constellation of Hollywood stars burned brightly in the 1950s, even as the industry fell on hard economic times. Major artists of the 1940s—James Stewart, Jerry Lewis, and Gregory Peck—continued to exert a magical appeal but the younger generation of moviegoers was soon enthralled by an emerging cast, led by James Dean and Marlon Brando. They, among others, ushered in a provocative acting style, the Method, bringing hard-edged, realistic performances to the screen. Adult-oriented small-budget dramas were ideal showcases for Method actors, startlingly realized when Brando seized the screen in *On the Waterfront*. But, with competition from television looming, Hollywood also featured film-making of epic proportion—*Ben-Hur* and other cinema wonders rode onto the screen with amazing spectacle, making stars of physically impressive performers such as Charlton Heston. *Larger Than Life* offers a comprehensive view of the star system in 1950s Hollywood and also in-depth discussions of the decade's major stars, including Montgomery Clift, Judy Holliday, Jerry Lewis, James Mason, Marilyn Monroe, Kim Novak, Bing Crosby, Gene Kelly, Jayne Mansfield, and Audrey Hepburn.

Becoming Laura Ingalls Wilder John E. Miller, 2006-01-31 Although generations of readers of the *Little House* books are familiar with Laura Ingalls Wilder's early life up through her first years of marriage to Almanzo Wilder, few know about her adult years. Going beyond previous studies, *Becoming Laura Ingalls Wilder* focuses upon Wilder's years in Missouri from 1894 to 1957. Utilizing her unpublished autobiography, letters, newspaper stories, and other documentary evidence, John E. Miller fills the gaps in Wilder's autobiographical novels and describes her sixty-three years of living in Mansfield, Missouri. As a result, the process of personal development that culminated in Wilder's writing of the novels that secured her reputation as one of America's most popular children's authors becomes evident.
