Central Themes Yousra Sabra (Ph.D.), Maya Kourani, 2018-01-04 Central Themes, Level Three, Sociology and Economics (SE), is an English language course book designed for SE students in Secondary Three. Its scope and sequence is based on the English syllabus of the Lebanese Ministry of Education and Higher Education. Central Themes, Level Three, SE, presents topics, such as consumerism, minimalism, occupation gendering, development, child marriage, domestic violence, social media, deforestation, white pollution, homelessness, and modern-day slavery, which exhibit universality and stand true for people of all cultures. Through those topics, students better understand human experiences and gain insight into how the world works. Central Themes, Level Three, SE, is ideal for classroom interaction and test preparation.

Mature Themes Andrew Durbin, 2014-10-07 Andrew Durbin's Mature Themes is a hybrid text of poetry, art criticism, and memoir focused on the subject of disingenuity—and what constitutes personal experience both online and IRL when to go deep in a culture of so many unreliable communication technologies is to resend a text at 3 AM. Throughout the book, Durbin's voice mutates into others in order to uncover the fading specters of meaning buried under the pristine surfaces of art and Hollywood, locating below them the other realities that structure our experience of both.

The Book of Unknown Americans Cristina Henríquez, 2014-06-03 A stunning

novel of hopes and dreams, guilt and love—a book that offers a resonant new definition of what it means to be American and illuminates the lives behind the current debates about Latino immigration (The New York Times Book Review). When fifteen-year-old Maribel Rivera sustains a terrible injury, the Riveras leave behind a comfortable life in Mexico and risk everything to come to the United States so that Maribel can have the care she needs. Once they arrive, it's not long before Maribel attracts the attention of Mayor Toro, the son of one of their new neighbors, who sees a kindred spirit in this beautiful, damaged outsider. Their love story sets in motion events that will have profound repercussions for everyone involved. Here Henríquez seamlessly interweaves the story of these star-crossed lovers, and of the Rivera and Toro families, with the testimonials of men and women who have come to the United States from all over Latin America.

The themes in this book: can be adapted and developed to match the exact needs and interests of the participants; aim to generate and inspire group facilitators to think broadly and creatively, and to feel confident in using the culture and history of their geographical area to enrich the work they do with participants; enable participants to explore, develop and reflect upon their hidden, unidentified or unacknowledged strengths, transferable skills and knowledge; have a variety of alternative or additional ideas, and many are accompanied by worksheets; and include colour, television, soaps, touch, mirrors, maps, weather and many more.

Topical Themes in Argumentation Theory Frans H. van Eemeren, Bart Garssen, 2012-05-05 Topical Themes in Argumentation Theory brings together twenty exploratory studies on important subjects of research in contemporary argumentation theory. The essays are based on papers that were presented at the 7th Conference of the International Society for the Study of Argumentation (ISSA) in Amsterdam in June 2010. They give an impression of the nature and the variety of the kind of research that has recently been carried out in the study of argumentation. The volume starts with three essays that provide stimulating theoretical perspectives on argumentation. Subsequently, some views are explained on the intriguing topics of 'dissensus' and 'deep disagreement'. After a discussion of three different approaches to the treatment of types of argumentation some classical themes from antique argumentation theory are revisited. The new research area of visual argumentation is explored in the next part. The volume concludes with three reports of experimental studies concerning argumentative discourse. Themes and Stories in Youthwork Practice Mark Krueger, 2012-12-06 Learn to follow the rhythms of building a relationship with youth at risk *Themes and Stories in Youth Work Practice* takes a refreshing look at the creative possibilities of working with youth in a variety of group care and developmental settings. Author Mark Krueger presents an innovative approach to developing relationships through shared experiences that plays out like modern dance, choreographed according to individual needs and strengths but always open to improvisations that follow the rhythms of life. The book also promotes a framework of understanding youth work through personal stories constructed alone and together by youth and youth workers. *Themes and Stories in Youth Work Practice* offers a unique perspective on theory and practice as it examines human interaction as an interpersonal, inter-subjective, and contextual process. The book recounts a day in the life of a youth worker, examines qualitative inquiries conducted by youth workers, recalls personal stories, and addresses the ways youth workers' experiences influence their interactions with youth. Counselors working in community centers, group homes, treatment centers, and community and group care programs will discover how to use the interactive dance between workers and youth at risk to create human compositions, advancing the story and getting a feel of where they are in moments of connection, discovery, and empowerment. From the author: "Youth work is like a modern dance. We bring ourselves to the moment and try to interact in synch with youths' rhythms for trusting and growing. As we interact, we are in a sense, in—and passing through—youth. The challenge is to know ourselves so that we can know each other, and this comes about in part through a constant exploration of our stories. It also comes about when we are in youth work with youth, learning how to dance." Geared toward experienced youth workers but equally relevant for students and anyone new to the field, *Themes and Stories in Youth Work Practice* is an enlightening read for anyone working in, or for, residential treatment centers, group homes, shelters, foster care, juvenile justice programs, community-based youth serving organizations, after school programs, recreation programs, camps, churches, and neighborhood centers.

