Central Provinces (India)

Dakota Grammar Stephen Return Riggs, 2004 This classic work on the language, grammar, tales, history, and culture of the Dakota Indians is the result of many years of linguistic study and personal experience spent in Minnesota by Stephen R. Riggs, who arrived as a Presbyterian missionary in 1837 ... In Dakota grammar, Riggs presents three interrelating aspects of language and culture, beginning with a detailed description of the Santee dialect of the Dakota language and its grammar. The texts of the traditional stories ... are each accompanied by full English translations. Riggs also provides an ethnographic overview of various aspects of Dakota culture and history that enhances the value of the book to all students of Dakota--Back cover.

Stories of Indian Saints Mahāpati, Justin Edwards Abbott, Narhar R. Godbole, 1988 The present

book is an English translation of Mahipati's Marathi poem Bhakta-Vijaya which records the legends of Indian saints, irrespective of their difference in caste, community, creed, language and place of origin. Thus we have the record of different saints - Yayadeva, Jnanadeva, Namadeva, Ramananda, Tulasidasa, Kabir, Suradasa, Narsi Mehta and Guru Nanakadeva. A lot of information is available on Ekanath-the greatest scholar-philosopher-saint-poet-cum-social reformer and the towering personalities Tukaram and Ramadasa. It also records the miraculous and fascinating legends of several saints, how they spread the Bhakti cult, how they struggled against discrimination between man and man and how they tried to uproot the malpractices which prevailed in the name of Religion in those days.

Ute Reference Grammar Talmy Givón, 2011-01-01 Ute is a Uto-Aztecan language of the northernmost (Numic) branch, currently spoken on three reservations in western Colorado and eastern Utah. Like many other native languages of Northern America, Ute is severely endangered. This book is part of the effort toward its preservation. Typologically, Ute offers a cluster of intriguing features, best viewed from the perspective of diachronic change and grammaticalization. The book presents a

comprehensive synchronic description of grammatical structures and their communicative functions, as well as a diachronic account of a grammar in the midst of change. The book is the first of a 3-volume series which also includes a collection of oral texts and a dictionary. Ute speakers and tribal members may find in the present volume a step-by-step description of how words are combined into meaningful communication. Linguists may find a detailed account of one language, an account that is unabashedly informed by universals of grammar, communication and change.

Recentring Tourism Geographies in the 'Asian Century' Harnng Luh Sin,Mary

Mostafanezhad,Joseph M. Cheer,2022-04-19 This book considers what the transition into the Asian Century means for some of the most urgent issues in the world today, such as sustainable development, human rights, gender equality, and environmental change. The book critiques Anglo-Western centrism in tourism theory and calls on tourism scholars to make radical shifts toward more inclusive epistemology and praxis. From the British Century of the 1800s to the American Century of the 1900s to the contemporary Asian Century, tourism geographies are deeply entangled in broader

shifts in geopolitical power. In the shadow of the COVID-19 pandemic, the significance of shifts in tourism geographies and the themes addressed in this volume are more urgent than ever. That the world faces increasing turmoil is abundantly clear. Yet, amidst the disruption to the everyday, it is hope and compassion, but also political-economic restructuring that is needed to reset the tourism industry in more sustainable, equitable, and ethical directions. In no uncertain terms, the pandemic has forever changed the tourism industry as the world once knew it. This book, therefore, sets out to collectively build on the momentum of the inclusive scholarship that Critical Tourism Studies-Asia Pacific is renowned for, while also asking readers to pause and reflect on the possibilities and challenges of tourism in a post-pandemic Asian Century. The chapters in this book were originally published as a special issue of the journal, *Tourism Geographies*.

Sea Hunters of Indonesia Robert Harrison Barnes,1996 *Sea Hunters of Indonesia* is a comprehensive study of the coastal community of Lamalera, whose traditional ways of life make it unique. One is an unusual kind of sea-fishing: the hunting of whales, porpoises, and giant manta rays. The other is the production, by the women of the community, of remarkable fine dyed textiles. Recently these traditions have come under intense pressure from external economic influences, and the people of Lamalera are starting to move into modern occupations. The community, famous for the beauty of its setting as well as for its crafts, is now a major tourist attraction, and it may now survive only as part of the tourist industry. At this crucial point in the history of the region, R. H. Barnes offers a richly detailed and beautifully illustrated picture of the culture and economy of Lamalera, the fruit of many years' study. He records all aspects of life in Lamalera, and places it in the broader context of past, present, and future of Indonesia as a whole.

A Grammar of Patwin Lewis C. Lawyer, 2022-01-19 Published through the Recovering Languages and Literacies of the Americas initiative, supported by the Andrew W. Mellon Foundation. A Native American language formerly spoken in hundreds of communities in the interior of California, Patwin (also known as Wintun T^lewé) is now spoken by a small but growing number of language revitalizationists and their students. *A Grammar of Patwin* brings together two hundred years of word lists, notebooks, audio recordings, and manuscripts from archives across the United States and synthesizes this scattered collection into the first published description of the Patwin language. This book shines a light on the knowledge of past speakers and researchers with a clear and well-organized description supported by ample archival evidence. Lewis C. Lawyer addresses the full range of grammatical structure with chapters on phonetics, phonology, nominals, nominal modifiers, spatial terms, verbs, and clauses. At every level of grammatical structure there is notable variation between dialects, and this variation is painstakingly described. An introductory chapter situates the language

geographically and historically and also gives a detailed account of previous work on the language and of the archival materials on which the study is based. Throughout the process of writing this book, Lawyer remained in contact with Patwin communities and individuals, who helped to ensure that the content is appropriate from a cultural perspective.
