**Journey of the Hidden** D. L. Crager, 2021-04-12 Leaving his home in the hidden valley, young Toca must journey for a sun season to and from the endless water in order to prove his manhood. He must accomplish the tribe's Katata Ado if he is ever to become chief. Before leaving, old Chief Acuta secretly gives Toca - whose spirit image and talisman is the Black Ghost - instructions for him to bring back three vital things. If he fails, the old chief has foreseen, over the past generations, that their people, the Nashua, will cease to exist. Early in Toca's journey through the dense rain forest of the Amazon, he encounters a young girl his age, named Shana, and her father who are not from the Amazon and are lost. They desperately need help to survive in this deadly environment. Shortly after finding them, Shana's father dies, leaving her in the hands of this strange Amazon Indian. The Black Ghost now has another heavy burden caring for this girl as he must continue and finish his strenuous Katata Ado before the thirteenth full moon rises or all is lost for him and his people. The young ones face many surprising and life-threatening situations throughout the long and tiring journey naturally causing them to grow close and mature, becoming adults. Nearing the end as they are getting close to the hidden valley, the two struggle to make it as they encounter a giant obstacle that could change the course of everything.

Lost Worlds of 1863 W. Dirk Raat, 2022-02-08 A comparative history of the relocation and removal of indigenous societies in the Greater American Southwest during the mid-nineteenth century *Lost Worlds of 1863: Relocation and Removal of American Indians in the Central Rockies and the Greater Southwest* offers a unique comparative narrative approach to the diaspora experiences of the Apaches, O'odham and Yaqui in Arizona and Sonora, the Navajo and Yavapai in Arizona, the Shoshone of Utah, the Utes of Colorado, the Northern Paiutes of Nevada and California, and other indigenous communities in the region. Focusing on the events of the year 1863, W. Dirk Raat provides an in-depth examination of the mid-nineteenth century genocide and devastation of the American Indian. Addressing the loss of both the identity and the sacred landscape of indigenous peoples, the author compares various kinds of relocation between different indigenous groups ranging from the removal and assimilation policies of the United States government regarding the Navajo and Paiute people, to the outright massacre and extermination of the Bear River Shoshone. The book is organized around detailed individual case studies that include extensive histories of the pre-contact, Spanish, and Mexican worlds that created the context for the pivotal events of 1863. This important volume: Narrates the history of Indian communities such as the Yavapai, Apache, O'odham, and Navajo both before and after 1863 Addresses how the American Indian has been able to survive genocide, and in some cases thrive in the present day Discusses topics including Indian slavery and Lincoln's Emancipation Proclamation, the Yaqui deportation, Apache prisoners of war, and Great Basin tribal politics Explores Indian ceremonial rites and belief systems to illustrate the relationship between sacred landscapes and personal identity Features sub-chapters on topics such as the Hopi-Navajo land controversy and Native American boarding schools Includes numerous

maps and illustrations, contextualizing the content for readers *Lost Worlds of 1863: Relocation and Removal of American Indians in the Central Rockies and the Greater Southwest* is essential reading for academics, students, and general readers with interest in Western history, Native American history, and the history of Indian-White relations in the United States and Mexico.

**Food Leadership** Catherine Etmanski, 2017-06-09 So much more than a human necessity, food is an entry point into a range of different topics: culture and tradition, health and well-being, small and large-scale business, ecology and politics, science and the arts, poverty and social justice, land use and civil society, global trade,

Traditional Ecological Knowledge, and more. From seed to table, the policies and practices related to all aspects of the food cycle create rich sites for learning and multiple opportunities for leadership. Although the topic of food has been gaining momentum in the field of Adult Education over the past decade, food has been relatively underexplored in the field of Leadership Studies. The purpose of this book, therefore, is to deepen our understanding and knowledge about leadership and adult learning in food-related movements worldwide. With contributing authors representing four countries and various Indigenous groups, this book examines the diverse ways in which food activists, scholars, students, and practitioners are already demonstrating, debating, and documenting leadership and learning in the context of global food systems transformation. Furthermore, it documents how these actions are supporting the innovation needed to address the increasingly complex and interconnected socio-economic and environmental challenges associated with food and agriculture. Whereas much leadership theory continues to be developed from cases in business, social movements, or other, more traditional leadership sectors, this book invites leaders and educators to look to their plates and, by extension, to local, small-scale farmers and to nature itself as sources of inspiration in their work.

*An Ethnography of the Huron Indians, 1615-1649* Elisabeth Tooker, 1991-07-01 Originally published in 1964 by the Smithsonian Institution's Bureau of American Ethnology, this book is a compilation of the ethnographic data on the seventeenth-century Huron Indians contained in The Jesuit Relations and in the writings of Samuel de Champlain and Gabriel Sagard. This study of the Hurons, who lived in the present province of Ontario, Canada, spans the period from 1615 to 1649, when they were defeated and dispersed by the Iroquois. Topics covered include dress, modes of travel, trade, war, sociopolitical organization, subsistence activities, and religious beliefs and practices. The book is invaluable for indicating the cultural similarities and differences between the Hurons and the neighboring Northern Iroquoian cultures and for documenting evidence of cultural change. This first paperback edition also includes a new introduction by the author, in which she brings her work up to date by surveying developments in the study of the Huron ethnography between 1964 and the present.
