Time Stoppers Carrie Jones, 2016-05-05 Annie Nobody thought she was, well, nobody; living in a nowhere town where nothing goes her way. Day one at her newest foster home proves to be dreadful, too ... and things get even worse when she's chased by something big and scary that definitely wants to eat her. Luckily for Annie, not everything is what it seems, and she gets swept up - literally - by a sassy dwarf on a hovercraft snowmobile and taken to Aurora: a hidden, magical town on the coast of Maine. There, she finds a new best friend in Jamie Hephastion Alexander - who thought he was a normal kid (but just might be a troll) - and Annie discovers that she's not exactly who she thought she was, either. She's a Time Stopper, meant to protect the enchanted. Together, Annie and Jamie discover a whole new world of magic, power, and an incredible cast of creatures and characters. But where there's great power, there are also those who want to misuse it, and Aurora is under siege. It's up to the kids to protect their new home, even if it means diving head first into magical danger. A thrilling adventure with heroes children will relate to - and more than a smattering of magic! A sensational new series to sweep you away, from bestselling YA author Carrie Jones. There is no time to lose!

Timestopper Claude Limberger, 1998 Timestopper is an adventure book taking place on another world very similar to medieval Europe. We follow Einu, a young boy in his quest to rid his world of magic and the last evil sorcerer who stands in his way. In what should be a straight forward fantasy story, this novel shockingly turns out to be a real life adventure for the author, or perhaps, it is the author who is lost in a Walter Mitty type story. Whichever possibility is true - some startling insights into the way the universe works are revealed. The classical perception of time being an unending linear stream is challenged by the author Claude who finds it to be a rather jerky non-linear experience. When time does stop, the collective reality agreement for the entire human race can be altered. Also during the period of a time stoppage, any individual can transfer their consciousness to any other individual. Rarely is any memory of these events kept by anyone, because of what is stipulated in our current agreement. After countless twists and turns on the other world, Claude returns to discover his reality never to be the same.

101 Philosophy Problems Martin Cohen, 2002-11-01 Now in its second edition, this ever-engaging, humorous and extremely popular book challenges readers to think philosophically about every day dilemmas. This fully updated new edition includes brand new problems, such as 'A Nasty Transplant' and the 'Three Embryos', from the field of medical ethics, and 'Deep Thought Speaks', which tackles issues in Artificial Intelligence. These new conundrums accompany old favourites, such as the 'Hanging Judge', 'The Unexpected exam', 'The Sentence' paradox and 'Descartes' big problem', all explained and explored in Martin Cohen's clear, witty and individual style. 101 Philosophy Problems will stimulate hours of lively philosophical debate.
