Torrent Lindsay Buroker,2013 When Delia chose to major in archaeology, she imagined herself as the female Indiana Jones of the Southwest. She didn't imagine herself crawling through abandoned mine shafts, scrounging for rusty pickaxes and gold pans to sell on auction sites, but Indiana Jones didn't have to make student loan payments. Scouring the mountains of Arizona with Simon, her best friend and computer geek extraordinaire, Delia dreams of turning their scavenging enterprise into a legitimate business. More, she longs to earn the respect of peers who shun her for turning into a treasure hunter. What she doesn't dream of is stumbling across a decapitated body in an old mine near Prescott. Something dangerous has come to the mountains, and a pair of Harley-riding strangers are the only ones who seem to have a clue. They speak a language Delia has never heard and carry mysterious artifacts she's never seen. Investigating these strangers might lead her to discoveries that change the face of archaeology forever ... or it might lead her and her best friend into a deadly monster's lair.

Torrent Tom Abrahams,2018-08-24 College students on vacation, a family trapped an unable to swim, a journalist out of his depth, and a doctor prepared but overwhelmed all face the rising water. And the beginnings of a conspiracy begin to surface, possibly connecting strangers and their roles in catastrophes they only vaguely recall.

Flux Jeremy Robinson,2019-02-08 Lost in time, the town of Black Creek, Kentucky becomes home to temporal layers of people, creatures, and monsters from disparate eras. Journey beyond the time of humanity and witness the rewriting of mankind's genesis. For Owen McCoy, a typical day on the job as head of security for Synergy, a research company conducting mysterious experiments, is boring at best. And that's the way he likes it. Patrolling the Appalachian mountainside, where his now deceased father taught him how to hunt, is relaxing and connects him to the past. But today is not a typical day on the job. It begins with asking a thief to join him for breakfast. Seeking to set the young man on a better path, Owen invites him to walk the perimeter with him and consider a more honest living. Before their patrol can begin, they discover evidence that the facility has been breached. When Owen's truck explodes, he's confused, but ready for whatever might come his way. At least, he thinks he is. A wave of light-bending energy--the Flux--rolls down the mountainside, transporting Owen, and everyone in the nearby town of Black Creek, to October 14, 1985, the day before his father died. Two hours later, the second Flux hits, and then a third, and a fourth, each time collecting Black Creek residents from various times. They're carried through eras filled with wild animals, monsters of myth, and ancient beasts...and then beyond. Joined by a ragtag group of temporal stowaways, including family members, Owen fights to restore order, stop the Flux, and return home, facing off against futuristic tech, primal killers, and the fear of losing his father...again. International bestselling author of *The Others* and *Infinite*, Jeremy Robinson combines science, action, and strong characters to create an ever-changing landscape that explores the past, the human condition, and the lengths people will go to save those they love.
