*The Book of Doing* Allison Arden,2012-04-03 When did you last take the time to do the things you loved as a child: crafts, games, getting your hands dirty? Or feel the same delight and wonder that you took from your favorite childhood activities? Despite the joy we gained from these pursuits, in our adult lives, we've left them behind-they're too frivolous, we're too busy or too old, and there's too much real work to do. It's time to change this mind-set. It's time to rediscover the things you love to do, because they energize, center, and connect you with the world in a meaningful and positive way. The Book of Doing offers a collection of ideas and activities that encourage you to use your life as a canvas and explore your creativity through everything you do-to create and make, to explore and experiment, to play and build, to paint and cook-to do. Go ahead. Roll up your sleeves and get to it. It's time to do the things that make you happiest.

*Unlock the Sales Game* Ari Galper,2015-04-15 Ari Galper's *Unlock The Game* is the greatest sales breakthrough in the last 20 years. Brian Tracy, Founder of Brian Tracy International Stop selling, start creating trust. If you flick through the pages of typical sales books and sales training material, you will find a constant flow of sales messages like, Focus on closing the sale, Overcome objections, Be relentless, Accept rejection as a normal part of selling, Use persuasion to get useful information about your prospects, and Chase the sale. In short, get the sale at the expense of the human relationship. For the customer, this approach is transparent and all too familiar. Crossing social boundaries and adding pressure to the sales process makes it a gut-wrenching and painful process. There is a much better way to succeed in selling - moving away from the hidden agenda of focusing on making the sale to a place of complete trust and authenticity. When you arrive at this place, it opens up a whole new world of sales opportunities for you

and your business. In other words, when you stop selling and start building authentic relationships based on trust, authenticity and integrity, the possibilities are endless. Ari Galper, The World's #1 Authority on Trust-Based Selling, and founder of Unlock The Game, the most successful trust-based selling approach adopted by thousands of business owners and sales consultants worldwide, has dramatically changed the way millions of sales transactions are made today. In his new book *Unlock The Sales Game*, he directly challenges all the selling rules that are considered status quo thinking among most small and large businesses and provides a new and authentic sales mindset -- along with his very powerful trust-based languaging -- that is taking the sales world by storm. Here's a sampling of what you'll discover: Seven Ways to Cut Loose from Old Sales Thinking How to Sales Call Using Your Right Brain - So You Can Make Selling Enjoyable and Productive Seven Steps to Selling Follow-Up Seven Ways to Stop Chasing Decision Makers How to Recognise and Diffuse Hidden Pressures in Selling The Surprising Truth About Selling - Three Selling Myths and Why They Hurt You No More Selling Scripts? *Swipe to Unlock* Neel Mehta, Parth Detroja, Aditya Agashe, 2017 WANT A NON-CODING JOB AT A TECH COMPANY? Interested in product management, marketing, strategy, or business development? The tech industry is the place to be: nontechnical employees at tech companies outnumber their engineering counterparts almost 3 to 1 (Forbes, 2017). You might be worried that your lack of coding skills or tech industry knowledge will hold you back. But here's the secret: you don't need to learn how to code to break into the tech industry. Written by three former Microsoft PMs, *Swipe to Unlock* gives you a breakdown of the concepts you need to know to crush your interviews, like software development, big data, and internet security. We'll explain how Google's ad targeting algorithm works, but Google probably won't ask you how to explain it in a non-technical interview. But they might ask you how you could increase ad revenue from a particular market segment. And if you know how Google's ad platform works, you'll be in a far stronger position to come up with good growth strategies. We'll show you how Robinhood, an app that lets you trade stocks without commission, makes money by earning interest on the unspent money that users keep in their accounts. No one will ask you to explain this. But if someone asks you to come up with a new monetization strategy for Venmo (which lets you send and receive money without fees), you could pull out the Robinhood anecdote to propose that Venmo earn interest off the money sitting in users' accounts. We'll talk about some business cases like why Microsoft acquired LinkedIn.

Microsoft interviewers probably won't ask you about the motive of the purchase, but they might ask you for ideas to improve Microsoft Outlook. From our case study, you'll learn how the Microsoft and LinkedIn ecosystems could work together, which can help you craft creative, impactful answers. You could propose that Outlook use LinkedIn's social graph to give salespeople insights about clients before meeting them. Or you could suggest linking Outlook's organizational tree to LinkedIn to let HR managers analyze their company's hierarchy and figure out what kind of talent they need to add. (We'll further explore both ideas in the book.) Either way, you're sure to impress. Learn the must know concepts of tech from authors who have received job offers for Facebook's Rotational Product Manager, Google's Associate Product Marketing Manager, and Microsoft's Program Manager to get a competitive edge at your interviews!
