Divided into three parts: interaction design, software design and implementation, the first section covers generic and specific mixed reality design elements and provides an overview of the design method; Part 2 addresses technical solutions for interaction techniques, development tools and a global view of the mixed reality software development process. Asian American Film Festivals Erin Franziska Högerle,2020-10-26 Responding to a lack of studies on the film festival's role in the production of cultural memory, this book explores different parameters through which film festivals shape our reception and memories of films. By focusing on two Asian American film festivals, this book analyzes the frames of memory that festivals create for their films, constructed through and circulated by the various festival media. It further establishes that festival locations—both cities and screening venues—play a significant role in shaping our experience of films. Finally, it shows that festivals produce performances which help guide audiences towards certain readings and direct the film's role as a memory object. Bringing together film festival studies and memory studies, 'Asian American Film Festivals' offers a mixed-methods approach with which to explore the film festival phenomenon, thus shedding light on the complex dynamics of frames, locations, and performances shaping the festival's memory practices. It also draws attention to the

understudied genre of Asian American film festivals, showing how these festivals actively engage in constructing and performing a minority group's collective identity and memory.

Bringing Our Languages Home Leanne Hinton,2013-03-01 Thirteen personal accounts of endangered language preservation, plus a how-to guide for parents looking to do the same in their own home. Throughout the world individuals in the intimacy of their homes innovate, improvise, and

struggle daily to pass on endangered languages to their children. Elaina Albers of Northern California holds a tape recorder up to her womb so her baby can hear old songs in Karuk. The Baldwin family of Montana put labels all over their house marked with the Miami words for common objects and activities, to keep the vocabulary present and fresh. In Massachusetts, at the birth of their first daughter, Jesse Little Doe Baird and her husband convince the obstetrician and nurses to remain silent so that the first words their baby hears in this world are Wampanoag. Thirteen autobiographical accounts of language revitalization, ranging from Irish Gaelic to Mohawk, Kawaiisu to Maori, are brought together by Leanne Hinton, professor emerita of linguistics at UC Berkeley, who for decades has been leading efforts to preserve the rich linguistic heritage of the world. Those seeking to save their language will find unique instruction in these pages; everyone who admires the human spirit will find abundant inspiration. Languages featured: Anishinaabemowin, Hawaiian, Irish, Karuk, Kawaiisu, Kypriaka, Maori, Miami, Mohawk, Scottish Gaelic, Wampanoag, Warlpiri, Yuchi **"Practical and down to earth, philosophical and spiritual, Bringing Our Languages Home describes the challenges and joys of

learning and passing on your language. It gives good detailed advice . . . Fantastic! I hope millions will read it!" —Tove Skutnabb-Kangas, Åbo Akademi University, Finland, emerita "This rare collection by scholar-activist Leanne Hinton brings forward deeply affecting accounts of families determined to sustain their languages amidst a sea of dominant-language pressures. The stories could only be told by those who have experienced the joys and challenges such an undertaking demands. Drawing lessons from these accounts, Hinton leaves readers with a wealth of language planning strategies. This powerful volume will long serve as a seminal resource for families, scholars, and language planners around the world." —Teresa L. McCarty, George F. Kneller Chair in Education and Anthropology, University of California, Los Angeles
