Gray Tuttle, Kurtis R. Schaeffer

Tibet Helmut Hoffmann,1975 A classic study of Tibet and it's culture.

*Tibet* Sam van Schaik,2011-06-28 Presents a comprehensive history of the country, from its beginnings in the seventh century, to its rise as a Buddhist empire in medieval times, to its conquest by China in 1950, and subsequent rule by the Chinese.

**On the Margins of Tibet** Ashild Kolas,Monika P Thowsen,2005 The state of Tibetan culture within contemporary China is a highly politicized topic on which reliable information is rare. Based on fieldwork and interviews conducted between 1998 and 2000 in China's Tibetan Autonomous Prefectures, this book investigates the present conditions of Tibetan cultural life and cultural expression.

**The Making of Modern Tibet** A. Tom Grunfeld,1996-07-30 A comprehensive account of Tibet and the Tibetan people, this book emphasizes the political history of the twentieth century. By utilizing previously ignored archival material from three continents and drawing conclusions focused on the available documentation, The Making of Modern Tibet is the first successful attempt to reach beyond the polemics so often generated in Tibet studies to present a clear and accessible history of this fascinating country. This new edition is enriched by striking photographs and a comprehensive updating of the issues that have emerged since the publication of the first edition. On the original edition... Richly documented, wide ranging, thoughtful and probing work that both specialists and students will find stimulating. --The American Asian Review Grunfeld has produced an interesting and highly readable book. --Journal of Asian Studies

**Authenticating Tibet** Anne-Marie Blondeau,Katia Buffetrille,2008-04-08 Since 1959, Tibet has been at the centre of controversy, after China's 'peaceful liberation' of the Land of Snows led to the Lhasa uprising and the Dalai Lama's escape to India. This work brings together responses to a booklet published by the Chinese government in 1989, which sought to counter criticism of their occupation of Tibet.

**Buddhism in Contemporary Tibet** Melvyn C. Goldstein,Matthew T. Kapstein,2023-09-01 Following the upheavals of the Cultural Revolution, the People's Republic of China gradually permitted the renewal of religious activity. Tibetans, whose traditional religious and cultural institutions had been decimated during the preceding two decades, took advantage of the decisions of 1978 to begin a Buddhist renewal that is one of the most extensive and dramatic examples of religious revitalization in contemporary China. The nature of that revival is the focus of this book. Four leading specialists in Tibetan anthropology and religion conducted case studies in the Tibet autonomous region and among the Tibetans of Sichuan and Qinghai provinces. There they observed the revival of the Buddhist heritage in monastic communities and among laypersons at popular pilgrimages and festivals. Demonstrating how that revival must contend with tensions between the Chinese state and aspirations for greater Tibetan autonomy, the authors discuss ways that Tibetan Buddhists are restructuring their religion through a complex process of social, political, and economic adaptation. Buddhism has long been the main source of Tibetans' pride in their culture and country. These essays reveal the vibrancy of that ancient religion in contemporary Tibet and also the problems that religion and Tibetan culture in general are facing in a radically altered world.

**Indo-Tibetan Studies** David L. Snellgrove,1990

**Buddhism in the Tibetan Tradition** Geshe Kelsang Gyatso,2013-10-16 A clear and straightforward introduction to Tibetan Buddhism, this book presents the basic teachings of Buddha in a way that people can readily comprehend and put into practice in their daily lives. Topics such as reincarnation, actions and their effects, emptiness, liberation and enlightenment are discussed. Designed primarily for those coming to the subject for the first time, the book also offers new insights for the more advanced student of Tibetan Buddhism. Originally published in 1989.

**Lhasa and Its Mysteries** Laurence Austine Waddell,1906

**The Tibetan History Reader** Gray Tuttle,Kurtis R. Schaeffer,2013-03-12 Answering a critical need for an accurate, in-depth history of Tibet, this single-volume resource reproduces essential, hard-to-find essays from the past fifty years of Tibetan studies. Covering the social, cultural, and political development of Tibet from the seventh century to the modern period, the volume is organized chronologically and regionally to complement courses in Asian and religious studies and world civilizations. Beginning with Tibet's emergence as a regional power and concluding with its profound contemporary transformations, this anthology offers both a general and ..

**Religions Of Tibet** Tucci,2012-11-12 Very little is known in the West about Tibetan Buddhism in comparison with other eastern religions. This is partly because the vast literature which it has produced, and which illuminates its history, is still far from accessible. In addition there exists a deep division between monastic Lamaism and religion as it is lived by the people: the former is fragmented into many schools, while the latter shows numerous regional variations. The first comprehensive account of Tibetan Buddhism to be published in English since Waddell's Buddhism of Tibet appeared in 1894, this translation is certain to become the standard reference work on the subject.

**Manuscripts and Travellers** Sam van Schaik,Imre Galambos,2011-11-30 This study is based on a manuscript which was carried by a Chinese monk through the monasteries of the Hexi corridor, as part of his pilgrimage from Wutaishan to India. The manuscript has been created as a composite object from three separate documents, with Chinese and Tibetan texts on them. Included is a series of Tibetan letters of introduction addressed to the heads of monasteries along the route, functioning as a passport when passing through the region. The manuscript dates to the late 960s, coinciding with the large pilgrimage movement during the reign of Emperor Taizu of the Northern Song recorded in transmitted sources. Therefore, it is very likely that this is a unique contemporary testimony of the movement, of which our pilgrim was also part. Complementing extant historical sources, the manuscript provides evidence for the high degree of ethnic, cultural and linguistic diversity in Western China during this period.

**Road News from Tibet** Richard Langlais,2012-12-06 A satellite passes. It dips lower in its orbit to have a closer look at Central Asia. The sweep of its vision glosses the Celestial Mountains and the Mountains of Chaos. Its prying lenses probe the Taklamakhan, the Himalaya and the headwaters of Asia's greatest rivers. Mother Ganges, the Brahmaputra and the Yellow River, the Salween, Yangtze and Mekong all lie exposed beneath its arc. It's focus is Tibet. At least a few satellites pass over Tibet these days. Their observations are crisp and hard, terse and digital. Statistics are collected while hardy people sleep softly on the land below. Most of the Tibetan people have never heard of satellites. They revere the sun, the moon and the stars, while respecting the harsh winds that can change the temper of a day in moments. Although some of the stars are seen to move very quickly now, the Tibetans' spiritual centre remains Lhasa, around which their lives gravitate no matter how far away from it their homes might be.
