Journeys through the Maldives Marco Carnovale,2018-12-02 Tales from the many trips to the Maldives of the author. Avoiding the tourist resorts, he visited remote villages, where tradition is combined with innovation and technology, meeting local people and trying to understand their culture. Always island hopping by boat, he went from postcard perfect uninhabited islands and through the streets of the bustling capital Malé, in its hidden corners often overlooked by tourism. In dozens of dives, he witnessed the richness of wildlife and the sparkling colors of these seas. But the islands are facing rapid changes and serious problems, and they are not always the paradise they seem. The Maldives are at a turning point, with political, economic and environmental changes that pose difficult challenges to the government and to the nation. The book is completed by an analytical index, a chronology of the Maldivian history and a bibliography.

A Date with Death Louis Sia,2002 A Date With Death is a novel dealing with two former lovers whose relationships were embroiled in both lust and hate encounters after a one-night stand. Toto, a former drug trafficker, turned over a new leaf and became a reborn Christian, contributing to the building of a new Church and setting up a legitimate tin manufacturing company. Molly Tam, an arms dealer with a dark secret past, had connections with the United States Senators, Congressmen and battleships' Commanders, contravened with shipments of military hardware from the States to the Tamil Tigers in Jaffna. Molly capitalized on the only asset she knew to procure favours from the top brass in the States and enlisted the Tamil Tigers to help her evil cause. Their interests conflicted and churned into hatred, resulting in a war when a subordinate of Toto was caught trafficking in heroin, a trap deliberately weaved by his ex-lover. A continuous chain of revenge from both camps leads to numerous deaths. The adventures take the players to far-flung places in South Africa and Texas, to those closer to home, including Thailand, Vietnam and the Philippines. One of Molly Tam's captives, a fortune teller who raped her, was satanically eliminated by Land Eating Piranhas, fondly termed The Black Widows, originating from the thick vegetations of Jaffna.

Corporate Branding T C Melewar,S F Syed Alwi,2015-04-10 A strong corporate image has power in a competitive marketplace. Its influence on reputational value and customer decision-making is only now beginning to be understood. Interest in corporate branding is exploding as marketing academics and professionals begin to realize how it can boost business performance in measurable ways. For example, it promotes customer patronage without expensive advertising and raises profitability by enabling companies to leverage their brand image when buying from particular sources. Yet there are few empirical studies available to clarify its basic tenets and fewer still that help us understand corporate branding in different parts of the world. Existing books focus mainly on conceptual ideas and real-life examples. Corporate Branding: Areas, arenas and approaches is a unique take on corporate branding that provides a global overview through rigorous research of different geographical areas across industries. An international range of leading scholars contribute their coverage across three clear themes: Area: geographical areas across the globe including the UK, USA, Europe and Asia; Arena: a variety of commercial and not-for-profit sectors, both B2B and B2C; Approach: methodological approaches to brand research design, including qualitative, quantitative, case studies, interpretivistic and social narrative. These three themes enable the reader to consider corporate branding from more perspectives and in more ways than any other corporate branding book. The result is an understanding of this strategically important, growing subject that cannot be found anywhere else. This book is an essential read for any branding student or interested professional.

Japan and Singapore in the World Economy Hitoshi Hirakawa,Hiroshi Shimizu,1999-06-24 This pioneering work examines Japan's economic activities in Singapore from 1870 to 1965. Drawing upon a wide range of published and unpublished sources, the authors shed new light on issues such as: * prostitution * foreign trade by Kobe's overseas Chinese * fishermen in the inter-war period * Japanese economic activities during the Pacific War * Japanese involvement in Singapore's post-war industrialisation plan * the Lee Kuan Yew regimes policy towards Japan * the 1960s Japanese investment boom This important work challenges commonly-held views on Japan's economic advance into Southeast Asia in general and Singapore in particular.

