The Moons of Valder Paul Saunders, 2022-10-09 W261 was reared in an incubation tube by the Moon System of Valder's ruthless dictator as a warrior to execute his bidding. However, W621's inner yearning and belief that there was something better than a life as one of his warriors discovered a completely different destiny. Imagine if Adolph Hitler's Third Reich had succeeded in fulfilling his vision of 1000 years of rule. "The Moons of Valder" picks up what life might be like under after 1000 years of such a dictatorship. The book may be described as 'Gothic Sci-Fi'. It has elements of "Pilgrim's Progress", "The Chronicles of Narnia" and "A Brave New World". A number of people who know little about faith have found that using a fictional format can be helpful to understand the underlying principles without what can appear confusing jargon. This is such a work and the third book by the author.

Federally Funded Native Hawaiian Programs United States. Congress. Senate. Committee on Appropriations. Subcommittee on Departments of Labor, Health and Human Services, Education, and Related Agencies, 2000 At a hearing in Honolulu (Hawaii), the Subcommittee on Labor, Health and Human Services, Education and Related Agencies of the U.S. Senate Committee on Appropriations received testimony on health, education, and employment and training programs serving the Native people of Hawaii. In July 1999, a federal government brief filed in a U.S. Supreme Court case established the official legal position of the United States that Native Hawaiians have the same status as other Native people of the United States and that there is a federal trust responsibility for Native Hawaiians. Testimony from state-level administrators outlined the current status of health, housing, education, and job training for Native Hawaiians and proposed recommendations for pending federal legislation: the Native American Housing Assistance and Self-Determination Amendments of 1999, the Native Hawaiian Health Care Improvement Act, and the Native Hawaiian Education Act. Other testimony described Native Hawaiian health care systems, the Native Hawaiian heart health initiative, the Native Hawaiian Cancer Awareness Research and Training Center, the Hawaii high schools health study, the Native Hawaiian Health Scholarship Program, the practice of naturopathic medicine with Native Hawaiians, the Native Hawaiian Higher Education Program and its outcomes and impacts, programs focused on Hawaiian language and cultural maintenance, family-based early childhood education programs, the Native Hawaiian Center of Excellence (to improve the health of indigenous Hawaiians), comprehensive school-based services, and the Native Hawaiian Special Education Project. Indigenous Public Health Linda Burhansstipanov, Kathryn L. Braun, 2022-09-06 Income, education, job security, food and housing, and gender and race are all examples of the social determinants of health. These factors influence the health and well-being of patients, as well as how they interact with health care providers and receive health care, and unfortunately, certain biases can become a barrier to maintaining good health in some communities. Indigenous groups in North America and US-associated Pacific jurisdictions have been subjected to occupation and forced relocation, mandated boarding schools, and other attempts by state and federal governments to eliminate their cultural strengths and resources. Indigenous Public Health illustrates how successful community engagement strategies, programs, and resources within Indigenous communities have resulted in diverse, successful public health programs, and helped community members overcome barriers to health. Editors Linda Burhansstipanov and Kathryn L. Braun explore the problems that impact engagement efforts, discuss public health topics, acknowledge and honor the strengths of different communities, and emphasize that collaboration and the sharing of resources can only improve lives.

Diabetes and Health Disparities Leandris C. Liburd, PHD, 2009-09-14 What Liburd and colleagues provide in this edition is a framework for all practitioners involved in diabetes prevention and control. The recommendations and tools provided here are key to the success of future research and programmatic efforts. -Wayne H. Giles, MD, MS & Ann Albright, PhD, RD (From the Foreword) Type 2 diabetes and its principal risk factor, obesity, have emerged as twin epidemics in communities of color. This book investigates the epidemiology of diabetes in these minority communities, arguing that the determinants of diabetes include not only personal choices, but also broader social and contextual factors, such as community racism, residential segregation, and cultural patterns. This book includes in-depth analyses of many community-based interventions which serve African-American, Hispanic/Latino American, Asian American, and Native American populations. The author also provides suggestions for community-based initiatives to reduce the obesogenic environment many minorities live in. Key features: Includes effective intervention approaches for prevention and control of diabetes in racial and ethnic populations Explores the influence of institutionalized racism and residential segregation on the emergence of diabetes and obesity Presents extensive case studies detailing the experiences, challenges, and breakthroughs of various community health initiatives and programs This book will serve as an important resource for professors, students, community leaders, policymakers, health practitioners, and anyone interested in joining the movement to eliminate health disparities and achieve health equity.

Made to Change the World Derek Evans, 2019-07-09 All his life, Derek Evans felt a spiritual pull to be a part of something greater than himself, but it wasn't until he and a friend embarked on a transformational trip to LA's infamous skid row that he found his true calling. They returned home with a plan to build a mission-minded business that would change the world—one T-shirt at a time. When their "Spread Love, It's the Nashville Way" grassroots campaign to raise money for people recovering from homelessness and addiction caught the attention of celebrities like Lady Gaga and Miley Cyrus, it went viral and ignited a global movement to end homelessness, child hunger, and human trafficking. *Made to Change the World* is both an inside look at one man's passionate drive to make a difference, and a call to action for anyone who has ever dreamed of being a part of something that changes the world.

Ho'ola Kakou Hardy Spoeher, Spoeher Foundation, Gayle Bonham, JoAnn U. Tsark, Babette Galang, 2022-01-22 This publication is meant to serve as a brief account of the actions of people working to improve the health and well-being of the Indigenous people of Hawai'i over multiple decades.

Murakami T Haruki Murakami, 2021-11-23 The international literary icon opens his eclectic closet: Here are photographs of Murakami's extensive and personal T-shirt collection, accompanied by essays that reveal a side of the writer rarely seen by the public. Many of Haruki Murakami's fans know about his massive vinyl record collection (10,000 albums!) and his obsession with running, but few have heard about a more intimate passion: his T-shirt collecting. In *Murakami T*, the famously reclusive novelist shows us his T-shirts—from concert shirts to never-worn whiskey-themed Ts, and from beloved bookstore swag to the shirt that inspired the iconic short story *Tony Takitani*. These photographs are paired with short, frank essays that include Murakami's musings on the joy of drinking Guinness in local pubs across Ireland, the pleasure of eating a burger upon arrival in the United States, and Hawaiian surf culture in the 1980s. Together, these photographs and reflections reveal much about Murakami's multifaceted and wonderfully eccentric persona.