Crosscurrents and Crosscutting Themes Kagendo Mutua, Cynthia S

Sunal, 2006-08-01 In this Third Volume of the series, Research on Education in Africa, the Caribbean and the Middle East, the volume continues with the previously established overarching purpose of publishing chapters that are based upon research conducted in those regions by scholars, many of whom are indigenous to the regions they write about and are, therefore, able to provide cultural insights about relevant issues, as well as nonindigenous scholars who have conducted their studies in countries within the regions or about those regions. This mixture of indigenous scholarship offering emic perspectives and outside scholarship offering etic perspectives continues to be a relative strength and uniqueness of this book series. In addition, several chapters in the current volume constitute collaborations between the authors etic and emic to the contexts about which they write. This bifocality in the gaze cast upon issues covered in this book series has been well received by readers of earlier volumes of the series.

Themes and Texts, Exodus and Beyond Robert J. V. Hiebert, Jonathan

Numada, Dongshin Don Chang, Kyung S. Baek, 2024-01-25 This volume of essays is focused on the significance of the book of Exodus for studies in the Septuagint, Second Temple Jewish literature, the New Testament, and Christian theology. A diverse group of scholars from various parts of the world, many of whom are well-known in their fields, employs a range of methodologies in the treatment of text-critical, linguistic, literary, historical, cultural, exegetical, intertextual, and theological topics. Parts of the relevant literary corpus that are dealt with in relation to the book of Exodus include Genesis, Leviticus, Deuteronomy, Psalms, Zechariah, 3 Maccabees, the Gospels of Matthew and Mark, the Epistles of 1 Thessalonians, Hebrews, and 1 Peter, as well as the Dead Sea Scrolls. This book will be a valuable resource for scholars and students in the areas of biblical and theological studies, as well as clergy. The distinguished contributors include Emanuel Tov, Albert Pietersma, Daniela Scialabba, Craig A. Evans, James M. Scott, Martin G. Abegg Jr., and Wolfgang Kraus.

Themes in the Philosophy of Music Stephen Davies, 2003-01-02

Is music a language of the emotions? How do recorded pop songs differ from works created for live performance? Is John Cage's silent piece, 4'33, music? Stephen Davies's new book collects some of his most important papers on central topics in the philosophy of music. As well as perennial questions, Davies addresses contemporary controversies, including the impact of modern technology on the presentation and reception of both new and old musical works. These essays, two of them new and previously unpublished, are self-standing but thematically connected, and will be of great interest to philosophers, aestheticians, and to theorists of music and art.

Theme as an Index of Genre in Discourse Analysis Anwar El-Issa, 2016-02-09 The main focus of this book is on Theme-Rheme analysis. In English the Theme is realized as the initial constituent of the clause or sentence. The information that is contained within the themes of the various sentences of a passage correlates with the method of development of the passage. The meaning of Theme and its realization in English explains the general correlation of given information with the initial position in the sentence. The findings and analysis of Theme-Rheme in this book will immensely aid both researchers and students who seek to understand and unfold language structures and analyze written discourse. It also provides teachers with efficient tools to analyze their students academic writing and find ways to leverage it. This book also sheds lights on the semantic and structure of the language based on the four analytical approaches implemented in this study. The findings in this book suggest that control of the Theme-Rheme system is part of what the successful writer (native or non-native) uses to achieve such coherence. In this regard, students can be aware of a variety of linguistics choices to help them write more effectively. This book suggests that control of the Theme-Rheme system in academic writing is part of what the successful writer uses to achieve coherence. This book offers a new perspective on the way written discourse is organized and structured that is of some relevance to language teachers and applied linguists, as well as to theoretical and descriptive linguists. I have tried to offer in this book new insights into analyzing texts and investigating the thematic organization of the grammatical properties of Theme at clause level, and that, I hope, will be found sufficient reason for reading it.
