*How to Make Friends With a Ghost* Rebecca Green, 2022-08-23 Ghosts make great friends for life (and beyond)! If you're lucky enough to have a ghost find you, you'll need to know how to treat it right. Open up this how-to guide to discover how to be the best friend a ghost could ever ask for! What do you do when you meet a ghost? One: Provide the ghost with some of its favorite snacks, like mud tarts and earwax truffles. Two: Tell your ghost bedtime stories (ghosts love to be read to). Three: Make sure no one mistakes your ghost for whipped cream or a marshmallow when you aren't looking! If you follow these few simple steps and the rest of the essential tips in *How to Make Friends with a Ghost*, you'll see how a ghost friend will lovingly grow up and grow old with you. A whimsical story about ghost care, Rebecca Green's debut picture book is a perfect combination of offbeat humor, quirky and sweet illustrations, and the timeless theme of friendship.

**Bending Reality** Victoria Song, 2021-08-24 Bending Reality is the innovative process used by billionaires, tech leaders, and the world's most successful people to make the impossible . . . probable. Victoria Song teaches readers how to unlock the hidden power within their bodies to get what they want. After achieving success but lacking fulfillment as a student at Yale University and Harvard Business School, and then as a Forbes 30 Under 30 Venture Capitalist, Victoria set off on an unusual quest to study, train, and work with more than 24 of the best coaches, therapists, and healers in the

world. She then deployed the skills and tools she'd learned with a diverse group of the world's highest performers. Through it all, she's discovered the codes that enable her clients to bend reality toward the directions they want. By accessing this extraordinary ability, Victoria's clients have sold a company for 4 billion dollars, grown revenue 1,000% during a pandemic, and pivoted to design a more effective COVID-19 vaccine. Victoria reveals the meta-framework behind peak performance, self-development, therapy, and meditation that is accessible for all. Whether you've studied these areas closely or this is the first book you've read on this topic, you'll have a front row seat to how the world's elite use this knowledge to achieve more while doing less. In this fast-paced guide to success, you will learn how to: Bend reality by mastering two states of being that most people aren't even aware of. Navigate change and face the unknown like the greatest leaders. Access creative downloads that artists, musicians, and geniuses receive. Make your own luck--there's literally a recipe! Find your unique zone of genius and live from it every day. Packed with powerful tools and exercises, Bending Reality will move you beyond intellectual understanding to embodiment. This is not another mindset book. You're ready for Bending Reality if you realize it's time to go beyond the mind and harness the full capacity of your consciousness to make quantum leaps in every area of your life. After learning how to bend reality, you will no longer need to memorize rules, tips, or tricks, but you will embody the essence of a remarkable leader who

can make the impossible--probable.

How to Write One Song Jeff Tweedy, 2020-10-13 There are few creative acts more mysterious and magical than writing a song. But what if the goal wasn't so mysterious and was actually achievable for anyone who wants to experience more magic and creativity in their life? That's something that anyone will be inspired to do after reading Jeff Tweedy's *How to Write One Song*. Why one song? Because the difference between one song and many songs isn't a cute semantic trick—it's an important distinction that can simplify a notoriously confusing art form. The idea of becoming a capital-S songwriter can seem daunting, but approached as a focused, self-contained event, the mystery and fear subsides, and songwriting becomes an exciting pursuit. And then there is the energizing, nourishing creativity that can open up. *How to Write One Song* brings readers into the intimate process of writing one song—lyrics, music, and putting it all together—and accesses the deep sense of wonder that remains at the heart of this curious, yet incredibly fulfilling, artistic act. But it's equally about the importance of making creativity part of your life every day, and of experiencing the hope, inspiration, and joy available to anyone who's willing to get started.

*Studio: A Place for Art to Start* Emily Arrow, 2020-03-03 Beloved children's entertainer Emily Arrow's first picture book, perfect for (little) makers everywhere: a story about finding a space to create! A young bunny makes the rounds of a studio building, taking in all the different artists in their

habitats. Making, thinking, sharing, performing . . . but can our bunny find the perfect space to let imagination shine? In this charming ode to creativity, noted children's singer and entertainer Emily Arrow introduces readers to the concept of the studio: a place for painters, dancers, singers, actors, sculptors, printmakers . . . and you! Whether it's a purpose-made space with big windows, a room filled with equipment, or the corner of a bedroom, your studio can be anywhere--you just have to find it!

