**Ensuring Quality in Professional Education Volume I**  
Karen Trimmer,Tara Newman,Fernando F. Padró,2019-01-11 This book analyses examples of quality teaching in professional education in the human client fields. The first of two volumes, the editors and contributors use case studies to illustrate the elements deemed good practice within professional education. There are many different routes towards preparing well-qualified professionals through higher education: as diverse as the professions themselves, these routes are largely determined by decisions academics make regarding content, curriculum alignment, integration of research with practice and pedagogical techniques. Including case studies from midwifery, medical, nursing and psychology degree programmes, the authors and editors unravel what good teaching in professional practice looks like in the human client fields, and how it can be achieved. This rigorous and comprehensive collection will be of interest and value to students and scholars of professional pedagogy, as well as practitioners.
