Drowning Instinct Ilsa J. Bick,2012-02-01 Jenna Lord's first sixteen years were not exactly a fairy tale. Her father is a controlling psycho and her mother is a drunk. She used to count on her older brother until he shipped off to Iraq. And then, of course, there was the time she almost died in a fire. Mitch Anderson is many things: A dedicated teacher and coach. A caring husband. A man with a certain...magnetism. *Drowning Instinct* is a novel of pain, deception, desperation, and love against the odds and the rules.

Replay Ken Grimwood,2010-09-14 Jeff Winston, forty-three, didn't know he was a replayer until he died and woke up twenty-five years younger in his college dorm room; he lived another life. And died again. And lived again and died again -- in a continuous twenty-five-year cycle -- each time starting from scratch at the age of eighteen to reclaim lost loves, remedy past mistakes, or make a fortune in the stock market. A novel of gripping adventure, romance, and fascinating speculation on the nature of time, *Replay* asks the question: What if you could live your life over again?

Yummy Yucky Leslie Patricelli,2011-11-15 Learning about opposites has never been more fun - or funny - than with this winning book. Yummy! Spaghetti is yummy, but worms - and blue crayons, and sand, and other things too gross to mention - are definitely yucky when tasted. Amiably illustrated in a bright, graphic style, Leslie Patricelli's spirited book, *Yummy Yucky* stars an obliging, bald, and very expressive toddler who acts out each pair of opposites

with comically dramatic effect.

Boulder Eva Baltasar, 2023-05-05 Working as a cook on a merchant ship, a woman comes to know and love Samsa, a woman who gives her the nickname Boulder. When Samsa gets a job in Reykjavik and the couple decides to move there together, Samsa decides that she wants to have a child. She is already forty and can't bear to let the opportunity pass her by. Boulder is less enthused, but doesn't know how to say no—and so finds herself dragged along on a journey that feels as thankless as it is alien. With motherhood changing Samsa into a stranger, Boulder must decide where her priorities lie, and whether her yearning for freedom can truly trump her yearning for love. Once again, Eva Baltasar demonstrates her preeminence as a chronicler of queer voices navigating a hostile world—and in prose as brittle and beautiful as an ancient saga.

Rapunzel Barbara Rogasky, 2019-07-09 A stunningly illustrated version of the beloved fairy tale from a Caldecott Medalist, now digitally restored. This retelling of a favorite fairy tale, illustrated by award-winning artist Trina Schart Hyman in an edition Publishers Weekly called spellbinding, has been lovingly restored. Digital technology brings back the clarity and brightness of Hyman's original watercolor paintings to illuminate the terrifying woods, handsome prince, and Rapunzel's lustrous hair, as Hyman originally painted them.

Potty Time with Elmo Kelli Kaufmann, 2011-05-15 The Sesame Street Potty Time with Elmo comes with a seven-button audio module that enables children to add voices and other sounds to a story about Elmo teaching his doll, Baby David, all about using the potty. The book is recommended for children ages 18 months and older. Icons on the book's pages match the buttons on the sound module. Children press a button that matches a page to activate sound. They hear words of wisdom from Elmo to Baby David about all aspects of using the potty, including washing hands afterward, and other sound effects, including a flushing toilet. The Sesame Street Potty Time with Elmo has coated, board pages that resist rips and tears, and wipe clean of spills. The book conforms to the toy safety requirements of ASTM F963-08. Three replaceable AG-13 button cell batteries that power the sound module are included.

The Design of Childhood Alexandra Lange, 2018-06-12 From building blocks to city blocks, an eye-opening exploration of how children's playthings and physical surroundings affect their development. Parents obsess over their children's playdates, kindergarten curriculum, and every bump and bruise, but the toys, classrooms, playgrounds, and neighborhoods little ones engage with are just as important. These objects and spaces encode decades, even centuries of

changing ideas about what makes for good child-rearing--and what does not. Do you choose wooden toys, or plastic, or, increasingly, digital? What do youngsters lose when seesaws are deemed too dangerous and slides are designed primarily for safety? How can the built environment help children cultivate self-reliance? In these debates, parents, educators, and kids themselves are often caught in the middle. Now, prominent design critic Alexandra Lange reveals the surprising histories behind the human-made elements of our children's pint-size landscape. Her fascinating investigation shows how the seemingly innocuous universe of stuff affects kids' behavior, values, and health, often in subtle ways. And she reveals how years of decisions by toymakers, architects, and urban planners have helped--and hindered--American youngsters' journeys toward independence. Seen through Lange's eyes, everything from the sandbox to the street becomes vibrant with buried meaning. The Design of Childhood will change the way you view your children's world--and your own.