*Processing Creativity* Jesse Cannon, 2017-03-28 For decades, Jesse Cannon has been pushing creative ideas in music. You may know him from writing one of the most popular books on the music business, *Get More Fans*, or from his recording credits on records with the most varied set of bands you've ever seen, including The Cure, The Misfits, Animal Collective, Brand New, The Dillinger Escape Plan, The Menzingers, Limp Bizkit, Basement, Leftover Crack, Saves The Day, Senses Fail, Weird Al Yankovich, Lifetime, Say Anything, NOFX, Flatsound, Man Overboard, Bad Books, Transit, Somos, Cavetown, and over a thousand others. You may also know his work as the host of the podcasts Atlantic Records Inside The Album, Noise Creators, and Off The Record, his popular YouTube channel Musformation, as a producer for popular podcasts at Rolling Stone & The Daily Beast or from his writing at outlets like Alternative Press, Tape Op, & Hypebot. In *Processing Creativity: How To Write Songs People Love* he chronicles the lessons learned working on all those records and writing about music's most progressive ideas, taking on the

subject he knows the most about; helping musicians fulfill their creative vision. The book is the culmination of four years of poring over scientific studies, books, and thoughts from top creators as well as his own experience to write a book every musician should listen to about what goes into making great music versus what bands do when they make the innumerable bad songs we hear each day. Covering the pitfalls of creating music, the book thoroughly explores the hidden reasons we actually like music, how to get along with our collaborators, and patterns that help creativity flourish. While every musician says that being creative is the most important part of their life, they barely explore what's holding them back from making music they are happy with. When trying to navigate the ways our creative endeavors fail there's no YouTube tutorial, listicle, or college course that can help navigate the countless creative pitfalls that can ruin your music but after reading this book you will have the knowledge to guide you to make songs the world loves. The essential ideas on creating music are detailed in a simple, fun language that's littered with quotes and insight from the most innovative creators of our time including:

- How to make highly emotional music that compels listeners to listen again and again.
- Effectively dealing with collaborative problems like "too many chefs in the kitchen," giving helpful criticism or dealing with stubborn collaborators.
- Finding inspiration when you have writer's block.
- How to draft your songs while avoiding the common pitfalls of losing perspective and giving up.
- Examining the unexpected reasons we

enjoy music. • Calming your thoughts so they don't sabotage your music and other helpful tools to help execute your music as best as possible.

*Get More Fans: The DIY Guide to the New Music Business* Jesse Cannon, Todd Thomas, 2012-11-25 How Do I Promote My Music On A Small Budget? How Do I Get My YouTube Videos to Spread? How Do I Turn Casual Fans Into One's Who Buy From Me? How Do I Get Written About On Blogs? How Do I Increase Turnout At Shows? How Do I Make Fans Using Facebook, Twitter, Tumblr And SoundCloud? With every day that passes, the power the major labels once had dies a little more. The chance to get the same exposure as your favorite musicians gets easier and easier. The hurdles that would only allow you to get popular, if the right people said your music was good enough, are gone. You can now get exposed to thousands of potential fans without investing 1% of what musicians used to by building a fanbase based on listeners love for your music. No more writing letters hoping that A&R writes you back. This book explains how you do it. While many books will tell you obvious information, legal mumbo-jumbo and marketing catchphrases that don't help you get more fans. Our experience

