Time Stoppers Carrie Jones,2016-05-05 Annie Nobody thought she was, well, nobody; living in a nowhere town where nothing goes her way. Day one at her newest foster home proves to be dreadful, too ... and things get even worse when she's chased by something big and scary that definitely wants to eat her. Luckily for Annie, not everything is what it seems, and she gets swept up – literally – by a sassy dwarf on a hovercraft snowmobile and taken to Aurora: a hidden, magical town on the coast of Maine. There, she finds a new best friend in Jamie Hephastion Alexander – who thought he was a normal kid (but just might be a troll) – and Annie discovers that she's not exactly who she thought she was, either. She's a Time Stopper, meant to protect the enchanted. Together, Annie and Jamie discover a whole new world of magic, power, and an incredible cast of creatures and characters. But where there's great power, there are also those who want to misuse it, and Aurora is under siege. It's up to the kids to protect their new home, even if it means diving head first into magical danger. A thrilling adventure with heroes children will relate to – and more than a smattering of magic! A sensational new series to sweep you away, from bestselling YA author Carrie Jones. There is no time to lose!

Timestopper Claude Limberger,1998 Timestopper is an adventure book taking place on another world very similar to medieval Europe. We follow Einu, a young boy in his quest to rid his world of magic and the last evil sorcerer who stands in his way. In what should be a straight forward fantasy story, this novel shockingly turns out to be a real life adventure for the author, or perhaps, it is the author who is lost in a Walter Mitty type story. Whichever possibility is true - some startling insights into the way the universe works are revealed. The classical perception of time being an unending linear stream is challenged by the author Claude who finds it to be a rather jerky non-linear experience. When time does stop, the collective reality agreement for the entire human race can be altered. Also during the period of a time stoppage, any individual can transfer their consciousness to any other individual. Rarely is any memory of these events kept by anyone, because of what is stipulated in our current agreement. After countless twists and turns on the other world, Claude returns to discover his reality never to be the same.

Showstopper! G. Pascal Zachary,2014-04-01 This "inside account captures the energy—and the madness—of the software giant's race to develop a critical new program. . . . Gripping" (Fortune Magazine). Showstopper is the dramatic, inside story of the creation of Windows NT, told by Wall Street Journal reporter G. Pascal Zachary. Driven by the legendary David Cutler, a picked band of software engineers sacrifices almost everything in their lives to build a new, stable, operating system aimed at giving Microsoft a platform for growth through the next decade of development in the computing business. Comparable in many ways to the Pulitzer Prize–winning book The Soul of a New Machine by Tracy Kidder, Showstopper gets deep inside the process of software development, the lives and motivations of coders and the pressure to succeed coupled with the drive for originality and perfection that can pull a diverse team together to create a program consisting of many hundreds of thousands of lines of code.
