The First Fossil Hunters Adrienne

Mayor, 2023-04-11 The fascinating story of how the fossils of dinosaurs, mammoths, and other extinct animals influenced some of the most spectacular creatures of classical mythology Griffins, Centaurs, Cyclopes, and Giants—these fabulous creatures of classical mythology continue to live in the modern imagination through the vivid accounts that have come down to us from the ancient Greeks and Romans. But what if these beings were more than merely fictions? What if monstrous creatures once roamed the earth in the very places where their legends first arose? This is the arresting and original thesis that Adrienne Mayor explores in *The First Fossil Hunters*. Through careful research and meticulous documentation, she convincingly shows that many of the giants and monsters of myth did have a basis in fact—in the enormous bones of long-extinct species that were once abundant in the lands of the Greeks and Romans. As Mayor shows, the Greeks and Romans were well aware that a different breed of creatures once inhabited their lands. They frequently encountered the fossilized bones of these primeval beings, and they developed sophisticated concepts to explain the fossil evidence, concepts that were expressed in mythological stories. The legend of the gold-guarding griffin, for example, sprang from tales first told by Scythian gold-miners, who, passing through the Gobi Desert at the foot of the Altai

Mountains, encountered the skeletons of Protoceratops and other dinosaurs that littered the ground. Like their modern counterparts, the ancient fossil hunters collected and measured impressive petrified remains and displayed them in temples and museums; they attempted to reconstruct the appearance of these prehistoric creatures and to explain their extinction. Long thought to be fantasy, the remarkably detailed and perceptive Greek and Roman accounts of giant bone finds were actually based on solid paleontological facts. By reading these neglected narratives for the first time in the light of modern scientific discoveries, Adrienne Mayor illuminates a lost world of ancient paleontology.

The Father and Daughter: A Tale in Prose Amelia Alderson Opie, The night was dark,—the wind blew keenly over the frozen and rugged heath, when Agnes, pressing her moaning child to her bosom, was travelling on foot to her father's habitation. Would to God I had never left it! she exclaimed, as home and all its enjoyments rose in fancy to her view:—and I think my readers will be ready to join in the exclamation, when they hear the poor wanderer's history. Agnes Fitzhenry was the only child of a respectable merchant in a country town, who, having lost his wife when his daughter was very young, resolved for her sake to form no second connection. To the steady, manly affection of a father, Fitzhenry joined the fond anxieties and endearing attentions of a mother; and his parental care was amply repaid by the love and amiable qualities of Agnes. He was not rich; yet the profits of his trade were such as to enable him to bestow every possible expense on his daughter's education, and to lay up a considerable sum yearly for her future support: whatever else he could spare from his own absolute wants, he

expended in procuring comforts and pleasures for her.—What an excellent father that man is! was the frequent exclamation among his acquaintance—And what an excellent child he has! well may he be proud of her! was as commonly the answer to it. Nor was this to be wondered at:—Agnes united to extreme beauty of face and person every accomplishment that belongs to her own sex, and a great degree of that strength of mind and capacity for acquiring knowledge supposed to belong exclusively to the other. For this combination of rare qualities Agnes was admired;—for her sweetness of temper, her willingness to oblige, her seeming unconsciousness of her own merits, and her readiness to commend the merits of others,—for these still rarer qualities, Agnes was beloved: and she seldom formed an acquaintance without at the same time securing a friend. Her father thought he loved her (and perhaps he was right) as never father loved a child before; and Agnes thought she loved him as child never before loved father.—I will not marry, but live single for my father's sake, she often said;—but she altered her determination when her heart, hitherto unmoved by the addresses of the other sex, was assailed by an officer in the guards who came to recruit in the town in which she resided.