working with real bands - from upstarts like Man Overboard and Transit to legends like The Cure, The Misfits and Animal Collective, has led us to understand the insider tricks and ideas that go into some of the most important groups of our time. We produce records, do licensing deals, negotiate record contracts and get the musicians we work with written about on websites like Pitchfork and Vice. We have worked with bands who started off as nothing and became something. Unlike any other book written on the subject we have compiled the knowledge no one else has been willing to print in fear of obsoleting their own career. We give you thousands of ideas on how to get people to hear your music and turn them into fans who pay to support your music. Whether you are a label owner, musician, manager, booking agent or publicist there is information in this book that will help you do what you do better. Enjoy! **This House, Once** Deborah Freedman, 2017-02-28 "Tender, comforting, and complex." –Kirkus Reviews (starred review) "Drawn with exquisite precision and quiet dashes of humor." –Publishers Weekly (starred review) "A lovely, ruminative selection." –School Library Journal (starred review) "A blueprint for mindfulness and gratitude for the homes in which we...live." –The New York Times Book Review Deborah Freedman's masterful new picture book is at once an introduction to the pieces of a house, a cozy story to share and explore, and a dreamy meditation on the magic of our homes and our world. Before there was this house, there were stones, and mud, and a colossal oak tree— three hugs around and as high as the blue. What was your home, once? This poetically simple, thought-provoking, and gorgeously illustrated book invites readers to think about where things come from and what nature provides.

**Make your own music videos with Adobe Premiere** Pete Kennedy, Maura Kennedy, 2000 Music videos are a necessity if you want to take your musical career to the next level. But how do you create one without breaking the bank? This book delivers the answers. Written by two acclaimed recording

artists who've been producing their own award-winning music videos for several years, it shows you step-by-step how to get from an idea to an MTV-worthy result on a shoestring budget -- even if you've never worked with video before. Packed with easy-to-understand instructions, hands-on exercises and fascinating road diaries that illuminate the inspiration behind video concepts and special effects, it's all you need to become a music video star. If you are a music lover and have always thought that you could make a music video if only you had the right tools, this book is for you. If you or someone you know is in a band, and you want to make a video for your website, a cable TV channel, or as a promotional tool, this book is all you need. If you have great stacks of pre-video vinyl, and you always wanted to make your own video for your favorite song, you've come to the right place. If you saw a video on TV and said, I could make a much better video than that, here's your chance. If you want to become a professional music videographer, this book is a great place to start.

**The Dot** Peter H. Reynolds, 2022-05-31 Vashti believes that she cannot draw, but her art teacher's encouragement leads her to change her mind and she goes on to encourage another student who feels the same as she had.

**A Song Called Home** Sara Zarr, 2022-03-15 From award-winning author Sara Zarr comes a story of the small moments that show us who we are, and how family is not just something you're part of, but something you make. Lou and her family don't have much, but for Lou it's enough. Mom. Her sister, Casey. Their

apartment in the city. Her best friend, Beth. It would be better if Dad could stop drinking and be there for her and Casey, and if they didn't have to worry about money all the time. But Lou doesn't need better—she only needs enough. What's enough for Lou, however, is not enough for Mom. Steve, Mom's boyfriend, isn't a bad guy, he's just...not what Lou is used to. And now, he and Mom are getting married, and that means moving. Packing up life as they've known it and storing it in Steve's garage. Lou will be separated from everything in her small but predictable life, farther from Dad than ever. Their last night in the city, Lou receives a mysterious birthday gift: A guitar, left for her by their front door. There's nothing saying who left it, but it must be from Dad. And as she leaves the only place she's ever known, she starts to believe that if she can learn how to play it, maybe she can bring a piece of him, and of her old life, home.

*The First 20 Hours* Josh Kaufman, 2013-06-13 Forget the 10,000 hour rule—what if it's possible to learn the basics of any new skill in 20 hours or less? Take a moment to consider how many things you want to learn to do. What's on your list? What's holding you back from getting started? Are you worried about the time and effort it takes to acquire new skills—time you don't have and effort you can't spare? Research suggests it takes 10,000 hours to develop a new skill. In this nonstop world when will you ever find that much time and energy? To make matters worse, the early hours of practicing something new are always the most frustrating. That's why it's

