

Toca Ear

James Richard Andrews

Journey of the Hidden D. L. Crager, 2021-04-12 Leaving his home in the hidden valley, young Toca must journey for a sun season to and from the endless water in order to prove his manhood. He must accomplish the tribe's Katata Ado if he is ever to become chief. Before leaving, old Chief Acuta secretly gives Toca - whose spirit image and talisman is the Black Ghost - instructions for him to bring back three vital things. If he fails, the old chief has foreseen, over the past generations, that their people, the Nashua, will cease to exist. Early in Toca's journey through the dense rain forest of the Amazon, he encounters a young girl his age, named Shana, and her father who are not from the Amazon and are lost. They desperately need help to survive in this deadly environment. Shortly after finding them, Shana's father dies, leaving her in the hands of this strange Amazon Indian. _ e Black Ghost now has another heavy burden caring for this girl as he must continue and finish his strenuous Katata Ado before the thirteenth full moon rises or all is lost for him and his people. The young ones face many surprising and life-threatening situations throughout the long and tiring journey naturally causing them to grow close and mature, becoming adults. Nearing the end as they are getting close to the hidden valley, the two struggle to make it as they encounter a giant obstacle that could change the course of everything.

Introduction to Classical Nahuatl James Richard Andrews, 2003 Nahuatl is the language used by the ancient Aztecs and the Nahua Indians of Central Mexico. This text introduces the language using an anthropological approach, teaching learners to understand Nahuatl according to its own distinctive grammar and to reject translationist descriptions based on English or Spanish notions of grammar. In particular, the author emphasizes the nonexistence of words in Nahuatl (except for the few so-called particles) and stresses the nuclear clause as the basis for Nahuatl linguistic organization.

Hearing Voices Sarah Finley, 2019-02 Hearing Voices takes a fresh look at sound in the poetry and prose of colonial Latin American poet and nun Sor Juana Inés de la Cruz (1648/51-95). A voracious autodidact, Sor Juana engaged with early modern music culture in a way that resonates deeply in her writing. Despite the privileging of harmony within Sor Juana's work, however, links between the poet's musical inheritance and subjects such as acoustics, cognition, writing, and visual art have remained unexplored. These lacunae have marginalized nonmusical aurality and contributed to the persistence of both ocularcentrism and a corresponding visual dominance in scholarship on Sor Juana--and indeed in early modern cultural production in general. As in many areas of her work, Sor Juana's engagement with acoustical themes restructures gendered discourses and transposes them to a feminine key. Hearing Voices focuses on these aural conceits in highlighting the importance of sound and--in most cases--

its relationship with gender in Sor Juana's work and early modern culture. Sarah Finley explores attitudes toward women's voices and music making; intersections of music, rhetoric, and painting; aurality in Baroque visual art; sound and ritual; and the connections between optics and acoustics. Finley demonstrates how Sor Juana's striking aurality challenges ocularcentric interpretations and problematizes paradigms that pin vision to logos, writing, and other empirical models that traditionally favor men's voices. Sound becomes a vehicle for women's agency and responds to anxiety about the female voice, particularly in early modern convent culture.

At Home with the Sapa Inca Stella Nair,2015-07-01 By examining the stunning stone buildings and dynamic spaces of the royal estate of Chinchero, Nair brings to light the rich complexity of Inca architecture. This investigation ranges from the paradigms of Inca scholarship and a summary of Inca cultural practices to the key events of Topa Inca's reign and the many individual elements of Chinchero's extraordinary built environment. What emerges are the subtle, often sophisticated ways in which the Inca manipulated space and architecture in order to impose their authority, identity, and agenda. The remains of grand buildings, as well as a series of deft architectural gestures in the landscape, reveal the unique places that were created within the royal estate and how one space deeply informed the other. These dynamic settings created private places for an aging ruler to spend time with a preferred wife and son, while also providing impressive spaces for imperial theatrics that reiterated the power of Topa Inca, the choice of his preferred heir, and the ruler's close relationship with sacred forces. This careful study of architectural details also exposes several false paradigms that have profoundly misguided how we understand Inca architecture, including the belief that it ended with the arrival of Spaniards in the Andes. Instead, Nair reveals how, amidst the entanglement and violence of the European encounter, an indigenous town emerged that was rooted in Inca ways of understanding space, place, and architecture and that paid homage to a landscape that defined home for Topa Inca.

Neuro-Otology ,2016-09-13 Neuro-Otology: a volume in the Handbook of Clinical Neurology series, provides a comprehensive translational reference on the disorders of the peripheral and central vestibular system. The volume is aimed at serving clinical neurologists who wish to know the most current established information related to dizziness and disequilibrium from a clinical, yet scholarly, perspective. This handbook sets the new standard for comprehensive multi-authored textbooks in the field of neuro-otology. The volume is divided into three sections, including basic aspects, diagnostic and therapeutic management, and neuro-otologic disorders. Internationally acclaimed chapter authors represent a broad spectrum of areas of expertise, chosen for their ability to write clearly and concisely with an eye toward a clinical audience. The Basic Aspects section is brief and covers the

material in sufficient depth necessary for understanding later translational and clinical material. The Diagnostic and Therapeutic Management section covers all of the essential topics in the evaluation and treatment of patients with dizziness and disequilibrium. The section on Neuro-otologic Disorders is the largest portion of the volume and addresses every major diagnostic category in the field. Synthesizes widely dispersed information on the anatomy and physiology of neuro-otologic conditions into one comprehensive resource Features input from renowned international authors in basic science, otology, and neuroscience Presents the latest assessment of the techniques needed to diagnose and treat patients with dizziness, vertigo, and imbalance Provides the reader with an updated, in-depth review of the clinically relevant science and the clinical approach to those disorders of the peripheral and central vestibular system

Tin ear Marco Andrés Montenegro,2022-01-27 There are sentences that, although they go unnoticed by most people, can mark the condemned for life. The protagonist of this story, like many, has stopped singing because someone has told him that he has a tin ear. But, as a thinker -who knew a lot about this- well said, without music life would be a mistake. Cosme, then, against all odds, embarks on a long journey to find his own voice. And, with Aline, little by little he returns to being what we all always were: musicians by nature.