Singapore Struggle for Success John Drysdale,2008-12-15 Singapore: Struggle for Success is the definitive account of the events that resurrected Singapore—events that continue to shape the life of every Singaporean. Within a single generation Singaporeans underwent an extraordinary transformation. During three decades of violence and instability, Singapore was nearly torn apart by foreign occupation, political upheaval and communist urban revolution. Yet today this island state is a haven of tranquility and one of the most prosperous nations in Asia. How Lee Kuan Yew and his political colleagues persuaded the British government in the 1950s to take a gamble with home rule; how they outwitted the Communist in the 1960s; how they transformed an underdeveloped, disparate Chinese, Malay, Indian and Caucasian community from a state of poverty and political unrest into a thriving, modern nation of the 1990s—this is the theme of this meticulously researched and very readable work. Explaining Singapore's transformation, the author describes the dramatic events that brought about the very best and the very worst in the leading personalities of the time: honour and treachery, courage and cowardice, selflessness and venality

Singapore and Asia - Celebrating Globalisation and an Emerging Post-Modern Asian Civilisation Thiew Kong Ti,2014-04-01 Singapore and Asia- Celebrating Globalisation and an Emerging Post-modern Asian Civilisation TK Ti and Edward SE Ti This book examines the history of the global economy and how cultural values have empowered the rapid emergence of Singapore and East Asia. A review of the major world civilizations recounts Western hegemony since the 16th century. With legacies from Classical Mediterranean, Islamic Abbasid and Christian scholasticism, Western civilization created the modern world, pushing the borders of techno-science, rule of law, democracy and human rights. Perhaps somewhat surprisingly, the greatest impact of global modernization has been in Japan, South Korea, Taiwan, Hong Kong Singapore and China. These East Asian countries all share a Confucian heritage of hard work ethics, thrift, love of learning and respect for benign authority. Although democracy has had a lukewarm reception, there has been whole-hearted embrace of techno-science and the globalized economy. Singapore, a miniscule island state fighting for survival following its expulsion from Malaysia in 1965, showcases how uninterrupted innovative governance and modernization has created an efficient, livable and global port-city, top financial center and host to the world's largest conglomerate of Multinational Corporations. There is expectation that current research investment would transform Singapore into a mature knowledge economy. In addition to Singapore's openness and welcome of global talents and workers, committed governance has achieved rule of law, control of crime and corruption, meritocracy in political and public appointments, trade union support, and racial and religious harmony. Social support, which continues to be enhanced, is not by way of hand-outs but as subsidies in education, healthcare, and home ownership. In the 1970s and 1980s, "Asian values" was proposed to be driving the emergence of Japan and the Asian tigers. With the current awesome rise of China challenging the world order, it seems prudent to resume the conversation.

Introducing the Sociology of Food and Eating Anne Murcott,2019-02-07 This textbook equips students with the ability to analyze and think critically about contemporary food topics. A thorough introduction to the sociology of food and eating, the book also acts as a primer to the discipline of sociology more generally. Chapters start with a 'common sense' assumption about food which students frequently encounter in their own lives or in the mass media. Topics include family meals, ethnic cuisines, cooking skills and convenience foods, eating out, food waste, and 'overpackaging'. Anne Murcott shows how systematic academic research approaches can allow students to move beyond 'conventional wisdoms' to examine sociological perspectives on food and eating. Key sociological concerns such as class, gender, age, ethnicity, power and identity are also introduced, accompanied by a wide range of examples from around the globe. By the end, readers will be able to think more critically and to apply sociological approaches to questions about food and society. Introducing the Sociology of Food and Eating is an essential introductory textbook for students in sociology and food studies. It provides readers with a solid basis for success in their studies - and with a new understanding of their own attitudes to food and eating.

Eating Chilli Crab in the Anthropocene Matthew Schneider-Mayerson,2020-06-27 In this era of climate crisis, in which our very futures are at stake, sustainability is a global imperative. Yet we tend to associate sustainability, nature, and the environment with distant places, science, and policy. The truth is that everything is environmental, from transportation to taxes, work to love, cities to cuisine. This book is the first to examine contemporary Singapore from an ecocultural lens, looking at the ways that Singaporean life and culture is deeply entangled with the nonhuman lives that flourish all around us. The authors represent a new generation of cultural critics and environmental thinkers, who will inherit the future we are creating today. From chilli crab to Tiger Beer, Changi Airport to Pulau Semakau, O-levels to orang minyak films, these essays offer fresh perspectives on familiar subjects, prompting us to recognise the incredible urgency of climate change and the need to transform our ways of thinking, acting, learning, living, and governing so as to maintain a stable planet and a decent future.