difficult to learn how to speak a new language, play an instrument, hit a golf ball, or shoot great photos. It's so much easier to watch TV or surf the web . . . In *The First 20 Hours*, Josh Kaufman offers a systematic approach to rapid skill acquisition— how to learn any new skill as quickly as possible. His method shows you how to deconstruct complex skills, maximize productive practice, and remove common learning barriers. By completing just 20 hours of focused, deliberate practice you'll go from knowing absolutely nothing to performing noticeably well. Kaufman personally field-tested the methods in this book. You'll have a front row seat as he develops a personal yoga practice, writes his own web-based computer programs, teaches himself to touch type on a nonstandard keyboard, explores the oldest and most complex board game in history, picks up the ukulele, and learns how to windsurf. Here are a few of the simple techniques he teaches: Define your target performance level: Figure out what your desired level of skill looks like, what you're trying to achieve, and what you'll be able to do when you're done. The more specific, the better. Deconstruct the skill: Most of the things we think of as skills are actually bundles of smaller subskills. If you break down the subcomponents, it's easier to figure out which ones are most important and practice those first. Eliminate barriers to practice: Removing common distractions and unnecessary effort makes it much easier to sit down and focus on deliberate practice. Create fast feedback loops: Getting accurate, real-time information about how well you're performing during practice makes

it much easier to improve. Whether you want to paint a portrait, launch a start-up, fly an airplane, or juggle flaming chainsaws, *The First 20 Hours* will help you pick up the basics of any skill in record time . . . and have more fun along the way.

*How to Make Music in an Epidemic* Matthew Jones, 2024-06-07 This volume examines responses to the epidemic of HIV/AIDS in Anglophone popular musicians and music video during the AIDS crisis (1981–1996). Through close reading of song lyrics, musical texts, and music videos, this book demonstrates how music played an integral part in the artistic-activist response to the AIDS epidemic, demonstrating music as a way to raise money for HIV/AIDS services, to articulate affective responses to the epidemic, to disseminate public health messages, to talk back to power, and to bear witness to the losses of AIDS. Drawing methodologies from musicology, queer theory, critical race studies, public health, and critical theory, the book will be of interest to a wide readership, including artists, activists, musicians, historians, and other scholars across the humanities as well as to people who lived through the AIDS crisis.

David Bowie and the Art of Music Video Lisa Perrott, 2023-07-27 The first in-depth study of David Bowie's music videos across a sustained period takes on interweaving storyworlds of an iconic career. Remarkable for their capacity to conjure elaborate imagery, Bowie's videos provide fascinating exemplars of the artistry and remediation of music video. When their construction is examined across several years, they appear as time-travelling vessels, transporting kooky characters and strange story-world components

across time and space. By charting Bowie's creative and collaborative process across five distinct phases, *David Bowie and the Art of Music Video* shows how he played a vital role in establishing music video as an artform. Filling a gap in the existing literature, this book shines a light on the significant contributions of directors such as Mick Rock, Stanley Dorfman and David Mallet, each of whom taught Bowie much about how to use the form. By examining Bowie's collaborative process, his use of surrealist strategies and his integration of avant-garde art with popular music and media, the book provides a history of music video in relation to the broader fields of audiovisual media, visual music and art.

*The Bloomsbury Handbook of Popular Music Video Analysis* Lori A. Burns, Stan Hawkins, 2019-10-17 Music videos promote popular artists in cultural forms that circulate widely across social media networks. With the advent of YouTube in 2005 and the proliferation of handheld technologies and social networking sites, the music video has become available to millions worldwide, and continues to serve as a fertile platform for the debate of issues and themes in popular culture. This volume of essays serves as a foundational handbook for the study and interpretation of the popular music video, with the specific aim of examining the industry contexts, cultural concepts, and aesthetic materials that videos rely upon in order to be both intelligible and meaningful. Easily accessible to viewers in everyday life, music videos offer profound cultural interventions and negotiations while traversing a

range of media forms. From a variety of unique perspectives, the contributors to this volume undertake discussions that open up new avenues for exploring the creative changes and developments in music video production. With chapters that address music video authorship, distribution, cultural representations, mediations, aesthetics, and discourses, this study signals a major initiative to provide a deeper understanding of the intersecting and interdisciplinary approaches that are invoked in the analysis of this popular and influential musical form.
