Television Katie Kawa,2018-07-15 It is sometimes said that we are living in

a Golden Age of television. What does that mean, and how did we get there? Readers find the answers as they trace the history of television, from its invention to the current age of Peak TV. This fascinating story is presented to readers through informative main text, annotated quotations, detailed sidebars, primary sources, and a comprehensive timeline. Television has changed nearly every aspect of life in many countries, and readers are sure to be excited by this fun and fact-filled look at how history and television have influenced each other.

A Word from Our Viewers Ray Barfield, 2007-11-30 Tracing public and critical responses to TV from its pioneering days, this book gathers and gives context to the reactions of those who saw television's early broadcasts—from the privileged few who witnessed experimental and limited-schedule programming in the 1920s and 1930s, to those who bought TV sets and hoisted antennae in the post-World War II television boom, to still more who invested in color receivers and cable subscriptions in the 1960s. While the first two major sections of this study show the views of television's first broad public, the third section shows how social and media critics, literary and visual artists, and others have expressed their charmed or chagrined responses to television in its earliest decades. Media-jaded Americans, especially younger ones, would be surprised to know how eagerly their forebears anticipated the arrival of television. Tracing public and critical responses to TV from its pioneering days, this book gathers and gives context to the reactions of

those who saw television's early broadcasts-from the privileged few who witnessed experimental and limited-schedule programming in the 1920s and 1930s, to those who bought TV sets and hoisted antennae in the post-World War II television boom, to still more who invested in color receivers and cable subscriptions in the 1960s. Viewers' comments recall the excitement of owning the first TV receiver in the neighborhood, show the vexing challenges of reception, and record the pleasure that all young and many older watchers found in early network and local programs from the beginning to the fast-changing 1960s. While the first two major sections of this study show the views of television's first broad public, the third section shows how social and media critics, literary and visual artists, and others have expressed their charmed or chagrined responses to television in its earliest decades.
