📖 ***The Hybrid Media System*** Andrew Chadwick, 2017-08-01 New communication technologies have reshaped media and politics. But who are the new power players? The Hybrid Media System is a sweeping new theory of how political communication now works. Politics is increasingly defined by organizations, groups, and individuals who are best able to blend older and newer media logics, in what Chadwick terms a hybrid system. From American presidential campaigns to WikiLeaks, from live prime ministerial debates to hotly contested political scandals, from the daily practices of journalists and campaign workers to the struggles of new activist organizations, the clash of media logics causes chaos and disintegration but also surprising new patterns of order and integration. The updated second edition features a new preface and an extensive new chapter applying the conceptual framework to the extraordinary 2016 U.S. presidential campaign, the rise of Donald Trump, and the anti-Trump resistance protests.

📖 ***Social Media at BBC News*** Valerie Belair-Gagnon, 2015-02-11 Since the emergence of social media in the journalistic landscape, the BBC has sought to produce reporting more connected to its audience while retaining its authority as a public broadcaster in crisis reporting. Using empirical analysis of crisis news production at the BBC, this book shows that the emergence of social media at the BBC and the need to manage this kind of material led to a new media logic in which tech-savvy journalists take on a new centrality in the newsroom. In this changed context, the politico-economic and socio-cultural logic have led to a more connected newsroom involving this new breed of journalists and BBC audience. This examination of news production events shows that in the midst of transformations in journalistic practices and norms, including newsgathering, sourcing, distribution and impartiality, the BBC has reasserted its authority as a public broadcaster. 📖 ***The Impact of Legislatures*** Philip Norton, 2020-09-10 The Impact of Legislatures brings together key articles and path-breaking scholarship published in The Journal of Legislative Studies during its first 25 years of publication, enabling the reader to make sense of the impact of legislatures in the modern world. Encompassing theory, comparative analysis, and county-based empirical studies, the volume examines the impact of legislatures as the key representative institutions of nations, addressing their relationships both to government and to the people. Legislatures are ubiquitous. They provide legitimacy to measures of public policy and to government. As such, they are key to how a nation is governed. But they do much more than confer legitimacy. They are generally multi-functional and functionally adaptable bodies, and are an essential link between citizen and government. However, scholarship on them has not been extensive and has often been descriptive and country-specific, limiting the capacity to make sense of them as a particular species of institution. The chapters in this volume reflect scholarship that helps the reader appreciate the significance of the place and consequences of legislatures, examining not only the relationship between the legislature and the executive, but also the oft-neglected relationship between legislatures and the people. Reflecting the growing body of research in the field of legislative studies, carried by The Journal of Legislative Studies since its inception in 1995, The Impact of Legislatures is essential reading for anyone wishing to understand the impact of legislatures in the world today.

📖 ***Social Media and Election Campaigns*** Gunn Sara Enli, Hallvard Moe, 2017-10-02 This book aims to further the research in the fields of social media and political communication by moving beyond the hype and avoiding the most eye-catching and spectacular cases. The book provides empirical insights into the diverse uses of different social media for political communication in different societies. 📖 ***Online Reporting of Elections*** Einar Thorsen, 2014-10-29 This book contributes to debates concerning online reporting of elections and the challenges facing journalism in the context of democratic change. The speed of technological adaptation by journalists and their audiences means online news is gradually becoming a normalised part of media landscapes across the world. Journalists monitor social media for insight into the political process and as an instant indication of public sentiment, rather than waiting for press releases and opinion polls. Citizens are actively participating in online political reporting too, through publishing eyewitness accounts, political commentary, crowd-sourcing and fact-checking information (of political manifestos and media reports alike). It is therefore growing increasingly important to understand how political journalism is evolving through new communicative forms and practices, in order to critique its epistemological role and function in democratic societies, and examine how these interventions influence daily online political reporting across different national contexts. This volume covers comparative, research-based studies across a range of national contexts and electoral systems, including Australia, ten African countries, the European Union, Greece, the Netherlands, India, Iran, Sweden, the UK and the USA. This book was originally published as a special issue of Journalism Practice.

IS THERE A NEED FOR POLICY AND INTERVENTION TO ENSURE THE DEVELOPMENT OF COMPREHENSIVE AND INCLUSIVE SOCIAL NETWORKING FRAMEWORKS? SOCIAL MEDIA ARE VIEWED BOTH AS A TOOL THAT ALLOWS CITIZENS TO INFLUENCE POLICYMAKING, AND AS AN OBJECT OF NEW POLICIES AND REGULATIONS, SUCH AS DATA RETENTION, PRIVACY AND COPYRIGHT LAWS, AROUND WHICH CITIZENS ARE MOBILIZING.
