critical forward-looking cybersecurity challenges.

Business Trends in the Digital Era Xiaoming Zhu, Bingying Song, Yingzi Ni, Yifan Ren, Rui Li, 2016-05-31 This book introduces 10 mega business trends, ranging from big data to the O2O model. By mining and analyzing mountains of data, the author identifies these 10 emerging trends and goes to great lengths to explain and support his views with up-to-date cases. By incorporating the latest developments, this book allows readers to keep abreast of rapidly advancing digital technologies and business models. In this time of mass entrepreneurship and innovation, acquiring deep insights into business trends and grasping opportunities for innovation give readers (business executives in particular) and their companies a competitive advantage and the potential to become the next success story. The Chinese version of the book has become a hit, with some business schools using it as a textbook for their S&T Innovation and Business Trends programs. It also provides business executives with a practical guide for their investment and operation decisions.

Learning Environment and Design Will W.K. Ma, Kar-wai Tong, Wing Bo Anna Tso, 2020-11-07 This special edition of the Educational Communications and Technology Yearbook Series bears a title of “Learning Environment and Design: Current and Future Impact”. It provides a timely forum to share theoretical and practical insights in both the local and international contexts in response to the fact that new media and technologies have infiltrated and

shaped the learning environments from mere physical spaces into multifaceted possibilities, impacting the ways individuals teach and learn. Designs of learning environments to harness technologies appropriately to engage learners better, as well as the roles of learners and educators play in this changing learning environment, are examples of important global issues in the discourse of the contemporary educational developments. Having gathered a diverse collection of research papers written by scholars and practitioners in the fields of education, communication and humanities across Asia, Australasia, Europe and the United States, this book gives readers a cross-cultural background on the developments of technological designs and educational practices, investigating areas in redefining of quality education; online learning and blended learning; new media in education; gamification, AI, and innovative learning technologies. Aimed to catalyze knowledge exchanges and provide fresh views on interdisciplinary research, the book sheds light on how emerging technologies can be adapted in the fields of education and communication, so as to facilitate the current and future designs of learning environments to improve learners' performances.

Brandalism Mike Sharman, 2022-03-07 In BRANDALISM, the follow-up to his bestselling, award-winning debut book *The Best Dick*, Mike Sharman delves into the (start)ups and downs associated with brand building and the need for business to dismantle, and vandalise its perceived, public-facing, persona. The future of PR and influence, when (or if) to launch a new business as

opposed to a division, raising capital, the impact of presentations, startup school fees, and emphasis on a manifesto rather than purpose, are the aspects Mike obsesses over in this insightful read, wrapped in his trademark, comedic, copy. Mike Sharman, the co-founder of the creative, digital agency Retroviral that has made more brands 'go viral', globally, than any other agency in Africa, uses his unique storytelling proposition to provide insight into 12 years of building a business from scratch, while elevating his clients to emotional, (commercial) cult status. Mike Sharman delivers the well needed wake-up call that your brand needs (and your customers deserve).

Digital Development in Korea Myung Oh,James F. Larson,2011-03-14 This book explores the role of digital information and communications technology in

South Korea's development, starting with and building upon the crucial developments of the 1980s. Its perspective draws on the information society concept and on a conceptual model of strategic restructuring of telecommunications. It also draws on firsthand experience in formulating and implementing policies. The analysis identifies aspects of the Korean experience from which developing countries around the world might benefit. Oh and Larson describe the revolutionary developments of the 1980s including the TDX electronic switching system, a major surge forward in semiconductors, the start of privatization and color television and the thoroughgoing restructuring of Korea's telecommunications sector. They further explore government leadership, the growing private sector and international trade pressures in the diffusion of broadband, mobile communication, and convergence toward a ubiquitous network society. The role of education in these developments is explored in detail, along with both the positive and negative aspects of Korea's vibrant new digital media. The book also looks at Korea's growing international involvement, its role in efforts to build a world information society, and finally, its future place in cyberspace. This book will be of interest to students, scholars and policy makers interested in communications technologies, Asian/Korean Studies and development studies.
